Winter Shortage Seen

## *Drought Hits Farm Crops*

The effect of the mid-summer drought on area farm crops is shown in this scene at the 198-acre farm of Cecil Lyon and Carl Dunn on the Calcutta-Smiths Ferry Rd.

Dunn, left, and Harry Lyon, the former owner, stand in a field of knee-high barley that normally would have grown three feet or more with adequate rainfall. Dunn's extended hand indicates the height of barley crops in past years.

Consistent high temperatures and lack of any appreciable rainfall since July 3 have combined to reduce the size of other grain harvests and most farmers expect a shortage of feed for livestock this winter.

The effects of the long drought are seen easily in a drive through rural areas of Columbiana and neighboring counties — plumes of dust stirred by autos traveling country roads, parched pasture fields and youngsters splashing in farm ponds to escape the heat.

Putting greens on local golf courses appear as a lush oasis in a sea of burned grass stretching over the fairways.

Farmers point out the drought was hit particularly hard at fields of alfalfa which should be ready for second cutting. Most alfalfa crops are six inches shorter than normal.

The drought probably will have a belated effect on the pocketbooks of area farmers. Most have already begun feeding their livestock from silo storage supplies because of the parched pasture fields. There could be a shortage of livestock feed this winter, some farmers say.

# Rifle Bandit Gets $60 At Dresden Gas Station

## Worker, 22, Grabs Rifle From Youth

### Victim Overpowers Suspect Briefly But Yields To Pistol

A Dresden Ave. service station attendant escaped unhurt today when a rifle discharged as he disarmed a holdup man, but the robber then pulled a revolver and escaped on foot with $60.

Police immediately set up a wide search for the youth who robbed Gary Champ, 22, of 1012 Dresden Ave., night attendant at the Standard Oil Co. station on Dresden Ave. at Webber Way. Armed with a good description of the suspect, they expected to make an arrest shortly.

The holdup was timed at 6:45. The suspect escaped on foot in the maze of buildings and byways in the Poplar Ln. area at the rear of the station.

Champ told police he was alone in the station when the youth, about 20, entered at 6:25 a. m. and purchased a bottle of soft drink. As he loitered about the station, the attendant asked the unidentified youth what he wanted and the youth replied he was "waiting for someone."

Champ was cleaning the station's floor, preparing to go off duty at 8. He went to the basement to turn off the outside lights and when he returned to the top of the stairs, he found the youth confronting him, wielding a .22 caliber single-shot rifle.

The armed youth told Champ to toss the station receipts, the coin changer and his wallet onto the floor. Then he ordered the attendant into the back room.

"I thought he was going to shoot me," Champ related. "I talked to him and kept edging closer to him. Finally I was able to grab the rifle and shove it to one side. When I grabbed the gun it went off, but the bullet went to one side."

The disarmed bandit ran out of the station with Champ pursuing him. About 10 feet outside the building, Champ threw the youth

## 3,000 Watch Marchers At Newell's Fete

### Awards Total $300 For Top Groups In Annual Celebration

A crowd estimated at 3,000 to 4,000 lined Washington St. in Newell Friday night for the annual parade of the volunteer fire department, climaxing a benefit carnival week.

Thirty-four entries filed by in sweltering weather that firemen said was a contributing factor to one of the largest crowds ever seen at the carnival grounds at Clark Field following the parade.

Firemen awarded over $300 in prizes, with all musical units receiving guarantees of $50 each.

The carnival will continue today with a matinee from 1 to 4 for youngsters. Rides will be reduced to half-fare and lollypops will be given to kiddies.

Tonight's special entertainment includes selections by Donny Gillespie's band at 8:30 and pantomime acts by Nila Jo Bailey of Newell at 10:30.

The drill team of Wellsville VFW Post 9285, Ohio champions, marched away with first prize in the drill team category, while the "Scott-ettes" of Beaver Falls and the Jane-Ettes and Suzettes of East Palestine also won prizes as top marchers. The Suzettes were outfitted in black and white costumes with top hats and canes.

Prizes for fire apparatus went to Martins Ferry, best heavy pumper; Beloit, best - equipped light pumper; LaCroft, best - appearing emergency unit; Weirton, oldest truck, and McDonald (Pa.) coming the longest distance — 45 miles. Glenmoor won first prize for the best comical unit.

Judges were Mrs. Alyce Ann McDevitt, Fire Chief William Glover of Chester, Paul Wigner of New Cumberland and Dominic Zuppe, assistant Midland chief.

## 4 Killed, 2 Injured In Crash At Bedford

CLEVELAND (AP)—Four persons were killed and two others injured early today in a two-car headon collision in suburban Bedford.

The dead were identified as: Leo Hart, 46, Macedonia, riding alone and driver of one car.

John Anthony Bruile, 21, Garfield Heights; Felix Burlak, 22, Cleveland, and Aldred Towers, 18, of Cleveland. All were riding in the same car along with the injured.

$1.3 Million Involved

## *4 Are Arrested In Stocks Theft*

NEW YORK (AP) — It was a simple case of larceny, but even the Brink's robbers would blink in awe at the daring of a $120-a-week clerk accused of stealing $1.3 million in stock certificates from a Wall Street brokerage house.

The get-rich-quick scheme developed from a joking conversation between two pals at a bar, the district attorney's office said.

The Brink's robbery of more than a dozen years ago—didn't start with any jokes. But the 11 bandits who robbed the Boston counting house of $1,219,000 in cash—wore Halloween masks.

Police and the FBI announced solution of one of the biggest stock thefts of all time with the arrests Friday of four men. They included the clerk and a confederate who buried most of the treasure in a vacant lot for a week before turning it over to a mysterious "Mr. X."

"Mr. X," the only identity pinned on him by the district attorney's office, was described as a 30-year-old free lance salesman who disposed of the stolen securities for a 5 per cent cut of the take. He is being sought. The DA's office said police know who he is.

Dist. Atty. Frank S. Hogan said stock record clerk Gordon A. Tallman, 30, the admitted "inside man" in the larceny at Bache & Co. brokers, was trapped by his own brazenness.

After lifting more than a million dollars in stocks on June 12, Tallman was too nervous to sit down during his subsequent three hours in the Bache offices with the loot secreted inside his shirt, Hogan said.

But Tallman subsequently became bolder, Hogan added—and paved the way for his own arrest —when he pointed out to superiors an error in the original listing of stolen stocks.

The supervisors duly noted the error, and also wondered how anyone not connected with the theft could have detected it.

Arrested with Tallman was Robert J. Dodge, 24, an unemployed

## Check Slated Of Names On Tax Petitions

### Labor Council Files 20 Initiative Forms In Auditor's Office

City Auditor Lawrence C. Applegate is preparing to start a check on the validity of the 1,163 signatures on petitions filed in his office Friday afternoon, seeking a vote on the city income tax at the Nov. 6 general election.

The 20 petitions were turned over to the auditor at 2:05 by Joseph A. Winters, secretary-treasurer of Trades and Labor Council, which had agreed in March to seek a test of the controversial measure at the polls.

A total of 876 valid signatures is required to secure a ballot place for the initiative ordinance. The number of signatures needed is based on 10 per cent of the vote cast for governor in East Liverpool at the last general election for state offices.

Under the law, Applegate must hold the petitions 10 days for public inspection and at the same time check the validity of the signatures.

If sufficient signatures are found, the auditor will certify the number of valid signatures to the County Election Board, along with a copy of the initiative ordinance and a request for a ballot place.

The deadline for filing the initiative ordinance with the Election Board is Aug. 8. If the signature check is completed, Applegate could make his certification as early as July 31.

The auditor explained the petitions must be checked individually to determine if the signers are registered and qualified voters and to eliminate duplicated signatures.

Illegible signatures or those signed in pencil also must be thrown out, the auditor said, explaining the signers must use pen or indelible pencil.

Signatures also can be eliminated in case where a husband or wife signs for both members of a household or handwriting indicates one person signed for several, he added.

The committee which circulated the petitions was comprised

## Indices Show 6-Month Gain For Business

### Chamber's Report Lists Improvement In Jobs, Payrolls

Business conditions in the East Liverpool area in the first six months of 1962 improved measurably over the first half of 1961, the monthly business review of the Chamber of Commerce showed today.

Gains were registered in 11 of the 13 indices used in compiling the report, the Chamber said. Two of the most significant increases were in industrial employment and payrolls.

The average monthly employment in 12 area factories in the first six months of this year was 3,878, a gain of 1.2 per cent over the monthly average of 3,833 in the first half of 1961. June's employment was 3,780, down 2.6 per cent from May's 3,879.

The industrial payroll climbed 15.3 per cent — from $6,826,536 during the first six months of 1961 to $7,869,267 in the first half of this year. the payroll in June was 17 per cent higher than May, with $1,391,794 compared to $1,190,031. However, some vacation pay is included in the June figures, the report pointed out.

Bank clearings reflected a gain of 5.9 per cent, rising to $20,224,391 in the first half of this year,

## *Resignation Delayed By Celebrezze*

CLEVELAND (AP) — Anthony J. Celebrezze, new U. S. Secretary of Health, Education and Welfare, delayed his resignation as mayor of Cleveland today to save the city's taxpayers' about $121,000.

Celebrezze, serving his fifth term as mayor of Cleveland, planned to resign, effective 10 a.m. Monday. He said he moved the resignation date to July 27 after talking with President Kennedy.

Celebrezze was to have been sworn in as welfare secretary in Washington Tuesday.

By delaying his resignation, Celebrezze said, a runoff election for his successor can be held off to coincide with the regular Nov. 6, general election. If the mayor had resigned as planned, a special election would have been required Oct. 30.

Celebrezze said the president told him "to wait by all means so you can save the taxpayers' money."

The 51 - year - old Democrat's nomination to the new post was approved by voice vote of the Senate Friday. He was named last Saturday in the first change in the Kennedy Cabinet to replace Abraham A. Ribicoff. Ribicoff resigned to run for a U.S. Senate seat from Connecticut.

The mayor said he and the President will try to decide on a new date for the Washington swearing - in ceremonies next week. He said he probably would take office July 30.

## Move On Tax Cut Delayed By President

### Waits July Report On Business Before Decision Is Made

WASHINGTON (AP) — President Kennedy will wait for reports on July business activity before deciding whether to ask Congress for a tax cut this year.

Officials said Friday that Kennedy will delay the decision until mid-August, by which time most of the reports and economic indexes for July will be available.

The President and his economic advisers met late last week and looked over the figures for June, the first full month following the stock market price skid of late May. These figures, including retail sales, industrial production, unemployment, and personal income, were on the disappointing side.

They were capped Friday when the President's Council of Economic Advisers reported that the gross national product (GNP) for the second quarter of the year was running at an annual rate of $552 billion. This is a record high but well below the hopes and forecasts of the administration early this year.

Predictions of a balanced budget had been based on tax collections on a GNP rate of $570 billion by the end of 1962. Economists figured that to reach this

## *Runaway Car Rams Home; Woman Hurt*

A 62-year-old Thompson Ave. woman was being examined at City Hospital shortly before noon today after her car ran wild in the 100 block near her home, striking a parked car, uprooting a tree and tearing a portion of the porch from a double house.

Unable to get out of the path of the approaching car, three neighbors backed up against the front of the home and escaped injury.

Mrs. L. G. Jackson, 133 Thompson Ave., was thrown out of her auto after it wedged itself between a tree and the double home occupied by Duane Kilmer, 159 Thompson, and Edward Nelson, 157 Thompson.

Mrs. Jackson's granddaughter, Lori Dailey, who was a passenger in the car, apparently escaped injury but Patrolman Orin Smith, who was investigating, said he would take the youngster to the hospital for examination.

Mrs. Jackson was treated in the hospital emergency room and then was to be X-rayed.

Mrs. Kilmer, Mrs. Nelson and Mrs. Elsie Hampson, 155 Thompson Ave., who was standing on the porch at the Kilmer home, said Mrs. Jackson had just come out of the home of her daughter, Mrs. William Sharp, who also resides on Thompson Ave.

The witnesses said Mrs. Jackson got into her car and it suddenly veered across the street, struck a parked car owned by John Randolph, 165 Thompson

Lemnitzer Commander In Europe

## Taylor To Be Chairman Of Joint Chiefs Of Staff

WASHINGTON (AP) — Gen. Maxwell D. Taylor, who stalked from the Pentagon in a row over Eisenhower defense policy, is returning as top military chief. This time, he has the strongest White House backing.

President Kennedy announced Friday that Taylor, his close personal military adviser, will replace Gen. Lyman L. Lemnitzer as chairman of the Joint Chiefs of Staff this fall.

Lemnitzer will become U.S. commander in chief in Europe—and probably NATO supreme commander there—after his 2-year term as JCS chairman runs out Sept. 30.

In effect, Kennedy appeared to be easing out the Eisenhower-appointed JCS chairman who reportedly has been under a cloud since the Cuban invasion disaster 15 months ago.

These were the key moves in one of the biggest top military command shuffles in years. The shift was set in motion by Gen. Lauris Norstad's decision to retire as NATO commander in Europ in November, after six years

Many Neighbors Appear

## More Testimony Waited In State Bid To Close Club

Residents adjacent to the Veterans Social Club testified Friday in Common Pleas Court at Lisbon about late-hour noise and ribaldry outside the night spot on Pennsylvania Ave.

So many neighbors appeared to testify that there was not time to hear them all, although court stayed in session until 4:30 p.m.

Judge Joel H. Sharp continued until 1 p.m. Tuesday the hearing on the state's application for a temporary injunction against the club. The state seeks to padlock it for a year to abate a "public nuisance."

Prosecuting Atty. G. William Brokaw said he will request the court to set a hearing on the merits as soon as possible. Judge Sharp granted his request that testimony offered yesterday be used as evidence when the padlock action is heard.

Defendant Samuel Johnson, club president, steward and owner of the building, sat alone at the morning session. His counsel, Atty. Hugo Alexander of Steubenville, joined him at noon.

Alexander's repeated objections to residents' testimony about happenings outside the club were overruled. Counsel contended Johnson could not be held responsible for anything outside the club and that such testimony was irrelevant.

Judge Samuel Chertoff of Municipal Court was a witness for the state. In office since Jan. 1, 1960, he told of club-related cases which have come before him in 30 months.

He mentioned two cuttings — one inside and one outside the club — a stabbing inside the building, a patron convicted of drunken driving after leaving the club, numerous family disturbances because a husband or wife was in the club with someone else and two liquor law violations in May this year.

He testified he publicly admon-

## Check Slated Of Names On Tax Petitions

### Labor Council Files 20 Initiative Forms In Auditor's Office

City Auditor Lawrence C. Applegate is preparing to start a check on the validity of the 1,163 signatures on petitions filed in his office Friday afternoon, seeking a vote on the city income tax at the Nov. 6 general election.

The 20 petitions were turned over to the auditor at 2:05 by Joseph A. Winters, secretary-treasurer of Trades and Labor Council, which had agreed in March to seek a test of the controversial measure at the polls.

A total of 876 valid signatures is required to secure a ballot place for the initiative ordinance. The number of signatures needed is based on 10 per cent of the vote cast for governor in East Liverpool at the last general election for state offices.

Mrs. Jackson's granddaughter, Lori Dailey, who was a passenger in the car, apparently escaped injury but Patrolman Orin Smith, who was investigating, said he would take the youngster to the hospital for examination.

Mrs. Jackson was treated in the hospital emergency room and then was to be X-rayed.

Mrs. Kilmer, Mrs. Nelson and Mrs. Elsie Hampson, 155 Thompson Ave., who was standing on the porch at the Kilmer home, said Mrs. Jackson had just come out of the home of her daughter, Mrs. William Sharp, who also resides on Thompson Ave.

The witnesses said Mrs. Jackson got into her car and it suddenly veered across the street, struck a parked car owned by John Randolph, 165 Thompson

## More Testimony Waited In State Bid To Close Club

Residents adjacent to the Veterans Social Club testified Friday in Common Pleas Court at Lisbon about late-hour noise and ribaldry outside the night spot on Pennsylvania Ave.

So many neighbors appeared to testify that there was not time to hear them all, although court stayed in session until 4:30 p.m.

Judge Joel H. Sharp continued until 1 p.m. Tuesday the hearing on the state's application for a temporary injunction against the club. The state seeks to padlock it for a year to abate a "public nuisance."

Prosecuting Atty. G. William Brokaw said he will request the court to set a hearing on the merits as soon as possible. Judge Sharp granted his request that testimony offered yesterday be used as evidence when the padlock action is heard.

Defendant Samuel Johnson, club president, steward and owner of the building, sat alone at the morning session. His counsel, Atty. Hugo Alexander of Steubenville, joined him at noon.

Alexander's repeated objections to residents' testimony about happenings outside the club were overruled. Counsel contended Johnson could not be held responsible for anything outside the club and that such testimony was irrelevant.

Judge Samuel Chertoff of Municipal Court was a witness for the state. In office since Jan. 1, 1960, he told of club-related cases which have come before him in 30 months.

He mentioned two cuttings — one inside and one outside the club — a stabbing inside the building, a patron convicted of drunken driving after leaving the club, numerous family disturbances because a husband or wife was in the club with someone else and two liquor law violations in May this year.

He testified he publicly admon-

Lemnitzer Commander In Europe

## Taylor To Be Chairman Of Joint Chiefs Of Staff

WASHINGTON (AP) — Gen. Maxwell D. Taylor, who stalked from the Pentagon in a row over Eisenhower defense policy, is returning as top military chief. This time, he has the strongest White House backing.

President Kennedy announced Friday that Taylor, his close personal military adviser, will replace Gen. Lyman L. Lemnitzer as chairman of the Joint Chiefs of Staff this fall.

Lemnitzer will become U.S. commander in chief in Europe—and probably NATO supreme commander there—after his 2-year term as JCS chairman runs out Sept. 30.

In effect, Kennedy appeared to be easing out the Eisenhower-appointed JCS chairman who reportedly has been under a cloud since the Cuban invasion disaster 15 months ago.

These were the key moves in one of the biggest top military command shuffles in years. The shift was set in motion by Gen. Lauris Norstad's decision to retire as NATO commander in Europ in November, after six years

# Racial Showdown Set For Albany, Ga., Today

ALBANY, Ga. (AP)—A racial showdown—one that Negro leaders say will affect the integration movement throughout the world—was promised for this southwest Georgia city late today.

With white officialdom refusing to negotiate, a Negro integration group headed by Dr. Martin Luther King Jr. planned a massive march on City Hall to underscore the long fight against Albany's racial policies.

Negroes were told at a mass rally Friday night to assemble at two churches at 2 p.m., ready to march two hours later.

This city of 58,000, designated by Negro leaders as a decisive spot in the over-all civil rights fight, calmly went about its business with little outward indication of the tightly drawn battle lines. About 35 per cent of Albany's population is Negro.

More than 150 police officers, including state troopers, were briefed and ready.

"Get on your walking shoes," said King at the Negro rally. He sized up the racial impasse with these words:

"We've gone too far now to turn back."

City officials echoed this view. Although they declined to be quoted by name, several key officials have said the integration test here would be a decisive one for King's nonviolent movement, which started six years ago with a bus boycott at Montgomery, Ala.

There was still no official word on King's statement that City Attorney Grady Rawls was seeking a court order to expel out-of-town Negro leaders. However, Rawls took a chartered flight Friday to Atlanta where he conferred with Henry Neal, a legal aide to Gov. Ernest Vandiver.

As King and his associates, the Rev. Ralph Abernathy and other officials of the Southern Christian Leadership Conference, called for volunteers to march, the passive resistance leaders said that they expect no help from Washington.

"The salvation of the Negro in Albany is not in Washington, as much as we want to see a significant and forthright stand (by the national administration)," King told the estimated 2,000 Negroes at a church meeting.

"It is not in the governor's chair.

"It is within the hand and soul of the Negro himself."

Tallman, charged with grand larceny, was accused of being the "inside man" in the disappearance of more than $1.2 million in negotiable stocks from a Wall Street brokerage firm. Dodge, charged with receiving stolen property, was accused of being the middleman between Tallman and a "Mr. X" who is still at large. (UPI Telephoto)

## Refunds Set By Gas Firms

WASHINGTON (AP)—The Federal Power Commission announced Friday settlements under which three natural gas pipeline companies must refund about $43 million, plus interest, and reduce currently effective rates by about $6,548,600 a year. The refunds will go to wholesale customers.

The commission said the settlements raise to more than $150 million, including interest, the total amount of refunds ordered in the eight months since FPC Chairman Joseph C. Swidler announced a major effort to encourage settlements.

The new settlements involve three companies and dispose of three cases for each, or nine cases in all.

Panhandle Eastern Pipe Line Co., Kansas City, Mo., will make refunds of about $38.5 million, plus interest. The company will reduce its presently effective rates by about $4.8 million a year for gas delivered after April 30, 1962. Panhandle serves some 60 utility customers in Kansas, Missouri, Illinois, Indiana, Ohio and Michigan.

New York State Natural Gas Co., Pittsburgh, Pa., will refund about $3,965,000, plus interest. Its present rates will be reduced by about $1,540,600 a year. The company serves 16 nonaffiliated utility customers in Pennsylvania and New York, and two affiliates, East Ohio Gas Co., Cleveland, and Peoples Natural Gas Co., Pittsburgh.

North Penn Gas Co., Port Allegany, Pa., which has six utility customers in New York and Pennsylvania, will refund $677,500, plus interest. The company will decrease its currently effective rates by about $138,000 a year.

## Lausche And Young Vote On Losing Side

WASHINGTON (AP) — Ohio's Democratic Sens. Frank J. Lausche and Stephen M. Young voted on the losing side Friday as the Senate tabled (killed) an appropriations bill amendment which would have barred federal tid for the construction of racially segregated hospitals. The vote tabling the amendment was 37-33.

The two senators opposed each other as the Senate, by a 56-27 vote, gave final passage to the compromise $4,672,000,000 foreign aid bill. Young voted for passage and Lausche, against.

## Chester Council Sets Conference On Sewage Plant

A meeting of Chester Council has been scheduled tentatively Thursday night at 7:30 with the Sanitary Board and a representative of Smith & McGill Engineering Co. of Bethel, Ohio, concerning plans for the city's proposed sewage disposal plant.

Council earlier this week declared void contracts with A. R. Todd Associates of Wheeling, engineers who conducted a preliminary survey for the $450,000 project, and Magnus & Co. of Cincinnati, bonding firm.

Members of Council had indicated dissatisfaction with planning arrangements for the project, for which a federal grant of $105,000 has been alloted.

Councilmen have expressed intention to seek completion of the sewage plant and system at a cost less than that called for under the revised construction plans and financing.

Mayor Harry Abrams still is seeking an engineer to serve on the Sanitary Board, replacing the late James Bowers.

## He Goes To Wedding, But To Wrong Church

CEDAR RAPIDS, Iowa (AP) — Richard M. Acree of Cedar Rapids drove to Huxley, Iowa, the other day to attend the wedding of a business associate. He went to one of two Lutheran churches, but when the bridegroom made his appearance, Acree realized that he was, literally, in the wrong pew.

He slipped out of the church as quietly as possible, but he had to go to the reception room — to retrieve the gift he had left there, then hustle to the right wedding.

## *Driver Faces Charge After City Collision*

A Beaver Falls man is due for a Municipal Court hearing Monday morning on charges filed by police following a two-car mishap Friday at 9:40 p.m. in the right-angle turn at Pennsylvania Ave. and Elizabeth St.

Edward L. Coleman, 27, was charged with driving left of center in a collision that damaged his 1962 sedan and a 1959 imported compact operated by Clark W. Hager, 43, of 2037 Ohio Ave.

The crash damaged the left front of Coleman's auto and the left rear fender and bumper of Hager's, officers said.

Coleman told police he was headed east on Pennsylvania Ave. and "forgot about" the sharp turn, so was unable to negotiate it. He said faulty brakes contributed to the mishap. Hager told police he saw Coleman's car approaching at a high rate of speed, but was unable to avoid the crash.

A collision on E. 4th St. 250 feet east of Elm St. Friday at 9:30 p.m. involved a parked 1953 sedan driven by Wilmer Pugh Jr., 31, of Chester R.D. 1, police said.

Pugh told police he was driving west on E. 4th St. when his car was crowded by an oncoming auto. There was damage to the left rear fender of Pearson's car and the right side of Pugh's auto, police said.

Another mishap was reported Friday at 4:15 p.m. at E. 2nd and Washington Sts. It involved a truck owned by the S. & H. Candy Co. of Salem, operated by Dale H. Cochran, 40, of Berlin Center R.D. 1, and a 1952 sedan driven by Elmer Schell, 44, of 144 W. 2nd St.

Cochran told police he was not paying attention to his driving and turned into the path of Schell's oncoming car. There was damage to the right side of the truck and the right front of the auto, police said.

## Dedication Slated For Dam And Locks

GREENUP, Ky. (AP)—A mile-long flotilla of colorful craft will carry speakers and special guests to the $54 million Greenup locks and dam project on the Ohio River Sunday for dedication ceremonies.

Secretary of Commerce Luther Hodges, the principal speaker, and 400 other dignitaries will be aboard a three-barge unit propelled by two towboats for the 19-mile trip down river from Ashland.

Carlton Weaver, of Ashland, president of the Central Ohio Valley Industrial Council, stid that the event will attract visitors from more than 20 states.

## Lisbon Group Sees Warren Show, Attends Late Supper

Mrs. Carol Dowd, Mrs. Joyce Adams, Mrs. Carol Paige and Mrs. Marilyn Coleman were guests.

Officers of the chapter will meet Tuesday night, at 8 at the home of Mrs. Ronald Klein to plan for fall programs.

**2 Win Card Prizes**

The Thursday Night Club was entertained this week by Mrs. Rose Riley of Vine St.

Two tables of 500 were in play, prizes going to Mrs. Walter Ewing and Mrs. W. C. Welsh.

The next meeting will be Aug. 2 with Mrs. Roy Patterson of E. Pine St.

Mrs. Leroy Jones of Maple St. Ext. was hostess Wednesday night, instead of the usual Thursday, to the Lisbon Social Club. Miss Delores Rouse was a guest.

The group played 500 and prizes were awarded Mrs. Robert Huffman and Miss Rouse.

**Next Meeting Set**

Future meetings will be held on Wednesday. Mrs. Clifford Hutchison of Pleasant Heights will receive the club Aug. 1.

Mrs. Dennis Pastore and Mrs. Joe Chan were guests Thursday night when Mrs. Leo Chamberlain was hostess to the QOW Club at her home on E. Washington St.

Prizes at 500 went to Mrs. Carmen Ieropoli and Mrs. Pastore.

Mrs. William Welsh of E. Lincoln Way will receive the club Aug. 2.

**Committee Named**

Twenty-four members were present for the regular meeting of Pride of Center Council, Daughters of America, Thursday night at the hall, with Mrs. Kathy Bush, councilor, presiding.

A social committee was appointed for the next meeting. It is Mrs. Eleanor Hartman, Mrs. Agnes Gray and Mrs. Mae Moon. Those having birthday anniversaries in July will be honored at the meeting Thursday.

The Friendship Seven Club dispensed with card games Thursday night and instead went to Warren to the Packard Music Hall to see the show "Bye, Bye Birdie".

The group had lunch at the Golden Gate Restaurant.

**Meetings Recessed**

Meetings will resume in the fall.

A coverdish dinner at noon and a social afternoon featured the monthly meeting of the Friendship Club when Mrs. Herman Brinker of Lisbon - Leetonia Rd. Thursday. Co-hostesses were Mrs. Roy Wadell and Mrs. Kathleen Barnes. Twenty-five attended.

Mrs. Delbert Sitler, president, conducted a short business meeting.

The next meeting Aug. 9 will be a picnic at Willow Grove Park at noon, with Mrs. Bertha Lodge, Mrs. Aneta Webster and Mrs. Clyde Armstrong in charge.

Mrs. W. C. Bennett of Delman, N. Y., is visiting his week with her mother, Mrs. Helen Sexton of N. Market St. She was accompanied to Lisbon by her nieces, Misses Georgeanne and Nancy Sexton, who had been vacationing in the Bennett home.

## Chester, Newell Men Wait 40 & 8 Sessions

At least four Chester - Newell area members of Hancock County Voiture 1459 of the 40 & 8 Society are expected to attend the grand convention in Wheeling Wednesday and Thursday.

THANKS TO GAS YOUR HOME COULD BE COOL THESE HOT HOT DAYS

YOU already have half of a central air conditioning system installed... now is the time to ADD the rest...

If your house is winter-heated by a forced air gas furnace with adequate ducts, you can add to it a simple gas-operated unit that will provide summer cooling in every room now reached by warm-air outlets. That's all it takes to convert your present forced air gas furnace into a year-around central air conditioner. In summer weather, refreshingly cool, clean air circulates throughout the house. Come winter, you will enjoy the same comfortable gas heating you've always had by simply adjusting the convenient thermostat. If your furnace is ready for replacement anyhow — you can get a complete all-gas central air conditioning system. A single unit will heat and cool your entire home with clean, fresh circulated air.

## Lausche And Young Vote On Losing Side

WASHINGTON (AP) — Ohio's Democratic Sens. Frank J. Lausche and Stephen M. Young voted on the losing side Friday as the Senate tabled (killed) an appropriations bill amendment which would have barred federal tid for the construction of racially segregated hospitals. The vote tabling the amendment was 37-33.

The two senators opposed each other as the Senate, by a 56-27 vote, gave final passage to the compromise $4,672,000,000 foreign aid bill. Young voted for passage and Lausche, against.

# Judge Touches Off Fuse In Fight On Negro Vote

LAKE PROVIDENCE, La. (AP) —In a small, rural northeast Louisiana parish (county), a state judge has lit the fuse to a smoldering federal-state civil rights fight over Negro voting just eight days before the state's Democratic primary.

Dist. Judge Frank Voelker Sr. issued a restraining order Friday aimed at U.S. Dist. Judge Edwin F. Hunter Jr., who ruled last week that 28 Negroes from East Carroll Parish, where no Negro has voted in 40 years, were qualified to vote.

Hunter's action was the first in the nation under the 1960 Civil Rights Act, which gives judges the power to register qualified voters if there is no other way to alleviate discriminatory conditions. East Carroll's voter registrar, Cecil Manning, resigned June 14 and has not been replaced.

Federal attorneys say the voter registrar office here has been closed ever since U.S. Dist. Judge Ben C. Dawkins Jr. issued an injunction May 30 that forbade discrimination against prospective Negro voters.

Voelker's order claimed that the federal judge overstepped judicial bounds and performed actions of the executive, rather than the judicial branch, of government.

Issued just hours after it was asked by the state, the state court order has the apparent effect of blocking final action to register the Negroes, set for Monday by the federal judge.

Hunter has scheduled a hearing in Shreveport Monday.

After the restraining order was issued, Hunter declined to say what he would do.

But federal attorneys in Shreveport indicated the judge could remove the state action into his federal court, the normal procedure in state court suits against federal officers.

East Carroll is one of the staunchest segregationist areas in the Deep South. More than 60 per cent of its nearly 15,000 population live in rural areas, and more than 60 per cent of its population is Negro.

All U.N. Members Legally Bound

# Communist Bloc Due To Skip U.N. Payments

By WILLIAM N. OATIS

UNITED NATIONS, N.Y. (AP) —A World Court opinion that all United Nations members are legally bound to share peace-keeping costs of the Congo and Suez sparked predictions today that some debtor nations would swing into line—but not the Soviet-led Communist bloc.

The Soviet Union, which refuses to pay on either the Congo or Middle East operation, already has made clear it will ignore the 9-5 decision handed down at The Hague and oppose any attempt by the U.N. General Assembly to endorse it.

Diplomats generally expressed confidence that the 104-nation assembly can muster enough votes when it convenes this fall to uphold the court's advisory opinion.

The Hague decision opened the way for crucial assembly debate not only on whether to uphold the court's opinion, but whether to revoke the voting power of any nation falling more than two years behind in its dues for the peace-keeping operations and the regular U.N. budget. The U.N. charter provides for such penalties, but they have never been imposed.

At present only Bolivia, Guatemale, Paraguay and Yemen are two full years behind in all U.N. assessments. By paying a total of about $37,000 they could avoid sanctions. Diplomats close to the issue predicted they would do this before the assembly meets Sept. 18 for the new session.

The United States hailed the decision as one "of fundamental importance to international law and to the present and future capacity of the United Nations to maintain peace."

Officials in Washington said the court action should strengthen President Kennedy's hand in getting Congress to let him buy up half of the $200-million U.N. emergency bond issue to help save the world forum from bankruptcy.

The General Assembly had asked the World Court to hand down an opinion whether the cost of the U.N. Congo force and the emergency force stationed between Israel and Egypt should be borne by all U.N. members as apportioned by the assembly.

## *Telstar To Relay Kennedy's News Talk To Europe*

WASHINGTON (AP) — The three national television networks will carry the portion of President Kennedy's Monday news conference that is to be relayed to Europe by Telstar, the orbiting communications satellite.

Press Secretary Pierre Salinger said about 12 minutes of the news conference will be televised by way of Telstar, beginning at 3:04 p.m., EDT. The telecast will start about four minutes after the beginning of the news conference.

Salinger said CBS and ABC will televise only the portion of the news conference that is sent by way of Telstar, but that NBC would tape the full 30-minute news conference for televising beginning at 4 p.m. EDT.

All the radio networks—CBS, ABC, NBC and Mutual—will carry the entire conference live.

George H. Decker (lower left) will retire as Army Chief of Staff upon the conclusion of his term. Decker will be succeeded by Gen. Earle G. Wheeler (lower right). of service in that post. Lemnitzer will take his place perhaps for only a year.

Overshadowed by those top-level changes was Kennedy's announcement from his weekend retreat at Hyannis Port, Mass., that Gen. George H. Decker will retire Sept. 30 at the end of his 2-year term as Army chief of staff.

Decker will be supplanted by Gen. Earle G. Wheeler, little known here but reputedly a brilliant officer. Wheeler now is Norstad's deputy and for all practical purposes the operating head of U.S. forces in Europe.

Rumors of Lemnitzer and Decker's departure have been in the wind for months. Both Eisenhower administration appointees, they were said to be considered by Kennedy administration officials as rather plodding and unimaginative.

Their replacement by Taylor and Wheeler will all but clear the service chiefs of men who were put on that highest military panel by former President Dwight D. Eisenhower. The only one left is Gen. David M. Shoup, who has about 17 months left of a 4-year term as commandant of the Marine Corps. Shoup reportedly rates high with Kennedy.

## Damage Set At $275 In Route 30 Mishap

Damage was estimated at $275 in a two-car crash on Route 30, east of Chester, Friday afternoon at 2.

Hancock County sheriff's deputies said both cars were westbound, operated by Ray E. Green, 29, of Alliance, and Galen Alfred Bangsund, 20, of Montevideo, Minn.

Green's 1957 model sedan was hit in the rear by Bangsund's station wagon, deputies said. Bangsund had attempted to pass when he saw an oncoming car and pulled back into his lane, striking Green's car in the rear.

Neither driver was injured and no charges were filed. There was $175 damag to Green's sedan and $100 to the station wagon, deputies reported.

A year ago, when a similar initiative ordinance was sought, a total of 1,046 valid signatures was found out of 1,185 names on the petitions. The ordinance repealing the tax eventually was approved by the voters.

City Council enacted the present eight-tenths of one per cent tax early in March. A few weeks later, the central labor group voted to seek the vote test.

The tax amounts to 80 cents on each $100 of earnings and other income, including business and manufacturing profits and fees of professional men.

## Driver Hurt Severely As Auto Leaves Road

A 21-year-old Hanoverton area man is in "poor" condition today at Salem Central Clinic with severe head and facial injuries suffered when he was thrown through the windshield of his 1962 convertible in a crash at 1:05 this morning on Route 172 about three-tenths a mile east of New Garden.

Walter Zeigler of Hanoverton R.D. 1 suffered a possible skull fracture, multiple lacerations of the scalp and severe lacerations of the entire face, according to the Lisbon State Highway Patrol.

Officers said Zeigler was headed west when he lost control as he went over the crest of a hill. The convertible went off the right side of the highway, swerved left and then crossed back to the right, crashing head-on into a creek bank.

Formal Approval Of Treaty

# Laos Conference Okays Kingdom's Independence

GENEVA (AP) — The 14-nation Laos Conference today gave formal approval to a treaty of neutrality and independence for the Southeast Asian kingdom.

The accords—intended to take the Southeast Asian kingdom out of the cold war—mark a milestone in East-West diplomacy with the Western Big Three, the Soviet Union and Red China on the same side.

British Foreign Secretary Lord Home, in opening the meeting before it was closed to newsmen, said:

"Today we are realizing complete accord on an agreement which all of us here helped to draw up."

The conference started work on a Laos settlement 14 months ago to avert a major conflict over the strategic kingdom wracked by civil war involving pro-West and Communist-sponsored factions.

The atmosphere for today's session was one of self-satisfaction by the delegates, who included foreign ministers of 12 nations—including the United States and the Soviet Union.

The speech-making ceremony preceding Monday's actual signing brought the United States and the Soviet Union together on a point of agreement that smaller nations viewed as a good omen for other East-West disputes.

The pact called for a free, independent and neutral Laos and pledged the coalition government of Prince Souvanna Phouma to remain neutral.

The treaty not only had a strong impact in Washington and Moscow, but was of prime interest to divided Viet Nam, neighboring Thailand, Red China and India. It calls for withdrawal of all foreign troops from Laos within 75 days of the signing, except for a small French contingent training the Laotian army.

The United States has several hundred military advisers in Laos and Communist North Viet Nam has an estimated 10,000 troops there.

Withdrawal will be supervised by the International Laos Control Commission, composed of Canada, India and Poland.

The commission, which has no power to enforce the treaty terms, was expected to have trouble carrying out its task and policing the rugged border area against re-entry of foreign troops.

# New System In Meter Fines Will Begin For City Monday

Motorists were reminded today a new collection system to make it more convenient to pay overtime parking violations will go into effect Monday on a 90-day trial basis.

Safety-Service Director Robert Owen said a new type of parking ticket will be issued beginning Monday which will enable the tagged motorists to place his $1 penalty in an envelope attached to the ticket and drop it into one of 40 collection boxes installed throughout the metered area.

In the main business area downtown, two collection boxes have been installed in each block on opposite sides of the street.

Collection boxes also have been located in municipal parking lots, the director said. In some areas, only one box is installed about midway in each block, he added.

The director said he would appreciate comments from motorists about the new system. A similar system is in use in Salem.

Receipts will continue to be made out for each paid ticket, the director explained. If motorists write their name and address on the tickets before placing it in a collection box, a receipt will be mailed, he added.

The collection boxes and tickets are being furnished for the 90-day trial at no cost to the city, Owen said. The money will be collected each afternoon from the boxes, which are vandal proof, he added.

Owen said the new municipal lot at the site of the former Ceramic Theater will remain meterless until he can confer with City Solicitor Joseph W. Cooper about 40 meters received from the M. H. Rhodes Co. of Hartford, Conn.

The new devices arrived Wednesday but investigation showed they provide for a 2½-hour time limit rather than the 10-hour limit specified by the city, Owen explained.

## *Reservists Due Help To Return To Former Jobs*

COLUMBUS, Ohio (AP) — A little-known federal agency — the Bureau of Veterans' Reemployment Rights — reports that it stands ready to help returning reservists return to their former jobs.

The XX Army Corps headquarters here says reservists called to active duty during the Berlin crisis last fall, and who now wish to return to their former jobs, have been asked to file with the Bureau so area offices can contact former employers.

Under federal law, returning reservists are entitled to return to the jobs they left at the same seniority, pay, status, vacation and other rights.

Ohio Reservists who want more information on the law are asked by the XX Corps to write their regional office of the Bureau, William H. Colley, 210 Engineers' Bldg., 1365 Ontario St., Cleveland 14.

BIRMINGHAM, Ala. (AP) — In the interest of safety the Birmingham Junior Chamber of Commerce gave a member $5 and told him to jaywalk across downtown streets.

The first public - minded citizen who called him down would get the $5.

No one but Jaycee officials and city police knew the jaywalker.

He walked for a full month and still had the $5.

## *Soldier's Death 17 Years Ago Reunites Family*

MANNHEIM, Germany (AP) — A soldier's death in combat 17 years ago has resulted in the reunion here of a far-flung family.

The tearful welcome occurred Friday when the Dan Vito Spinelli family of Hamilton, Ohio, met brothers, uncles, aunts and cousins from their home in Italy.

All have been brought here by the U.S. Army to attend dedication services for Domenico Vito Spinelli, who died April 14, 1945, trying to rescue four wounded comrades pinned down by enemy fire. Next Monday would have been his 39th birthday.

Domenico was posthumously awarded the Silver Star for his deed and an Army camp — the Spinelli Barracks outside this city — has been named for him.

His father, Dan, 65, and his mother, Esther, 56, and their daughter, Mariangela, 37, arrived first Friday by Jet liner.

But soon the rest of the family arrived and a hugging, kissing, tearful reunion followed.

## *Bank Director Held Up, Robber Gets Only Lunch*

CANNES, France (AP) — Bank director Paul Lecre was held up in his bank Friday, but all the robber got was Lecre's lunch.

Lecre, 54, arrived with two briefcases — one containing two million francs ($4,000) and the other his lunch—and was set upon by a man armed with a pair of brass knuckles.

The banker tossed the briefcase with the money to a bank employe, Mrs. Anne Simondi, 33. Snaring it like a football, she dashed out for help.

The robber seized the second briefcase and escaped in a car.

Lecre went to a hospital to have his head injuries patched up and then went home for lunch.

## Flood, Fire Batter Manila, Luzon Towns

MANILA (AP)—Flood and fire battered the Philippines' main island of Luzon today.

Many Manila streets were under water. Large fires broke out in two Luzon towns and on the nearby island of Catanduanes.

## Injunction Sought

YOUNGSTOWN, Ohio (AP)—A permanent injunction to stop dumping of sewage into Lake Newport and park streams north of the lake is sought in a suit filed by the Mill Creek Park Commission Friday against Mahoning County Commissioners. The park commission also asks damages of $500,000 plus $500 a day.

## Bonds Forfeited In Lisbon Cases

LISBON — Three drivers charged by local police with stop sign violations forfeited $10 appearance bonds Friday in mayor's court.

They were Dorothy Feisley, 54, of R.D. 2, Lisbon, and Lorin S. Ruff, 60, of R.D. 2, East Rochester, both arrested at Jerome and Market Sts., and Russell Reynolds, 40, of 320 Caldwell Ave., cited at Pritchard Ave. and E. Chestnut St.

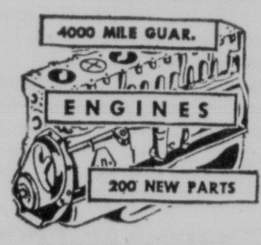

Southwest Area Court here also had forfeits as its only activity.

Shirley R. Lamp, 32, of Denbo, Pa., and George Pacurian, 39, of Warren, forfeited $15 each on speeding charges and Charles Fawcett, 21, of New Philadelphia, forfeited $25 on a reckless operation charge. They were cited by the State Highway Patrol.

## One-Car Crash Fatal

MIDDLETOWN, Ohio (AP)—A 24 - year - old Kentucky motorist died early today in a one - car crash on Interstate 75 about two miles south of Ohio 122 in adjacent Warren County. The Ohio Highway Patrol identified the victim as Woods Elliot Blair of Lexington, Ky.

A TRIBUTE TO GRANDFATHERS!
Someone has said that every child thinks of his grandfather as the real Santa Claus. How true this is no one really knows. But it is traditional with all grandpas that they lavish more love on their grandchildren than they did on their own offspring. And this is understandable. For the white-haired grandpappy looks through eyes of deep affection at his chubby little grandsons or daughters—and he lives all over again—in his mind at least—those happy days when he was a proud and youthful father with all the problems of parenthood on his shoulders. Grandfathers are surely among God's favorite people. No wonder that we . . . like most everybody . . . have a special spot in our hearts for them . . . and their tender, patient abundance of understanding!

The conference started work on a Laos settlement 14 months ago to avert a major conflict over the strategic kingdom wracked by civil war involving pro-West and Communist-sponsored factions.

The atmosphere for today's session was one of self-satisfaction by the delegates, who included foreign ministers of 12 nations—including the United States and the Soviet Union.

The speech-making ceremony preceding Monday's actual signing brought the United States and the Soviet Union together on a point of agreement that smaller nations viewed as a good omen for other East-West disputes.

The pact called for a free, independent and neutral Laos and pledged the coalition government of Prince Souvanna Phouma to remain neutral.

The treaty not only had a strong impact in Washington and Moscow, but was of prime interest to divided Viet Nam, neighboring Thailand, Red China and India. It calls for withdrawal of all foreign troops from Laos within 75 days of the signing, except for a small French contingent training the Laotian army.

The United States has several hundred military advisers in Laos and Communist North Viet Nam has an estimated 10,000 troops there.

Withdrawal will be supervised by the International Laos Control Commission, composed of Canada, India and Poland.

The commission, which has no power to enforce the treaty terms, was expected to have trouble carrying out its task and policing the rugged border area against re-entry of foreign troops.

# New System In Meter Fines Will Begin For City Monday

Motorists were reminded today a new collection system to make it more convenient to pay overtime parking violations will go into effect Monday on a 90-day trial basis.

Safety-Service Director Robert Owen said a new type of parking ticket will be issued beginning Monday which will enable the tagged motorists to place his $1 penalty in an envelope attached to the ticket and drop it into one of 40 collection boxes installed throughout the metered area.

In the main business area downtown, two collection boxes have been installed in each block on opposite sides of the street.

Collection boxes also have been located in municipal parking lots, the director said. In some areas, only one box is installed about midway in each block, he added.

The director said he would appreciate comments from motorists about the new system. A similar system is in use in Salem.

Receipts will continue to be made out for each paid ticket, the director explained. If motorists write their name and address on the tickets before placing it in a collection box, a receipt will be mailed, he added.

The collection boxes and tickets are being furnished for the 90-day trial at no cost to the city, Owen said. The money will be collected each afternoon from the boxes, which are vandal proof, he added.

Owen said the new municipal lot at the site of the former Ceramic Theater will remain meterless until he can confer with City Solicitor Joseph W. Cooper about 40 meters received from the M. H. Rhodes Co. of Hartford, Conn.

The new devices arrived Wednesday but investigation showed they provide for a 2½-hour time limit rather than the 10-hour limit specified by the city, Owen explained.

## *Reservists Due Help To Return To Former Jobs*

COLUMBUS, Ohio (AP) — A little-known federal agency — the Bureau of Veterans' Reemployment Rights — reports that it stands ready to help returning reservists return to their former jobs.

The XX Army Corps headquarters here says reservists called to active duty during the Berlin crisis last fall, and who now wish to return to their former jobs, have been asked to file with the Bureau so area offices can contact former employers.

Under federal law, returning reservists are entitled to return to the jobs they left at the same seniority, pay, status, vacation and other rights.

Ohio Reservists who want more information on the law are asked by the XX Corps to write their regional office of the Bureau, William H. Colley, 210 Engineers' Bldg., 1365 Ontario St., Cleveland 14.

## Jaywalker Walks And Walks And Walks

BIRMINGHAM, Ala. (AP) — In the interest of safety the Birmingham Junior Chamber of Commerce gave a member $5 and told him to jaywalk across downtown streets.

The first public - minded citizen who called him down would get the $5.

No one but Jaycee officials and city police knew the jaywalker.

He walked for a full month and still had the $5.

## Today In History

By The Associated Press

Today is Saturday, July 21, the 202nd day of 1962. There are 163 days left in the year.

Todays highlight in history:

On this day in 1780, General Anthony Wayne led an expedition which attacked the British blockhouse at Bergen Neck, New Jersey. The effort to capture the blockhouse was unsuccessful but the Colonists drove off many cattle upon which the British depended for food.

On this date—

In 1796, Scottish poet Robert Burns died at the age of 37.

In 1831, Belgium obtained its independence from Holland.

In 1861, the Civil War's first important battle, the first battle of Bull Run, took place.

In 1928, Britain's best - known Shakespearean actress, Ellen Terry, died.

In 1953, the world's first jet fighter - seaplane, the Sea Dart, was demonstrated at San Diego, California.

Today's birthdays:

U.S. Sen. Bourke Hickenlooper of Iowa is 66 years old. Concert violinist Isaac Stern is 42.

## *Soldier's Death 17 Years Ago Reunites Family*

MANNHEIM, Germany (AP) — A soldier's death in combat 17 years ago has resulted in the reunion here of a far-flung family.

The tearful welcome occurred Friday when the Dan Vito Spinelli family of Hamilton, Ohio, met brothers, uncles, aunts and cousins from their home in Italy.

All have been brought here by the U.S. Army to attend dedication services for Domenico Vito Spinelli, who died April 14, 1945, trying to rescue four wounded comrades pinned down by enemy fire. Next Monday would have been his 39th birthday.

Domenico was posthumously awarded the Silver Star for his deed and an Army camp — the Spinelli Barracks outside this city — has been named for him.

His father, Dan, 65, and his mother, Esther, 56, and their daughter, Mariangela, 37, arrived first Friday by Jet liner.

But soon the rest of the family arrived and a hugging, kissing, tearful reunion followed.

## *Bank Director Held Up, Robber Gets Only Lunch*

CANNES, France (AP) — Bank director Paul Lecre was held up in his bank Friday, but all the robber got was Lecre's lunch.

Lecre, 54, arrived with two briefcases — one containing two million francs ($4,000) and the other his lunch—and was set upon by a man armed with a pair of brass knuckles.

The banker tossed the briefcase with the money to a bank employe, Mrs. Anne Simondi, 33. Snaring it like a football, she dashed out for help.

The robber seized the second briefcase and escaped in a car.

Lecre went to a hospital to have his head injuries patched up and then went home for lunch.

## Flood, Fire Batter Manila, Luzon Towns

MANILA (AP)—Flood and fire battered the Philippines' main island of Luzon today.

Many Manila streets were under water. Large fires broke out in two Luzon towns and on the nearby island of Catanduanes.

## Injunction Sought

YOUNGSTOWN, Ohio (AP)—A permanent injunction to stop dumping of sewage into Lake Newport and park streams north of the lake is sought in a suit filed by the Mill Creek Park Commission Friday against Mahoning County Commissioners. The park commission also asks damages of $500,000 plus $500 a day.

## Bonds Forfeited In Lisbon Cases

LISBON — Three drivers charged by local police with stop sign violations forfeited $10 appearance bonds Friday in mayor's court.

They were Dorothy Feisley, 54, of R.D. 2, Lisbon, and Lorin S. Ruff, 60, of R.D. 2, East Rochester, both arrested at Jerome and Market Sts., and Russell Reynolds, 40, of 320 Caldwell Ave., cited at Pritchard Ave. and E. Chestnut St.

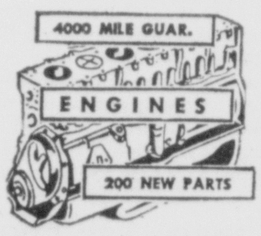

Southwest Area Court here also had forfeits as its only activity.

Shirley R. Lamp, 32, of Denbo, Pa., and George Pacurian, 39, of Warren, forfeited $15 each on speeding charges and Charles Fawcett, 21, of New Philadelphia, forfeited $25 on a reckless operation charge. They were cited by the State Highway Patrol.

## One-Car Crash Fatal

MIDDLETOWN, Ohio (AP)—A 24 - year - old Kentucky motorist died early today in a one - car crash on Interstate 75 about two miles south of Ohio 122 in adjacent Warren County. The Ohio Highway Patrol identified the victim as Woods Elliot Blair of Lexington, Ky.

A TRIBUTE TO GRANDFATHERS!
Someone has said that every child thinks of his grandfather as the real Santa Claus. How true this is no one really knows. But it is traditional with all grandpas that they lavish more love on their grandchildren than they did on their own offspring. And this is understandable. For the white-haired grandpappy looks through eyes of deep affection at his chubby little grandsons or daughters—and he lives all over again—in his mind at least—those happy days when he was a proud and youthful father with all the problems of parenthood on his shoulders. Grandfathers are surely among God's favorite people. No wonder that we . . . like most everybody . . . have a special spot in our hearts for them . . . and their tender, patient abundance of understanding!

## There Was A Strong Reaction

It has been a year since President Kennedy made us gulp with the strength of his reaction to the latest Russian threat of trouble in Berlin.

He asked for an additional three and a quarter billion dollars for the military forces, an increase in authorized strength for the Army, Navy and Air Force, doubled and tripled draft calls, activiation of Air Transport squadrons and Air National Guard tactical squadrons and said he would make a special effort to beef up civil defense.

"We cannot and will not permit any Communists to drive us out of Berlin, either gradually or by force," he declared.

In the light of steps taken to strengthen U.S. ability to resist, there seemed little doubt the President must have learned about something ominous afoot. Of particular significance was emphasis on civil defense—a presidential promise to let every citizen know what he could do to protect his family in case of attack—issuance of a civil defense booklet telling how to cope with a hypothetical burst at ground level, a food-stockpiling program and a shelter fallout program.

**LESS THAN** a month later the now-famous wall separating West and East Berlin was started. Tension increased still further.

Yet today, though strong statements again are being made about Berlin, the men called up to prove to the world the United States meant what it said about Berlin are being sent back to civilian life.

There has been no material change in the military posture of NATO to explain this. Gen. Lauris Norstad, resigning as chief of NATO forces, says there is "no unusual pressure" on his office at the present time.

Civil defense has been permitted to cool off.

**THE BITTER REACTION** of many of the men called out of civilian life to prove President Kennedy meant what he said about staying in Berlin has been discounted by this time, but the fact remains they still are not certain what they accomplished.

"The full effect of this mission on the world situation may never be known," declared Lt. Col. Paul E. Hoover in a statement to the Ohio National Guardsmen before the first group started home from France. "But if it has created a second look by those responsible for major decisions and averted a war, then you men have accomplished something through your military service that many of our leaders in the past have been unable to achieve."

We doubt that anyone will make a more concise summary of the uncertainty that grew out of our military muscle-flexing a year ago.

## We Can Guess What's Coming

Even the thickest-headed armchair general among us can guess what's coming in the international missile contest.

No sooner had Premier Khrushchev told those touring U.S. editors that Russia had an antimissile missile that could knock a fly out of the sky than we staged a demonstration over the Pacific of our own fly-knocking equipment.

A Nike-Zeus, prototype of a model that has cost $1.5 billion to develop this far and might cost as much as $15 billion to put into production, was fired at a target vehicle with a 4-500-mile range and brought it to ground—theoretically.

Actually, say the experts, if the target vehicle had been carrying a nuclear warhead and the Nike-Zeus had been carrying a nuclear warhead, the latter came close enough to the former to have exploded it. The demonstration did lack something, but it was intended to make an impact on Russian missileers, whose fly-knockers never have been demonstrated at all.

The question is whether the Soviet Union or the United States will finish first in the contest to see whose antimissile missile can knock the other fellow's missile out of the sky. But it won't end there.

The next move will be to see which will be first to develop an anti-antimissile that can knock the other fellow's antimissile out of the sky before it can hit the missile. This will be twice as hard to do than to develop an ordinary antimissile missile and will cost $3 billion to develop a prototype and $30 billion to put into production.

The anti-anti-antimissile that will come next will cost $6 billion to develop and $60 billion to put into production and so on.

The Geneva disarmament talks had better produce something soon or everybody will be missile-bound.

## Camping Out Indoors

There are those who like outdoor camping and there are those who don't.

But at the end of the camping season—be it at Guilford Lake, the Rocky Mountains or even in the back yard — young and old alike agree there is nothing in a tent to equal all the comforts of home, those fundamental accessories to living to which we become so accustomed we forget how vital they are.

It is this hardware of happiness which spells out the material differences between the American way of life and those of less fortunate lands — steel, glass and fabric differences which are made possible only by the moral and spiritual differences.

The 1960 census showed Columbiana County had 34,396 housing units (592 were trailer homes), of which 30,704 had hot and cold running water, 29,854 had flush toilets, 29,178 had bathtubs or showers and 28,854 had washing machines.

In addition, 29,401 homes had television, 29,940 had radios, 27,446 had telephones and 20,596 had one car (5,723 had two cars and 756 had three).

The standard of living of the average Russian, in recent years, has risen above the level of the Kulak, for there are cars, highways, bathrooms and television in urban districts of the USSR. But Columbiana County shows a wide margin of progress in modern life over the mode a la Moscow.

However, it is certainly not in the area of material advantage over Russia that we should express our pride.

With all of our washers, autos and comfortable homes, we must remember that were it not for the liberty of selecting our own way of life, with guarantees for individual freedoms, we might be "camping out indoors", just as millions of men, women and children are doing all year long under the Communist heirarchy.

## Cotton Corners

**By Truman Twill**

Dear Nephew: Thank you for the booklet you brought home from Coventry Cathedral. We have gone over it thoughtfully.

As you point out, the British and the Germans fight with that particular brand of savagery found in wars between brothers. If you traveled in Germany you would find all the evidence your stomach could stand of the same ruthless destruction that caused the deliberate and systematic bombing of the Coventry Cathedral to become a symbol of the hatred which divides nation from nation. Remember, it was Britain that invented saturation bombing of cities.

We wonder what may be the cumulative effect as hundreds of thousands of people from all nations make pilgrimages to Coventry. Will they have the same reaction you had when you saw those charred timbers fashioned into a rude cross and realize the symbolism of the new cathedral growing out of the ruins of the old one?

Will they too find reassurance in the knowledge that Germans came to Coventry after the war and volunteered to clear the ruins of the original St. Michael's Cathedral? Will tears come to their eyes when they enter the hospitality center built by the Germans beneath the floor of the ruined church to make perpetual atonement for their wartime act?

Who can be sure? I know that Britain's doubts about German intentions are standing in the way of a decision to join the European Common Market. The brothers still hate each other — and it has occurred to your aunt and me that preserving the burned-out ruins at Coventry and joining the new cathedral to them is a lest-we-forget arrangement with a double edge.

Aside from these feelings, the most interesting thing about the new St. Michael's is its departure from cathedral traditionalism. It's as though we had let Frank Lloyd Wright design a new White House.

Your aunt and I have carried on a running discussion about traditionalism for half a century. I happen to be a functionalist. If a church looks like a warehouse but works all right on the inside, I'm for it. Your aunt insists all things should look like the familiar images of themselves and that churches should look like churches. You can see how hopeless it is to argue with her.

St. Michael's Cathedral at Coventry certainly resembles nothing ever built before. Even I cannot accept the statement in the booklet that says it will look all right when people have grown accustomed to it. They will still be looking at older cathedrals and making invidious comparisons between traditional design and the radical lines of this first cathedral to be built in the Old World for so many centuries.

You regard all cathedrals as buildings, in the same category as castles, palaces, forts and even the remains of the walls at York and the fragment of Hadrian's Wall that never was finished. We decided you must be as confused as we were by the pulling and hauling that went on in the name of Old World religion and did not want to get mixed up in the intricacies of what happens when government and churches are the same thing.

Let us continue to hope we never get confused here over the reason for keeping our preachers and our politicians separated. Thanks for the material you've been relaying to us, including the trivia. Who really cares about a road sign directing motorists to Dulverton, Withpool, Simonsbath, Pynton, Winsford, Minehead, Whedon Cross and Taunton? Have you ever driven in Minnesota?

Regards to all.

Cotton Corners — UNCLE GEORGE

## Benefits From Space Explorations

**By Wernher von Braun**

**Before leaving for Europe, Victor Riesel asked Wernher von Braun, director of the Marshal Space Flight Center at Huntsville, Ala., to set down in writing just what our experiments in outer space will repay us. Mr. Von Braun's answer is the material for today's column.**

The dollars spent for space exploration are coming back home.

Their return is heralded by the clanging of that sensitive seismograph of our economy, the cash register. With each peal of its bell this instrument is recording some of the feedback from the curiosity that impels our space research.

The homecoming benefits affect not only your pocketbook — but your job, your comfort, your health, and your happiness.

They vary from the broad and intangible to the specific and practical. The feedback at the practical end of the spectrum is not unexpected. It is also not promised.

Next year American taxpayers will plunk out almost $4 billion on faith alone for the broad space exploration program of the National Aeronautics and Space Administration. Practical industrial applications are not promised, for they develop on broad fronts, and skitter off in unpredictable directions.

**FOR THE FIRST** time in history a people is supporting a long-range project of enormous costs and consequence for the advancement of science and technology alone — apart from the military, political, and economic aspects.

NASA's success is measured in exploration of the unknown, intellectual development, and new knowledge gained, rather than the common yardsticks of production, such as cartons, dozens, tons or bushels.

The prime commodity of our undertaking is brainpower — not horsepower.

Pure scientific inquiry has seldom been sufficient justification for obtaining huge funds for research and exploration.

Columbus pleaded stubbornly for 18 frustrating years before he outfitted the Nina, the Pinta and the Santa Maria, and sailed westward.

He had to promise economic and military benefits instead of the only true justification for probing the unknown — man's natural curiosity.

History has shown us that it pays in unexpected but useful ways to try to understand everything on the earth, beneath it, and in the heavens.

Advances in scientific knowledge spur advances in technology, and these in turn stimulate economic development.

**EVERY MAJOR** scientific discovery is like priming a pump to water the flowers of a flourishing civilization.

The United States has successfully launched more than 80 satellites and space probes. What are some of the scientific truths discovered?

From Explorer I, the first U.S. satellite, came discovery of the immense radiation field around the earth, which plays an important role in the transfer of the sun's life-sustaining energies to the earth. They must also be considered in sustained space travel by man.

Vanguard I, the tiny 3¼-pound grapefruit-size satellite, showed that the earth is slightly pear shaped.

Explorer XI discredited a major theory on the origin of the universe.

While such recondite information intrigues scientists, it is not the stuff that excites the average citizen or jingles cash registers.

**THE BROADEST** practical payoff comes from the improved technology which has made space feats possible.

There are now literally hundreds of indisputable dollars-and-cents dividends from our space effort. There are so many, in fact, that a book has been written about them. Its title is "The Practical Values of Space Exploration."

This 74-page report of the House Committee on Science and Astronautics is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., for 30 cents.

The dollars devoted to our space program are not launched up to the moon. They are spent right here on earth — in the nation's factories, workshops and laboratories. They pay salaries, buy equipment and supplies.

Numerous by-products and applications of space research are emerging daily throughout our economy.

They are more frequent in the fields of electronics, metals, fuels, ceramics, machinery, plastics, instruments, textiles, thermals, cryogenics, and medicine; but they are found in a thousand other areas.

There's a house paint that never needs renewing, and a glass that stays sterile permanently.

**MINIATURE** sensors like those attached to the bodies of John Glenn and Scott Carpenter during orbit to monitor heart action, blood pressure, and breathing rates are used in hospitals for closer watch over patients by fewer nurses.

One of the most far-reaching intangible benefits of the Space Age has been the demand for better trained and better educated people. This new era has led us to reexamine and improve our entire curriculum in elementary and high school, stressing the hard core subjects such as science, mathematics and English.

On the college level it has called for the training of more engineers and scientists, and improved curriculum, and better qualified teachers.

**THE SPACE AGE** is an infant. Man has not yet soared 200 miles from earth. Our first tottering steps across the threshhold into space can be likened to the beginning of air travel in 1903.

When the bicycle wheels of Orville Wright's 12 - horsepower plane touched down in a field at Kitty Hawk, N.C., he had flown for 59 seconds at a top speed of 30 miles an hour. No one then foresaw from this feeble beginning the jet travel of today, the huge aircraft industry, and the effects of air travel on our way of life.

Our astronauts say their orbital rides closely resembled flight in a high altitude plane. The earth was always close at hand, comfortingly available for an emergency landing.

Soon our space travelers will see the earth receding, growing smaller and smaller, until it becomes a tiny ball in the distance. Then our traveler will realize that he is truly suspended in space.

**WHO CAN** foretell what the future holds?

One thing is certain. Today's predictions will surely become tomorrow's accomplishments.

As Jules Verne, who wrote a fictional story of a trip to the moon 100 years ago, said: "Anything one man can imagine, other men can make real."

Every American has a role in making man's long - cherished dream of space travel come true. And every one will share in the feedback of curiosity which prompts the journey.

**GRIN AND BEAR IT** — **By George Lichty**

"The way grown-ups complain about sex and violence on TV programs you'd think grown-ups would quit watching them! . . ."

## Odd Facts

Hawaii consists of a series of five big islands and a number of smaller ones that lie in a close-knit nest some 2,300 miles off the California coast. The heaviest population concentration is on the island of Oahu, where Honolulu and Waikiki Beach are situated. Hawaii's booming economy is built mainly on three items — sugar, pineapples and tourists.

The machine known as a "lie detector" does not really detect lies. It merely records emotional disturbances through blood pressure, respiration, and heartbeat — all of which are believed to be affected by the feeling of guilt.

## Kennedy Forewarned

By David Lawrence

### Tax Law Changes Suggested Months Ago

Most people have an idea that the Kennedy administration's troubles and the downturn in business actually began when the President in April 1962 assailed the steel executives for trying to raise prices. Yet many of the remedies being proposed today to help prevent a serious depression were being suggested, to no avail, month after month in the year 1961 by businessmen generally.

**David Lawrence**

This correspondent talked with many economists and other well informed men in the business world and wrote several dispatches throughout 1961 setting forth the reasons why businessmen were uneasy. Here are some excerpts that tell the story:

March 16, 1961: "The current recession is supposed to be 'touching bottom,' and 'signs of an upturn' are being noted even as anti-recession measures of various kinds have yet to be considered by Congress. But the real question before the country is what is going to be done to prevent the recession that seems sure to come after the brief period of economic recovery which lies ahead.

"This is but another way of saying that the Kennedy administration, despite its large number of economic advisers, has failed to come to grips with the basic cause of the present recession and the certain cause of more recessions to come. . . .

"While tens of billions of dollars could be borrowed this year by business for industrial projects in this country — for replacement of plant and modernization of machinery — such spending is being held up.

"The two main reasons for this are that long-term interest rates are too high and the administration and Congress have failed to do anything about laws covering the tax depreciation allowances."

**MARCH 30, 1961:** "Plenty of words have been issued on how to pep up the economy by spending more money for 'social welfare,' but the true causes of unemployment — the failure to provide tax incentives in manufacturing industries—have been largely ignored."

April 26, 1961: "The President's message on tax reform was drafted by persons who are apparently versed in theories of taxation but know little about what really makes business grow.

"Temporary expedients may be important but long-range planning is even more so. A tax plan that's temporary isn't likely to be taken as seriously as one that will cover a fixed period within which expenditures for modernization or replacement of plant or equipment are made."

June 15, 1961: "Businessmen are beginning to worry about another recession — the one expected after the current recovery has run its course. . . .

"The stimulus that has been expected through a sensible program of tax incentives on depreciation allowances in connection with new plant and equipment has not materialized. Businessmen don't really know what to expect, and many of the plans that long ago should have been underway to construct new plants haven't been launched as yet.

"All the benefits to employment that would have been derived from the heavy goods industries if a broader policy on depreciation had been formulated therefore, have not been forthcoming."

**SEPT. 11, 1961:** "The Kennedy administration has crossed the Rubicon. It has decided to make war on conservative economics and embark on a course of radical economics. It is ignoring the risk that it may plunge the country into more unemployment within the next 18 months and bring about perhaps the worst recession since the 1930s.

"For President Kennedy has determined to put certain limits on business profits and the return on investments that stockholders have hitherto expected when putting their savings into private enterprise. . . .

"President Kennedy's crucial step came a few days ago when he openly threatened the steel industry with reprisals by government unless it agreed to forego any price increases at this time. . . .

"Meanwhile, the Department of Justice is engaging in a crusade against large business enterprises by brandishing antitrust suits in their faces almost every day. It is interesting to note that the executives of the 12 steel companies which got the President's identical letter are virtually forbidden to discuss it with each other, since the subject is price making.

"The steel companies could be hauled into court for price collusion if they as much as sat down together to discuss what kind of replies they should make as an industry."

Oct. 19, 1961: "Take the matter of replacing worn-out machinery. The present tax laws are woefully inadequate. The Kennedy administration to some extent recognizes the problem, but its proposed remedy has been regarded as worse than the ailment.

"A group of theorists came forth with a plan of limited scope which the administration sponsored. But the basic need for all industry and business to meet the depreciation problem was sidetracked."

**OCT. 26, 1961:** "The truth is that the economic system of this country cannot absorb these extensive increases in wage costs and still accumulate enough profits to buy the desired amount of new plant and equipment. That's why the heavy goods industries, which are today the source of so much unemployment, have been hurt in recent months."

All this was written before the steel controversy broke out on April 11, 1962. It's a summarization of the thinking of businessmen who were worried and anxious, and yet the administration apparently did not sense what was happening and took no steps to correct the growing uncertainty which has finally resulted in a mass psychology of fear and apprehension.

Now there's talk of an immediate tax cut, and new depreciation rules have been announced. But it may be wondered what would have happened if the administration had really tackled this whole problem in earnest sometime during the year 1961. Maybe business would have been booming by now.

## Through The Years

**THIRTY YEARS AGO** — T. H. Wilkinson was general chairman of the annual picnic of the Pennsylvania Ave. Methodist Episcopal Church at Thompson Park.

Ralph J. Carnahan of East Liverpool and Robert George McCready of Wellsville were granted certificates to practice pharmacy by the Ohio Board of Pharmacy.

**TWENTY YEARS AGO** —Mrs. Cora Patterson and daughter, Geraldine, of Main St., Wellsville, spent a three-week vacation at Lewis, Kan.

About 1,000 persons attended the opening services of the annual campmeeting of the Free Methodist Church of the Pittsburgh District on Anderson Blvd.

**TEN YEARS AGO** — Mrs. S. Thelma Ross was installed as district grand templar of Ohio Temple 1, Ladies of the Golden Eagle.

The Girls Rinky Dink Club of Beechwood, formerly the Girls Playmate Club, held its first summer meeting at the home of Rose Kay Mathias.

Mr. and Mrs. John Chambers and son Johnny of McKee Ave. returned from a month's vacation in Rosemead and South Gate, Calif., and Tulsa, Okla.

## Space-Age Food

Space-Age chefs are transforming familiar foods into nutritious but strange concentrates.

The new dietary items are being prepared by and for United States military and scientific agencies, often in cooperation with research groups of universities and food industries.

Among triumphs achieved so far are squeeze-tube roast beef, semi-solid chicken and noodles, dehydrated beef stew and diced chicken in gravy, and bite-size patties of ham, sausage and hamburger.

Chief objective of the work is to find effective ways to feed the astronauts who will make extended trips in space and in time land on the moon.

But the improved preserving and packaging methods developed in the experiments are expected to have many earthly uses, from military rations to everyday market foods.

America's first astronaut, John Glenn, carried tubes of semi-solid veal and pork, strained peaches and applesauce, as well as malt and mocha tablets, on his triple orbit of the earth.

## There Was A Strong Reaction

It has been a year since President Kennedy made us gulp with the strength of his reaction to the latest Russian threat of trouble in Berlin.

He asked for an additional three and a quarter billion dollars for the military forces, an increase in authorized strength for the Army, Navy and Air Force, doubled and tripled draft calls, activiation of Air Transport squadrons and Air National Guard tactical squadrons and said he would make a special effort to beef up civil defense.

"We cannot and will not permit any Communists to drive us out of Berlin, either gradually or by force," he declared.

In the light of steps taken to strengthen U.S. ability to resist, there seemed little doubt the President must have learned about something ominous afoot. Of particular significance was emphasis on civil defense—a presidential promise to let every citizen know what he could do to protect his family in case of attack—issuance of a civil defense booklet telling how to cope with a hypothetical burst at ground level, a food-stockpiling program and a shelter fallout program.

**LESS THAN** a month later the now-famous wall separating West and East Berlin was started. Tension increased still further.

Yet today, though strong statements again are being made about Berlin, the men called up to prove to the world the United States meant what it said about Berlin are being sent back to civilian life.

There has been no material change in the military posture of NATO to explain this. Gen. Lauris Norstad, resigning as chief of NATO forces, says there is "no unusual pressure" on his office at the present time.

Civil defense has been permitted to cool off.

**THE BITTER REACTION** of many of the men called out of civilian life to prove President Kennedy meant what he said about staying in Berlin has been discounted by this time, but the fact remains they still are not certain what they accomplished.

"The full effect of this mission on the world situation may never be known," declared Lt. Col. Paul E. Hoover in a statement to the Ohio National Guardsmen before the first group started home from France. "But if it has created a second look by those responsible for major decisions and averted a war, then you men have accomplished something through your military service that many of our leaders in the past have been unable to achieve."

We doubt that anyone will make a more concise summary of the uncertainty that grew out of our military muscle-flexing a year ago.

## We Can Guess What's Coming

Even the thickest-headed armchair general among us can guess what's coming in the international missile contest.

No sooner had Premier Khrushchev told those touring U.S. editors that Russia had an antimissile missile that could knock a fly out of the sky than we staged a demonstration over the Pacific of our own fly-knocking equipment.

A Nike-Zeus, prototype of a model that has cost $1.5 billion to develop this far and might cost as much as $15 billion to put into production, was fired at a target vehicle with a 4-500-mile range and brought it to ground—theoretically.

Actually, say the experts, if the target vehicle had been carrying a nuclear warhead and the Nike-Zeus had been carrying a nuclear warhead, the latter came close enough to the former to have exploded it. The demonstration did lack something, but it was intended to make an impact on Russian missileers, whose fly-knockers never have been demonstrated at all.

The question is whether the Soviet Union or the United States will finish first in the contest to see whose antimissile missile can knock the other fellow's missile out of the sky. But it won't end there.

The next move will be to see which will be first to develop an anti-antimissile that can knock the other fellow's antimissile out of the sky before it can hit the missile. This will be twice as hard to do than to develop an ordinary antimissile missile and will cost $3 billion to develop a prototype and $30 billion to put into production.

The anti-anti-antimissile that will come next will cost $6 billion to develop and $60 billion to put into production and so on.

The Geneva disarmament talks had better produce something soon or everybody will be missile-bound.

## Camping Out Indoors

There are those who like outdoor camping and there are those who don't.

But at the end of the camping season—be it at Guilford Lake, the Rocky Mountains or even in the back yard — young and old alike agree there is nothing in a tent to equal all the comforts of home, those fundamental accessories to living to which we become so accustomed we forget how vital they are.

It is this hardware of happiness which spells out the material differences between the American way of life and those of less fortunate lands — steel, glass and fabric differences which are made possible only by the moral and spiritual differences.

The 1960 census showed Columbiana County had 34,396 housing units (592 were trailer homes), of which 30,704 had hot and cold running water, 29,854 had flush toilets, 29,178 had bathtubs or showers and 28,854 had washing machines.

In addition, 29,401 homes had television, 29,940 had radios, 27,446 had telephones and 20,596 had one car (5,723 had two cars and 756 had three).

The standard of living of the average Russian, in recent years, has risen above the level of the Kulak, for there are cars, highways, bathrooms and television in urban districts of the USSR. But Columbiana County shows a wide margin of progress in modern life over the mode a la Moscow.

However, it is certainly not in the area of material advantage over Russia that we should express our pride.

With all of our washers, autos and comfortable homes, we must remember that were it not for the liberty of selecting our own way of life, with guarantees for individual freedoms, we might be "camping out indoors", just as millions of men, women and children are doing all year long under the Communist heirarchy.

## Cotton Corners

By Truman Twill

Dear Nephew: Thank you for the booklet you brought home from Coventry Cathedral. We have gone over it thoughtfully.

As you point out, the British and the Germans fight with that particular brand of savagery found in wars between brothers. If you traveled in Germany you would find all the evidence your stomach could stand of the same ruthless destruction that caused the deliberate and systematic bombing of the Coventry Cathedral to become a symbol of the hatred which divides nation from nation. Remember, it was Britain that invented saturation bombing of cities.

We wonder what may be the cumulative effect as hundreds of thousands of people from all nations make pilgrimages to Coventry. Will they have the same reaction you had when you saw those charred timbers fashioned into a rude cross and realize the symbolism of the new cathedral growing out of the ruins of the old one?

Will they too find reassurance in the knowledge that Germans came to Coventry after the war and volunteered to clear the ruins of the original St. Michael's Cathedral? Will tears come to their eyes when they enter the hospitality center built by the Germans beneath the floor of the ruined church to make perpetual atonement for their wartime act?

Who can be sure? I know that Britain's doubts about German intentions are standing in the way of a decision to join the European Common Market. The brothers still hate each other — and it has occurred to your aunt and me that preserving the burned-out ruins at Coventry and joining the new cathedral to them is a lest-we-forget arrangement with a double edge.

Aside from these feelings, the most interesting thing about the new St. Michael's is its departure from cathedral traditionalism. It's as though we had let Frank Lloyd Wright design a new White House.

Your aunt and I have carried on a running discussion about traditionalism for half a century. I happen to be a functionalist. If a church looks like a warehouse but works all right on the inside, I'm for it. Your aunt insists all things should look like the familiar images of themselves and that churches should look like churches. You can see how hopeless it is to argue with her.

St. Michael's Cathedral at Coventry certainly resembles nothing ever built before. Even I cannot accept the statement in the booklet that says it will look all right when people have grown accustomed to it. They will still be looking at older cathedrals and making invidious comparisons between traditional design and the radical lines of this first cathedral to be built in the Old World for so many centuries.

You regard all cathedrals as buildings, in the same category as castles, palaces, forts and even the remains of the walls at York and the fragment of Hadrian's Wall that never was finished. We decided you must be as confused as we were by the pulling and hauling that went on in the name of Old World religion and did not want to get mixed up in the intricacies of what happens when government and churches are the same thing.

Let us continue to hope we never get confused here over the reason for keeping our preachers and our politicians separated. Thanks for the material you've been relaying to us, including the trivia. Who really cares about a road sign directing motorists to Dulverton, Withpool, Simonsbath, Pynton, Winsford, Minehead, Whedon Cross and Taunton? Have you ever driven in Minnesota?

Regards to all.

Cotton Corners — UNCLE GEORGE

## Benefits From Space Explorations

By Wernher von Braun

**Before leaving for Europe, Victor Riesel asked Wernher von Braun, director of the Marshal Space Flight Center at Huntsville, Ala., to set down in writing just what our experiments in outer space will repay us. Mr. Von Braun's answer is the material for today's column.**

The dollars spent for space exploration are coming back home.

Their return is heralded by the clanging of that sensitive seismograph of our economy, the cash register. With each peal of its bell this instrument is recording some of the feedback from the curiosity that impels our space research.

The homecoming benefits affect not only your pocketbook — but your job, your comfort, your health, and your happiness.

They vary from the broad and intangible to the specific and practical. The feedback at the practical end of the spectrum is not unexpected. It is also not promised.

Next year American taxpayers will plunk out almost $4 billion on faith alone for the broad space exploration program of the National Aeronautics and Space Administration. Practical industrial applications are not promised, for they develop on broad fronts, and skitter off in unpredictable directions.

**FOR THE FIRST** time in history a people is supporting a long-range project of enormous costs and consequence for the advancement of science and technology alone — apart from the military, political, and economic aspects.

NASA's success is measured in exploration of the unknown, intellectual development, and new knowledge gained, rather than the common yardsticks of production, such as cartons, dozens, tons or bushels.

The prime commodity of our undertaking is brainpower — not horsepower.

Pure scientific inquiry has seldom been sufficient justification for obtaining huge funds for research and exploration.

Columbus pleaded stubbornly for 18 frustrating years before he outfitted the Nina, the Pinta and the Santa Maria, and sailed westward.

He had to promise economic and military benefits instead of the only true justification for probing the unknown — man's natural curiosity.

History has shown us that it pays in unexpected but useful ways to try to understand everything on the earth, beneath it, and in the heavens.

Advances in scientific knowledge spur advances in technology, and these in turn stimulate economic development.

**EVERY MAJOR** scientific discovery is like priming a pump to water the flowers of a flourishing civilization.

The United States has successfully launched more than 80 satellites and space probes. What are some of the scientific truths discovered?

From Explorer I, the first U.S. satellite, came discovery of the immense radiation field around the earth, which plays an important role in the transfer of the sun's life-sustaining energies to the earth. They must also be considered in sustained space travel by man.

Vanguard I, the tiny 3¼-pound grapefruit-size satellite, showed that the earth is slightly pear shaped.

Explorer XI discredited a major theory on the origin of the universe.

While such recondite information intrigues scientists, it is not the stuff that excites the average citizen or jingles cash registers.

**THE BROADEST** practical payoff comes from the improved technology which has made space feats possible.

There are now literally hundreds of indisputable dollars-and-cents dividends from our space effort. There are so many, in fact, that a book has been written about them. Its title is "The Practical Values of Space Exploration."

This 74-page report of the House Committee on Science and Astronautics is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., for 30 cents.

The dollars devoted to our space program are not launched up to the moon. They are spent right here on earth — in the nation's factories, workshops and laboratories. They pay salaries, buy equipment and supplies.

Numerous by-products and applications of space research are emerging daily throughout our economy.

They are more frequent in the fields of electronics, metals, fuels, ceramics, machinery, plastics, instruments, textiles, thermals, cryogenics, and medicine; but they are found in a thousand other areas.

There's a house paint that never needs renewing, and a glass that stays sterile permanently.

**MINIATURE** sensors like those attached to the bodies of John Glenn and Scott Carpenter during orbit to monitor heart action, blood pressure, and breathing rates are used in hospitals for closer watch over patients by fewer nurses.

One of the most far-reaching intangible benefits of the Space Age has been the demand for better trained and better educated people. This new era has led us to reexamine and improve our entire curriculum in elementary and high school, stressing the hard core subjects such as science, mathematics and English.

On the college level it has called for the training of more engineers and scientists, and improved curriculum, and better qualified teachers.

**THE SPACE AGE** is an infant. Man has not yet soared 200 miles from earth. Our first tottering steps across the threshhold into space can be likened to the beginning of air travel in 1903.

When the bicycle wheels of Orville Wright's 12 - horsepower plane touched down in a field at Kitty Hawk, N.C., he had flown for 59 seconds at a top speed of 30 miles an hour. No one then foresaw from this feeble beginning the jet travel of today, the huge aircraft industry, and the effects of air travel on our way of life.

Our astronauts say their orbital rides closely resembled flight in a high altitude plane. The earth was always close at hand, comfortingly available for an emergency landing.

Soon our space travelers will see the earth receding, growing smaller and smaller, until it becomes a tiny ball in the distance. Then our traveler will realize that he is truly suspended in space.

**WHO CAN** foretell what the future holds?

One thing is certain. Today's predictions will surely become tomorrow's accomplishments.

As Jules Verne, who wrote a fictional story of a trip to the moon 100 years ago, said: "Anything one man can imagine, other men can make real."

Every American has a role in making man's long - cherished dream of space travel come true. And every one will share in the feedback of curiosity which prompts the journey.

## Odd Facts

Hawaii consists of a series of five big islands and a number of smaller ones that lie in a close-knit nest some 2,300 miles off the California coast. The heaviest population concentration is on the island of Oahu, where Honolulu and Waikiki Beach are situated. Hawaii's booming economy is built mainly on three items — sugar, pineapples and tourists.

The machine known as a "lie detector" does not really detect lies. It merely records emotional disturbances through blood pressure, respiration, and heartbeat — all of which are believed to be affected by the feeling of guilt.

## Kennedy Forewarned

By David Lawrence

### Tax Law Changes Suggested Months Ago

Most people have an idea that the Kennedy administration's troubles and the downturn in business actually began when the President in April 1962 assailed the steel executives for trying to raise prices. Yet many of the remedies being proposed today to help prevent a serious depression were being suggested, to no avail, month after month in the year 1961 by businessmen generally.

David Lawrence

This correspondent talked with many economists and other well informed men in the business world and wrote several dispatches throughout 1961 setting forth the reasons why businessmen were uneasy. Here are some excerpts that tell the story:

March 16, 1961: "The current recession is supposed to be 'touching bottom,' and 'signs of an upturn' are being noted even as anti-recession measures of various kinds have yet to be considered by Congress. But the real question before the country is what is going to be done to prevent the recession that seems sure to come after the brief period of economic recovery which lies ahead.

"This is but another way of saying that the Kennedy administration, despite its large number of economic advisers, has failed to come to grips with the basic cause of the present recession and the certain cause of more recessions to come. . . .

"While tens of billions of dollars could be borrowed this year by business for industrial projects in this country — for replacement of plant and modernization of machinery — such spending is being held up.

"The two main reasons for this are that long-term interest rates are too high and the administration and Congress have failed to do anything about laws covering the tax depreciation allowances."

**MARCH 30, 1961:** "Plenty of words have been issued on how to pep up the economy by spending more money for 'social welfare,' but the true causes of unemployment — the failure to provide tax incentives in manufacturing industries—have been largely ignored."

April 26, 1961: "The President's message on tax reform was drafted by persons who are apparently versed in theories of taxation but know little about what really makes business grow.

"Temporary expedients may be important but long-range planning is even more so. A tax plan that's temporary isn't likely to be taken as seriously as one that will cover a fixed period within which expenditures for modernization or replacement of plant or equipment are made."

June 15, 1961: "Businessmen are beginning to worry about another recession — the one expected after the current recovery has run its course. . . .

"The stimulus that has been expected through a sensible program of tax incentives on depreciation allowances in connection with new plant and equipment has not materialized. Businessmen don't really know what to expect, and many of the plans that long ago should have been underway to construct new plants haven't been launched as yet.

"All the benefits to employment that would have been derived from the heavy goods industries if a broader policy on depreciation had been formulated therefore, have not been forthcoming."

**SEPT. 11, 1961:** "The Kennedy administration has crossed the Rubicon. It has decided to make war on conservative economics and embark on a course of radical economics. It is ignoring the risk that it may plunge the country into more unemployment within the next 18 months and bring about perhaps the worst recession since the 1930s.

"For President Kennedy has determined to put certain limits on business profits and the return on investments that stockholders have hitherto expected when putting their savings into private enterprise. . . .

"President Kennedy's crucial step came a few days ago when he openly threatened the steel industry with reprisals by government unless it agreed to forego any price increases at this time. . . .

"Meanwhile, the Department of Justice is engaging in a crusade against large business enterprises by brandishing antitrust suits in their faces almost every day. It is interesting to note that the executives of the 12 steel companies which got the President's identical letter are virtually forbidden to discuss it with each other, since the subject is price making.

"The steel companies could be hauled into court for price collusion if they as much as sat down together to discuss what kind of replies they should make as an industry."

Oct. 19, 1961: "Take the matter of replacing worn-out machinery. The present tax laws are woefully inadequate. The Kennedy administration to some extent recognizes the problem, but its proposed remedy has been regarded as worse than the ailment.

"A group of theorists came forth with a plan of limited scope which the administration sponsored. But the basic need for all industry and business to meet the depreciation problem was sidetracked."

**OCT. 26, 1961:** "The truth is that the economic system of this country cannot absorb these extensive increases in wage costs and still accumulate enough profits to buy the desired amount of new plant and equipment. That's why the heavy goods industries, which are today the source of so much unemployment, have been hurt in recent months."

All this was written before the steel controversy broke out on April 11, 1962. It's a summarization of the thinking of businessmen who were worried and anxious, and yet the administration apparently did not sense what was happening and took no steps to correct the growing uncertainty which has finally resulted in a mass psychology of fear and apprehension.

Now there's talk of an immediate tax cut, and new depreciation rules have been announced. But it may be wondered what would have happened if the administration had really tackled this whole problem in earnest sometime during the year 1961. Maybe business would have been booming by now.

# Mountain School Dean To Speak At Wellsville

The Rev. Martha L. Archer, vice president and deean of the Kentucky Mountain Bible Institute at Vancleve, Ky., will speak at the 10:45 a.m. worship service Sunday at the Wellsville First Methodist Church.

Rev. Archer, an ordained minister of the Friends Church and an evangelist, will speak of the work of the Kentucky Mountain Holiness Association, of which she is a member of the advisory board.

The work is being carried on by 129 workers deep in the mountains of Kentucky. Included are the founding and operation of a Bible College, a high school, two grade schools, 29 pastorates, a radio station, a farm and 40 foreign missionaries. The work is interdenominational.

Rev. Archer is a former resident of the Vanport and Beaver areas. She also resided in Mahoning County. She attended Asbury College in Kentucky and joined the Rev. Lela G. McConnell, founder of the association, in 1925 as a teacher at the Mt. Carmel School. She has continued in the work since.

REV. MARTHA ARCHER
*Due At Morning Service.*

She will be accompanied by a trio of Bible Institute students who will provide special music.

Atty. William L. Bush will be in charge of the service in the absence of the Rev. Arden Beck, who is on vacation. Church School is at 9:45.

# Pilgrimage Will Inaugurate Meeting Of Friends Church

The 150th session of the Ohio Yearly Meeting of the Friends Church, with headquarters at Damascus, will inaugurate its observances with a pilgrimage to the original Yearly Meeting house at Mt. Pleasant Sunday Aug. 12.

The original Yearly Meeting house was built in 1814. It now is owned by the Ohio Historical Society and is maintained as a state memorial. For nearly a century, the Mt. Pleasant Meeting house was the center of the Quaker faith in Eastern Ohio.

The old brick building, capable of seating 2,000, was an engineering achievement for its day. It is located on State Route 150, about 15 miles from St. Clairsville and the same distance from Wheeling.

There will be official delegates attending the services from Friends Churches all over Ohio.

The Rev. Harold B. Winn of Salem, who is chairman of the sesquicentennial events at Damascus, Aug. 20-26 and the Yearly Meeting clerk, will be in charge of the service.

Erwin C. Zepp, director of the Ohio Historical Society at Columbus, and Dr. Everett L. Cattell, president of Malone College, a Quaker college in Canton, will be the main speakers.

Mildred Jones of Mt. Pleasant, a great-granddaughter of Jonathan Binns, who was clerk of Ohio Yearly Meeting in 1862, will read the official minutes of Ohio Yearly Meeting when it first was held at the Short Creek House in 1813.

The sesquicentennial events at Damascus are colored with an official proclamation by Gov. Michael V. DiSalle, proclaiming it "Quaker Week" in Ohio.

Extensive plans are under way for members and friends, in addition to the official delegates, to attend the event in Mt. Pleasant.

# Drifting Car Dives In Ohio; Infant Saved

STEUBENVILLE — A Mingo man thwarted a near-tragedy Friday night in rescuing the infant daughter of Dr. John J. Carrigg from the family car after it drifted from its parking spot and plunged into the Ohio River.

Paul Voitka, 34, an amateur skindiver, jumped into the river fully-clothed, managed to open a rear door of the sinking car and hauled Grace Margaret Carrigg, 22-months, safely to the shore.

Placed in the car while the family stood nearby observing boat activity on the river, the youngster accidentally disengaged the emergency brake of the station wagon and it rolled down a grade into 10 feet of water beneath the Market St. Bridge.

The drifting car was spotted by Mrs. Carrigg and her scream alerted her husband, who began removing his clothes to attempt a rescue.

Voitka was standing on the wharf and saw the car plunge into the river. After a struggle, he opened a rear door and pulled the youngster to safety.

Taken to a hospital, she was released after examination.

While the youngster and her mother were at the hospital, Dr. Carrigg and his four other children started to the downtown area to catch a bus home.

During the walk to the bus stop, a son, Christopher, 8, tripped and fell on the sidewalk, cutting a large gash in his hand on a broken soft drink bottle he had dropped. Six sutures were required to close the wound.

A history professor at the College of Steubenville, Dr. Carrigg is the Republican candidate for 18th District congressman in the November election.

## Loss Of $1,000 Seen In Minor Kobuta Blast

A minor explosion and fire occurred in the dust collection bin at the strikebound Koppers Co., Inc., Kobuta plant early today.

A company spokesman said the fire was extinguished in a few minutes. Don Stewart, plant manager, estimated damage at less than $1,000. Another minor explosion occurred July 8 in a raw materials bin.

Negotiations between the company and Local 8-74, Oil, Chemical and Atomic Workers, representing about 615 striking employes, are scheduled to resume Tuesday at Pittsburgh. Talks also were held earlier this week.

## How Can I?

By ANNE ASHLEY

**Q. How can I clean and polish some antique brass articles?**

A. By rubbing them with a solution of vinegar and salt. This will not only produce a real bright finish, but will make the articles clean-looking.

**Q. How can I make a tastier pie crust?**

A. Try adding just a bit of sugar to each cup of flour used in making pie crust. It will improve the flavor and also the texture of your crust.

**Q. How can I give first aid to a torn rubber girdle?**

A. Buy yourself a tire-patch kit at the service station, then cement a tire patch on the rip in your girdle, and you should be "well contained" again!

## Burglar Uses Tricky Entry And Gets $400

OXFORD, Ala. (AP) — When the voice said "Mama, let me in," Mrs. L. C. Shirey thought it was her son returning home and she opened the door of her apartment.

The man who confronted her had a pistol and robbed her of $400.

## Touring French Girls Feted At Weiner Roast

Two French girls on tour of the United States were introduced to that unique American delicacy, the hot dog, when they were entertained Thursday night at the home of Police Chief Bernard Zlatovich of Ohioville Borough.

The girls are Sylvie Gillette and Josette Dubois, both of Paris and both 24. They also were entertained earlier by Mr. and Mrs. John Melnick, neighbors of Zlatovich. Carrying a sign reading "French Students," they were hitch-hiking from Pittsburgh to Cleveland.

The chief arranged a ride to Cleveland for the girls Friday.

Use the drugstore wrap on picnic sandwiches. Place a sandwich on a square of waxed paper or foil, draw up two opposite sides so edges meet and fold over several times; now fold over each open side several times.

# Free Methodists Wait Conference Sessions

The Rev. and Mrs. Elmer Root, missionaries on furlough from India, will be among guests when the 80th annual session of the Pittsburgh Conference of the Free Methodist Church convenes Tuesday morning at 10 at the campgrounds on Anderson Blvd.

The Roots, who are scheduled to speak at Thursday evening's service, have completed 40 years of service as missionaries under the General Missionary Board of the denomination.

For the last four years, the Roots have been directing a school for the training of lay leaders in Central India. During that time, 73 families studied at the Lay Leaders' Institute.

Rev. and Mrs. Root are graduates of Seattle Pacific College and took additional study at Biblical Seminary in New York City. They will show colored slides of work in India.

Bishop E. C. John of Spring Arbor, Mich., a native of the Pittsburgh Conference, will preside throughout the sessions. He served a number of churches and also was district superintendent of the Fairmont and Uniontown Districts. He left the Pittsburgh Conference to seeve in Asia as director of mission affairs.

REV. ELMER ROOT
*Missionary On Furlough.*

Ministers and delegates from 100 churches are expected to begin arriving Monday.

## Reports Of 'Big Cat' Continue In Ohioville

Ohioville police still are receiving reports of a large "cat" roaming in the borough with the latest coming from a motorist who said he saw it Friday night in the Fredricktown Rd. and Salem Church Rd. area.

The motorist told police he spotted the "cat" as he drove past it, then turned around and drove past it again.

Police Chief Bernard Zlatovich said he searched the area but found nothing. The "cat" first was reported seen July 13 on the C. E. Chaffee property off Wilson Hill Rd. at Smiths Ferry.

## Ground Breaking Set In Beaver Local Work

Ground - breaking is scheduled Monday for a 110,273 project at Beaver Local Public School near Williamsport.

The job calls for construction of two more classrooms, a gymnasium and a stage. Seating capacity of the auditorium will be 400 to 500.

It is part of $253,000 in new construction under way this summer at four of the system's six schools.

The modern expression "two bits," used to signify a quarter of a dollar, originated in the days when the Spanish dollar was often used as a medium of currency in America. When small change was required, the dollar was cut and could be divided into eight pieces, or "bits."

# Bootblack For 45 Years Has Shoes Shined By Executive

NEW YORK (AP)—Every day, it's swishing the old cloth back and forth, looking at those well-shod feet perched up near his face, whiffing the scents of cleaner, dyes and wax.

Mike Graziano has toiled among them for 45 years, knowing shoes as intimately as his own stained hands.

But Friday it was different.

Mike Graziano, 64, got a shine.

He sat back on a chair, smoking a long cigar, grinning broadly, dressed in his best suit and a red-flowered tie, his feet on a bootblack box while the boss shined his shoes.

The boss was Robert C. Kirkwood, president of F. W. Woolworth Co., where Graziano has spent nearly the last half-century polishing the footwear of executives and employes.

Down on his knees, Kirkwood did a careful job, dusting off Graziano's black shoes, shining them to a high glow.

Then Graziano stepped down, inspected the job, shook his head in approval, and tossed Kirkwood a quarter.

About 100 top executives of the store chain were on hand, chuckling at the reversed roles. It was in honor of Graziano's 45th shoeshining anniversary, and there was a two-foot-square cake, alight with 45 candles.

Kirkwood, after finishing his work, also presented Graziano with a toy bank filled with paper money. Then he returned the quarter to Graziano.

The crowd dispersed.

And Mike Graziano, of Brooklyn, like uncounted bootblacks in uncounted business buildings everywhere, picked up his box and went back to work.

figure the second quarter rate syould have been about $565 billion — $13 billion more than what was reported Friday.

Kennedy and his advisers reportedly want more information to determine whether the June figures represented a lull in the recovery from the 1960 recession or a leveling off that could presage a new recession.

Calls for a quick tax cut to stimulate the economy have come from both labor and business spokesmen in recent weeks. Kennedy has said he will propose a tax cut along with tax reforms next year and might—if the economy required it—seek a tax reduction before the present Congress adjourns.

# Missouri Police End Jaunt For 2 Local Youths, 15

Police at St. Louis, Mo., today interrupted a Western trip of two 15-year-old East Liverpool boys who vanished Thursday morning, taking along a small tent and two sleeping bags.

The mothers of the two filed missing persons reports with police here about noon Friday. They are Michael Miller, 314 Ogden St., and Gary Casto, 1003 Lincoln Ave. The mothers said they believed the boys were headed for California.

Miller is the son of Mrs. Louise Miller, while Casto is the son of Mrs. Orville Casto.

St. Louis police notified the East Liverpool department the two boys were nabbed there at 7 this morning. Mrs. Miller told the local department she will go to St. Louis to return the pair, leaving on the first available bus.

The island of St. Helena in the middle of the South Atlantic was so important as a supply station for sailing ships that 1,500 stopped there in 1845. With the advent of stream it's importance declined to a point where only 30 ships put into its harbor in 1959.

# Pilgrimage Will Inaugurate Meeting Of Friends Church

The 150th session of the Ohio Yearly Meeting of the Friends Church, with headquarters at Damascus, will inaugurate its observances with a pilgrimage to the original Yearly Meeting house at Mt. Pleasant Sunday Aug. 12.

The original Yearly Meeting house was built in 1814. It now is owned by the Ohio Historical Society and is maintained as a state memorial. For nearly a century, the Mt. Pleasant Meeting house was the center of the Quaker faith in Eastern Ohio.

The old brick building, capable of seating 2,000, was an engineering achievement for its day. It is located on State Route 150, about 15 miles from St. Clairsville and the same distance from Wheeling.

There will be official delegates attending the services from Friends Churches all over Ohio.

The Rev. Harold B. Winn of Salem, who is chairman of the sesquicentennial events at Damascus, Aug. 20-26 and the Yearly Meeting clerk, will be in charge of the service.

Erwin C. Zepp, director of the Ohio Historical Society at Columbus, and Dr. Everett L. Cattell, president of Malone College, a Quaker college in Canton, will be the main speakers.

Mildred Jones of Mt. Pleasant, a great-granddaughter of Jonathan Binns, who was clerk of Ohio Yearly Meeting in 1862, will read the official minutes of Ohio Yearly Meeting when it first was held at the Short Creek House in 1813.

The sesquicentennial events at Damascus are colored with an official proclamation by Gov. Michael V. DiSalle, proclaiming it "Quaker Week" in Ohio.

Extensive plans are under way for members and friends, in addition to the official delegates, to attend the event in Mt. Pleasant.

# Drifting Car Dives In Ohio; Infant Saved

STEUBENVILLE — A Mingo man thwarted a near-tragedy Friday night in rescuing the infant daughter of Dr. John J. Carrigg from the family car after it drifted from its parking spot and plunged into the Ohio River.

Paul Voitka, 34, an amateur skindiver, jumped into the river fully-clothed, managed to open a rear door of the sinking car and hauled Grace Margaret Carrigg, 22-months, safely to the shore.

Placed in the car while the family stood nearby observing boat activity on the river, the youngster accidentally disengaged the emergency brake of the station wagon and it rolled down a grade into 10 feet of water beneath the Market St. Bridge.

The drifting car was spotted by Mrs. Carrigg and her scream alerted her husband, who began removing his clothes to attempt a rescue.

Voitka was standing on the wharf and saw the car plunge into the river. After a struggle, he opened a rear door and pulled the youngster to safety.

Taken to a hospital, she was released after examination.

While the youngster and her mother were at the hospital, Dr. Carrigg and his four other children started to the downtown area to catch a bus home.

During the walk to the bus stop, a son, Christopher, 8, tripped and fell on the sidewalk, cutting a large gash in his hand on a broken soft drink bottle he had dropped. Six sutures were required to close the wound.

A history professor at the College of Steubenville, Dr. Carrigg is the Republican candidate for 18th District congressman in the November election.

## Loss Of $1,000 Seen In Minor Kobuta Blast

A minor explosion and fire occurred in the dust collection bin at the strikebound Koppers Co., Inc., Kobuta plant early today.

A company spokesman said the fire was extinguished in a few minutes. Don Stewart, plant manager, estimated damage at less than $1,000. Another minor explosion occurred July 8 in a raw materials bin.

Negotiations between the company and Local 8-74, Oil, Chemical and Atomic Workers, representing about 615 striking employes, are scheduled to resume Tuesday at Pittsburgh. Talks also were held earlier this week.

## How Can I?

By ANNE ASHLEY

**Q. How can I clean and polish some antique brass articles?**

A. By rubbing them with a solution of vinegar and salt. This will not only produce a real bright finish, but will make the articles clean-looking.

**Q. How can I make a tastier pie crust?**

A. Try adding just a bit of sugar to each cup of flour used in making pie crust. It will improve the flavor and also the texture of your crust.

**Q. How can I give first aid to a torn rubber girdle?**

A. Buy yourself a tire-patch kit at the service station, then cement a tire patch on the rip in your girdle, and you should be "well contained" again!

## Burglar Uses Tricky Entry And Gets $400

OXFORD, Ala. (AP) — When the voice said "Mama, let me in," Mrs. L. C. Shirey thought it was her son returning home and she opened the door of her apartment.

The man who confronted her had a pistol and robbed her of $400.

They were accompanied by Mrs. Carl Soisson, Mrs. Bernard Glenn and Mrs. Marie Andrews, leaders.

The sewing club met Thursday evening and made plans for a bake sale Aug. 4. Details will be announced after the club's meeting next Thursday.

## Touring French Girls Feted At Weiner Roast

Two French girls on tour of the United States were introduced to that unique American delicacy, the hot dog, when they were entertained Thursday night at the home of Police Chief Bernard Zlatovich of Ohioville Borough.

The girls are Sylvie Gillette and Josette Dubois, both of Paris and both 24. They also were entertained earlier by Mr. and Mrs. John Melnick, neighbors of Zlatovich. Carrying a sign reading "French Students," they were hitch-hiking from Pittsburgh to Cleveland.

The chief arranged a ride to Cleveland for the girls Friday.

Use the drugstore wrap on picnic sandwiches. Place a sandwich on a square of waxed paper or foil, draw up two opposite sides so edges meet and fold over several times; now fold over each open side several times.

# Free Methodists Wait Conference Sessions

The Rev. and Mrs. Elmer Root, missionaries on furlough from India, will be among guests when the 80th annual session of the Pittsburgh Conference of the Free Methodist Church convenes Tuesday morning at 10 at the campgrounds on Anderson Blvd.

The Roots, who are scheduled to speak at Thursday evening's service, have completed 40 years of service as missionaries under the General Missionary Board of the denomination.

For the last four years, the Roots have been directing a school for the training of lay leaders in Central India. During that time, 73 families studied at the Lay Leaders' Institute.

Rev. and Mrs. Root are graduates of Seattle Pacific College and took additional study at Biblical Seminary in New York City. They will show colored slides of work in India.

Bishop E. C. John of Spring Arbor, Mich., a native of the Pittsburgh Conference, will preside throughout the sessions. He served a number of churches and also was district superintendent of the Fairmont and Uniontown Districts. He left the Pittsburgh Conference to seeve in Asia as director of mission affairs.

REV. ELMER ROOT
*Missionary On Furlough.*

Ministers and delegates from 100 churches are expected to begin arriving Monday.

The conference will continue through Friday evening, when the presiding bishop will give the message and make the report of the stationing committee concerning ministerial apointments.

Guest speaker for Tuesday and Wednesday evenings will be the Rev. Clyde Van Valin of Wilmore, Ky.

## Reports Of 'Big Cat' Continue In Ohioville

Ohioville police still are receiving reports of a large "cat" roaming in the borough with the latest coming from a motorist who said he saw it Friday night in the Fredricktown Rd. and Salem Church Rd. area.

The motorist told police he spotted the "cat" as he drove past it, then turned around and drove past it again.

Police Chief Bernard Zlatovich said he searched the area but found nothing. The "cat" first was reported seen July 13 on the C. E. Chaffee property off Wilson Hill Rd. at Smiths Ferry.

## Ground Breaking Set In Beaver Local Work

Ground - breaking is scheduled Monday for a 110,273 project at Beaver Local Public School near Williamsport.

The job calls for construction of two more classrooms, a gymnasium and a stage. Seating capacity of the auditorium will be 400 to 500.

It is part of $253,000 in new construction under way this summer at four of the system's six schools.

The modern expression "two bits," used to signify a quarter of a dollar, originated in the days when the Spanish dollar was often used as a medium of currency in America. When small change was required, the dollar was cut and could be divided into eight pieces, or "bits."

Deaths and Funerals

# Retired Man Claimed At 68

Lloyd Caler, 68, of Hookstown R.D. 1, a retired employe of the Kidd Drawn Steel Co. in Aliquippa, died Friday morning at his home following a brief illness.

# Bootblack For 45 Years Has Shoes Shined By Executive

NEW YORK (AP)—Every day, it's swishing the old cloth back and forth, looking at those well-shod feet perched up near his face, whiffing the scents of cleaner, dyes and wax.

Mike Graziano has toiled among them for 45 years, knowing shoes as intimately as his own stained hands.

But Friday it was different.

Mike Graziano, 64, got a shine.

He sat back on a chair, smoking a long cigar, grinning broadly, dressed in his best suit and a red-flowered tie, his feet on a bootblack box while the boss shined his shoes.

The boss was Robert C. Kirkwood, president of F. W. Woolworth Co., where Graziano has spent nearly the last half-century polishing the footwear of executives and employes.

Down on his knees, Kirkwood did a careful job, dusting off Graziano's black shoes, shining them to a high glow.

Then Graziano stepped down, inspected the job, shook his head in approval, and tossed Kirkwood a quarter.

About 100 top executives of the store chain were on hand, chuckling at the reversed roles. It was in honor of Graziano's 45th shoeshining anniversary, and there was a two-foot-square cake, alight with 45 candles.

Kirkwood, after finishing his work, also presented Graziano with a toy bank filled with paper money. Then he returned the quarter to Graziano.

The crowd dispersed.

And Mike Graziano, of Brooklyn, like uncounted bootblacks in uncounted business buildings everywhere, picked up his box and went back to work.

figure the second quarter rate syould have been about $565 billion — $13 billion more than what was reported Friday.

Kennedy and his advisers reportedly want more information to determine whether the June figures represented a lull in the recovery from the 1960 recession or a leveling off that could presage a new recession.

Calls for a quick tax cut to stimulate the economy have come from both labor and business spokesmen in recent weeks. Kennedy has said he will propose a tax cut along with tax reforms next year and might—if the economy required it—seek a tax reduction before the present Congress adjourns.

# Missouri Police End Jaunt For 2 Local Youths, 15

Police at St. Louis, Mo., today interrupted a Western trip of two 15-year-old East Liverpool boys who vanished Thursday morning, taking along a small tent and two sleeping bags.

The mothers of the two filed missing persons reports with police here about noon Friday. They are Michael Miller, 314 Ogden St., and Gary Casto, 1003 Lincoln Ave. The mothers said they believed the boys were headed for California.

Miller is the son of Mrs. Louise Miller, while Casto is the son of Mrs. Orville Casto.

St. Louis police notified the East Liverpool department the two boys were nabbed there at 7 this morning. Mrs. Miller told the local department she will go to St. Louis to return the pair, leaving on the first available bus.

The island of St. Helena in the middle of the South Atlantic was so important as a supply station for sailing ships that 1,500 stopped there in 1845. With the advent of stream it's importance declined to a point where only 30 ships put into its harbor in 1959.

to the ground, pinning him and ordering him to "stay there!"

But the youth drew a revolver from his clothing and menaced the attendant with it. As Champ pulled back, the youth jumped to his feet and fled toward Poplar Ln.

Champ said the robber picked up the station receipts — bills folded together in a money clip—but did not bother with the coin changing device or the attendant's wallet.

Champ telephoned police headquarters, reporting the stickup to Patrolman L. E. Richard, the desk officer.

As the nearest cruiser was at Mulberry St., Lt. W. E. McDaniel took his private car from headquarters to start the search for the suspect. Two other cruisers joined in the search shortly afterward.

Champ said the stickup man is about 20 and was wearing a blue jacket and dark trousers. About 5 feet 10 inches, he has dark hair, Champ said. He said the suspect has a noticeable speech impediment.

Champ said shortly after the robbery that he had not located the spent bullet that missed him narrowly when the rifle fired. However, there was an empty cartridge on the floor near the spot where the gun fired, he said, indicating the bandit worked the bolt after the weapon discharged.

# *Crew Begins Work On Big Water Break*

A bad break in a 10-inch feeder main on Bradshaw Ave. today threatened to cut off water service to a supermarket and some 40 homes in the Sophia St. area.

A water department crew was attempting to excavate the break on Bradshaw Ave. at the junction of an unamed alley at the rear of the Winland Building, but was hampered by a steady flow of water.

Supt. Donald T. Duke said the break in the main apparently is "a bad one," explaining two pumps, each with three-inch intakes, are unable to handle the flow of water even though the main has been turned off between Ravine and Walnut Sts.

The heavy flow of water is leaking through the valve at Ravine St., Duke said, adding that it may be necessary for the department to turn off the main at Laura Ave. where it is connected with a 20-inch main from the low service reservoir on Thompson Ave.

If the main is cut off at Laura Ave., homes in the Sophia St. and Daisy Alley area will be affected, Duke said, along with the Loblaw's, Inc., market.

Duke said the market manager has been warned to watch his equipment and suggested householders draw a supply for use in event of the cutoff.

A similar warning went to the manager of the A. & P. Market on Walnut St., but the superintendent said it is doubtful if it would be affected. The store is served from an 8-inch main in Apple Alley, he explained.

When the break is uncovered and the crew is ready to repair the main, it will be necessary to turn off the supply, Duke said. That action also will affect Loblaw's and the homes, he added.

Water was bubbling to the service at the intersection of Bradshaw and Walnut, but the superintendent explained it came from water flowing beneath the blacktop street.

The water department was notified of the apparent break at 7:15 a.m. when passersby spotted water on the street. Some residents said the force of the water had heaved the pavement about 18 inches. A bulge also was noticeable at Bradshaw and Walnut, they said.

The main lies about 10 feet below the street surface, Duke said, in an area which was filled many years ago when the section was comprised of potteries.

Meanwhile, Duke said a change in water temperature may have been responsible for breaking customer service lines Friday.

The department was notified of four or five broken service lines throughout the city yesterday and turned off the curb valves.

Duke said many water authorities hold that the lines can be affected when the water temperature passes 54 degrees, either by rising above or falling below the mark.

However, that ordinarily occurs earlier in the year, he added, and stressed that such a change would not affect all lines.

# *Venus Shot Now Slated For Sunday*

CAPE CANAVERAL, Fla. (AP) —A stray radio signal in the booster rocket forced the United States today to postpone for 24 hours an attempt to launch a Mariner I spacecraft to investigate mysteries of the planet Venus.

Officials said the trouble was not serious and that it could be corrected in time for another launch try Sunday morning.

They described the trouble as a spurious radio signal detected in the Atlas-Agena B rocket.

Such a stray signal shooting through the rocket during launch could upset delicate electronic components or give ground trackers a false reading which could lead to the vehicle's destruction by the range safety officer.

The postponement announcement came only 90 minutes before the scheduled time for launching the 446-pound, gold and silver plated Mariner I payload.

Mariner I is slated to race across 224 million miles of interplanetary space en route to a rendezvous with the cloud-shrouded Venus on Dec. 8—140 days after launching.

The spacecraft is not intended to hit the planet but to whiz within 10,000 miles of it before settling into eternal orbit about the sun.

During a 30-minute sweep across Venus' sunlit side, Mariner I's delicate instruments will try to peer electronically through the thick cloud layers that have concealed the planet's secrets from earth's inquisitive eyes.

No need to get out the deep-fat fryer when you want to prepare fried onion rings. Soak the onion rings in milk, drain, dip in seasoned flour and fry in 1½ or 2 inches of hot fat.

**TIGHT FIT.** This was the scene in the 100 block on Thompson Ave. late this morning after a car operated by Mrs. L. G. Jackson of Thompson Ave. ran away, striking a parked auto, uprooting a tree and then wedging itself between another tree and a double house occupied by Duane Kilmer, 157 Thompson Ave., and Edward Nelson, 159 Thompson Ave., tearing out a section of the porch at the Kilmer home. Mrs. Elsie Hampson, one of the witnesses along with Mrs. Nelson and Mrs. Kilmer, can be seen in the center of the photo while Mrs. Kilmer is partially hidden behind Patrolman Orin Smith, who is talking with a Review reporter.

**5 Sessions To Begin Aug. 6**

# *Primitive Camp Planned For Girls*

Primitive Camp will be sponsored by the East Liverpool Area Council the week of Aug. 6 at the Echo Dell Camp site on the Bell School Rd.

The five sessions are open to any girl in the tri-state area 14 through 17.

The program will include development of primitive camping skills, such as tent-pitching, outdoor cookery and safety, nature exploration hikes, trail - blazing, campass reading, folk dancing, music and nature arts and crafts.

—:—

**THE CAMP** fee of $2 will cover the costs of transportation, food, milk and supplies.

Each girl must supply her own personal equipment, which will include bedding, toilet articles, mess kit and two nosebag lunches for the first day of camp.

As cabin facilities are limited, the first 50 girls applying will be selected.

Registration will be accepted through July 31 at the council office in the Potters Savings & Loan Co. building.

Mrs. Raymond Galloway and Miss Sondra Borger are directors. Mrs. Galloway has 20 year's of camping experience and has directed the Pioneer Camp for the past three years.

—:—

**MISS BORGER,** a teacher in the Jefferson school system, formerly served with the Women's Marine Corps.

Consultants who will assist are Mrs. Dan Henderson, field director of the local council, who will serve as nature craft supervisor; Mrs. Edwin Bayley, Mrs. Marvin Kinsey and Mrs. Ruth Sprouse. Also engaged to assist are members of the East Liverpool Garden Club and William Rayburn's Boy Scout troop.

Mrs. Russell Smith, camp chairman, will have charge of supplies.

**THE COUNCIL,** the former East Liverpool Area Girl Scout Council, also is sponsoring Pioneering Camp, which now is in progress at the Bryan Recreation Center in Dixonville.

It has been conducted every Tuesday in July under the direction of Mrs. Galloway. Some 140 girls have been registered.

The camp is featuring the seven basic camp skills and nature lore, with tent-living highlighting the overnight stays.

In charge are Mrs. Jean Stoy, Mrs. Roberta Ruthem, Mrs. Carletta Arrington, Mrs. Lorna Hall, Mrs. Marty Sanford, Mrs. Beverly Bayley, Mrs. Jo Ann Carter, Mrs. Mary Margaret Welker and Mrs. Murlia Williams.

Patty Hancock and Linda Tice are senior aides. Mrs. Peggy Eddy is business manager.

Ave., and then headed back across the street.

Her auto narrowly missed another parked car and then broke off the 4-inch tree, ran over a picket fence at the home of Earl Cochran and struck the porch, ripping out the wooden railing and damaging the flooring on the Kilmer side of the double house.

Mrs. Kilmer said she was sitting on her porch glider talking to Mrs. Hampson, standing near the steps, and Mrs. Nelson was sitting on the bannister.

They saw the car approaching, but were unable to get into their homes in time and squeezed up against the house, Mrs. Kilmer said.

The three women said the small tree in the path of the auto apparently helped save them from injury.

# *Senate Okays $4.6 Billion Foreign Aid*

WASHINGTON (AP)—Increasing opposition among the voters to heavy outlays for foreign aid seems indicated by the narrow 16-14 margin by which senators seeking re-election supported a $4.6-billion authorization measure.

The Senate passed the foreign aid bill 56 to 27 Friday and sent it to the House despite complaints that its prohibition against any but surplus food assistance to Poland and Yugoslavia had been stripped out in a compromise with House conferees.

President Kennedy got authority to extend aid behind the Iron Curtain if he finds that it is vital to U.S. security or strengthens a country's independence of Moscow, and so reports to Congress.

This deletion from the measure obviously influenced some votes against the bill. It remains popular among some candidates to be against giving aid to any kind of Communist government.

Added to this irritant was the conference action in knocking out a limitation of $727 million in aid to India, instead of the $815 million programmed for this year.

Sen. Hubert H. Humphrey of Minnesota, the assistant Senate Democratic leader, tried to mollify critics on this score with an announcement that the administration will limit India's total to $727 million.

Behind all the bickering about individual points of contention, there appeared to be rising general opposition to continuing a large-scale assistance program. This could manifest itself when the appropriation bill to supply the actual funds comes along later.

Of 34 senators who are running again, 11 Democrats and 5 Republicans supported the bill, either by voting for it or making their position known by pairs. Pairs indicate the stand taken by two senators on opposing sides when one or both are absent.

Eight Democrats and six Republicans voted against and four other Republicans who are running again did not record themselves.

# *DiSalle Asks Long-Range Water Plans*

LEBANON, Ohio (AP) — Resuming his reelection campaign tour, Gov. Michael V. DiSalle called today for a long-range program of land acquisition for water management and recreational development.

"Ohio is the largest user of water for industrial purposes in the nation," DiSalle said. "Yet our ratio of impounded water in relation to population is one of the lowest ranking among the states.

"With suitable sites for water management and recreation being rapidly gobbled up for other purposes, the need for more public acquisition without delay becomes readily apparent," he asserted.

The Democrat incumbent spoke in a church tent at the Warren County Fairgrounds on the third leg of his statewide bid for votes.

to the ground, pinning him and ordering him to "stay there!"

But the youth drew a revolver from his clothing and menaced the attendant with it. As Champ pulled back, the youth jumped to his feet and fled toward Poplar Ln.

Champ said the robber picked up the station receipts — bills folded together in a money clip—but did not bother with the coin changing device or the attendant's wallet.

Champ telephoned police headquarters, reporting the stickup to Patrolman L. E. Richard, the desk officer.

As the nearest cruiser was at Mulberry St., Lt. W. E. McDaniel took his private car from headquarters to start the search for the suspect. Two other cruisers joined in the search shortly afterward.

Champ said the stickup man is about 20 and was wearing a blue jacket and dark trousers. About 5 feet 10 inches, he has dark hair, Champ said. He said the suspect has a noticeable speech impediment.

Champ said shortly after the robbery that he had not located the spent bullet that missed him narrowly when the rifle fired. However, there was an empty cartridge on the floor near the spot where the gun fired, he said, indicating the bandit worked the bolt after the weapon discharged.

# *Crew Begins Work On Big Water Break*

A bad break in a 10-inch feeder main on Bradshaw Ave. today threatened to cut off water service to a supermarket and some 40 homes in the Sophia St. area.

A water department crew was attempting to excavate the break on Bradshaw Ave. at the junction of an unamed alley at the rear of the Winland Building, but was hampered by a steady flow of water.

Supt. Donald T. Duke said the break in the main apparently is "a bad one," explaining two pumps, each with three-inch intakes, are unable to handle the flow of water even though the main has been turned off between Ravine and Walnut Sts.

The heavy flow of water is leaking through the valve at Ravine St., Duke said, adding that it may be necessary for the department to turn off the main at Laura Ave. where it is connected with a 20-inch main from the low service reservoir on Thompson Ave.

If the main is cut off at Laura Ave., homes in the Sophia St. and Daisy Alley area will be affected, Duke said, along with the Loblaw's, Inc., market.

Duke said the market manager has been warned to watch his equipment and suggested householders draw a supply for use in event of the cutoff.

A similar warning went to the manager of the A. & P. Market on Walnut St., but the superintendent said it is doubtful if it would be affected. The store is served from an 8-inch main in Apple Alley, he explained.

When the break is uncovered and the crew is ready to repair the main, it will be necessary to turn off the supply, Duke said. That action also will affect Loblaw's and the homes, he added.

Water was bubbling to the service at the intersection of Bradshaw and Walnut, but the superintendent explained it came from water flowing beneath the blacktop street.

The water department was notified of the apparent break at 7:15 a.m. when passersby spotted water on the street. Some residents said the force of the water had heaved the pavement about 18 inches. A bulge also was noticeable at Bradshaw and Walnut, they said.

The main lies about 10 feet below the street surface, Duke said, in an area which was filled many years ago when the section was comprised of potteries.

Meanwhile, Duke said a change in water temperature may have been responsible for breaking customer service lines Friday.

The department was notified of four or five broken service lines throughout the city yesterday and turned off the curb valves.

Duke said many water authorities hold that the lines can be affected when the water temperature passes 54 degrees, either by rising above or falling below the mark.

However, that ordinarily occurs earlier in the year, he added, and stressed that such a change would not affect all lines.

# *Venus Shot Now Slated For Sunday*

CAPE CANAVERAL, Fla. (AP)—A stray radio signal in the booster rocket forced the United States today to postpone for 24 hours an attempt to launch a Mariner I spacecraft to investigate mysteries of the planet Venus.

Officials said the trouble was not serious and that it could be corrected in time for another launch try Sunday morning.

They described the trouble as a spurious radio signal detected in the Atlas-Agena B rocket.

Such a stray signal shooting through the rocket during launch could upset delicate electronic components or give ground trackers a false reading which could lead to the vehicle's destruction by the range safety officer.

The postponement announcement came only 90 minutes before the scheduled time for launching the 446-pound, gold and silver plated Mariner I payload.

Mariner I is slated to race across 224 million miles of interplanetary space en route to a rendezvous with the cloud-shrouded Venus on Dec. 8—140 days after launching.

The spacecraft is not intended to hit the planet but to whiz within 10,000 miles of it before settling into eternal orbit about the sun.

During a 30-minute sweep across Venus' sunlit side, Mariner I's delicate instruments will try to peer electronically through the thick cloud layers that have concealed the planet's secrets from earth's inquisitive eyes.

No need to get out the deep-fat fryer when you want to prepare fried onion rings. Soak the onion rings in milk, drain, dip in seasoned flour and fry in 1½ or 2 inches of hot fat.

**TIGHT FIT.** This was the scene in the 100 block on Thompson Ave. late this morning after a car operated by Mrs. L. G. Jackson of Thompson Ave. ran away, striking a parked auto, uprooting a tree and then wedging itself between another tree and a double house occupied by Duane Kilmer, 157 Thompson Ave., and Edward Nelson, 159 Thompson Ave., tearing out a section of the porch at the Kilmer home. Mrs. Elsie Hampson, one of the witnesses along with Mrs. Nelson and Mrs. Kilmer, can be seen in the center of the photo while Mrs. Kilmer is partially hidden behind Patrolman Orin Smith, who is talking with a Review reporter.

**5 Sessions To Begin Aug. 6**

# *Primitive Camp Planned For Girls*

Primitive Camp will be sponsored by the East Liverpool Area Council the week of Aug. 6 at the Echo Dell Camp site on the Bell School Rd.

The five sessions are open to any girl in the tri-state area 14 through 17.

The program will include development of primitive camping skills, such as tent-pitching, outdoor cookery and safety, nature exploration hikes, trail - blazing, campass reading, folk dancing, music and nature arts and crafts.

—:—

**THE CAMP** fee of $2 will cover the costs of transportation, food, milk and supplies.

Each girl must supply her own personal equipment, which will include bedding, toilet articles, mess kit and two nosebag lunches for the first day of camp.

As cabin facilities are limited, the first 50 girls applying will be selected.

Registration will be accepted through July 31 at the council office in the Potters Savings & Loan Co. building.

Mrs. Raymond Galloway and Miss Sondra Borger are directors. Mrs. Galloway has 20 year's of camping experience and has directed the Pioneer Camp for the past three years.

—:—

**MISS BORGER,** a teacher in the Jefferson school system, formerly served with the Women's Marine Corps.

Consultants who will assist are Mrs. Dan Henderson, field director of the local council, who will serve as nature craft supervisor; Mrs. Edwin Bayley, Mrs. Marvin Kinsey and Mrs. Ruth Sprouse. Also engaged to assist are members of the East Liverpool Garden Club and William Rayburn's Boy Scout troop.

Mrs. Russell Smith, camp chairman, will have charge of supplies.

**THE COUNCIL,** the former East Liverpool Area Girl Scout Council, also is sponsoring Pioneering Camp, which now is in progress at the Bryan Recreation Center in Dixonville.

It has been conducted every Tuesday in July under the direction of Mrs. Galloway. Some 140 girls have been registered.

The camp is featuring the seven basic camp skills and nature lore, with tent-living highlighting the overnight stays.

In charge are Mrs. Jean Stoy, Mrs. Roberta Ruthem, Mrs. Carletta Arrington, Mrs. Lorna Hall, Mrs. Marty Sanford, Mrs. Beverly Bayley, Mrs. Jo Ann Carter, Mrs. Mary Margaret Welker and Mrs. Murlia Williams.

Patty Hancock and Linda Tice are senior aides. Mrs. Peggy Eddy is business manager.

# *Senate Okays $4.6 Billion Foreign Aid*

WASHINGTON (AP)—Increasing opposition among the voters to heavy outlays for foreign aid seems indicated by the narrow 16-14 margin by which senators seeking re-election supported a $4.6-billion authorization measure.

The Senate passed the foreign aid bill 56 to 27 Friday and sent it to the House despite complaints that its prohibition against any but surplus food assistance to Poland and Yugoslavia had been stripped out in a compromise with House conferees.

President Kennedy got authority to extend aid behind the Iron Curtain if he finds that it is vital to U.S. security or strengthens a country's independence of Moscow, and so reports to Congress.

This deletion from the measure obviously influenced some votes against the bill. It remains popular among some candidates to be against giving aid to any kind of Communist government.

Added to this irritant was the conference action in knocking out a limitation of $727 million in aid to India, instead of the $815 million programmed for this year.

Sen. Hubert H. Humphrey of Minnesota, the assistant Senate Democratic leader, tried to mollify critics on this score with an announcement that the administration will limit India's total to $727 million.

Behind all the bickering about individual points of contention, there appeared to be rising general opposition to continuing a large-scale assistance program. This could manifest itself when the appropriation bill to supply the actual funds comes along later.

Of 34 senators who are running again, 11 Democrats and 5 Republicans supported the bill, either by voting for it or making their position known by pairs. Pairs indicate the stand taken by two senators on opposing sides when one or both are absent.

Eight Democrats and six Republicans voted against and four other Republicans who are running again did not record themselves.

# *DiSalle Asks Long-Range Water Plans*

LEBANON, Ohio (AP) — Resuming his reelection campaign tour, Gov. Michael V. DiSalle called today for a long-range program of land acquisition for water management and recreational development.

"Ohio is the largest user of water for industrial purposes in the nation," DiSalle said. "Yet our ratio of impounded water in relation to population is one of the lowest ranking among the states.

"With suitable sites for water management and recreation being rapidly gobbled up for other purposes, the need for more public acquisition without delay becomes readily apparent," he asserted.

The Democrat incumbent spoke in a church tent at the Warren County Fairgrounds on the third leg of his statewide bid for votes.

Ave., and then headed back across the street.

Her auto narrowly missed another parked car and then broke off the 4-inch tree, ran over a picket fence at the home of Earl Cochran and struck the porch, ripping out the wooden railing and damaging the flooring on the Kilmer side of the double house.

Mrs. Kilmer said she was sitting on her porch glider talking to Mrs. Hampson, standing near the steps, and Mrs. Nelson was sitting on the bannister.

They saw the car approaching, but were unable to get into their homes in time and squeezed up against the house, Mrs. Kilmer said.

The three women said the small tree in the path of the auto apparently helped save them from injury.

Miss Doris St. Clair was honored with a bridal shower given Thursday night by Miss Roberta Pennybaker at the home of Mrs. Doris Sanford of Dixonville, who was associate hostess.

Gifts were displayed beneath a parasol decorated with crepe paper ruffles of aqua and yellow.

Prizes in games and contests were awarded Mrs. Doris Allen and Mrs. Martha Joan Stansbury.

Refreshments were served by the hostesses at a buffet table highlighted with a pink and white wedding bell and a large cake with the inscription "Best Wishes, Don and Doris."

Miss St. Clair, daughter of Mr. and Mrs. Harold St. Clair of 7th Ave., LaCroft, will become the bride of Donald Eugene Rogers, son of Mr. and Mrs. Ralph Rogers of Cleveland Ave., on July 28 at 7:30 o'clock in the First Church of the Nazarene.

The Rev. James E. Hunton, pastor, will officiate for the open church rites. A reception will follow at the Calcutta Fire Hall.

⁂ ⁂ ⁂

Final plans for the annual Tag Day were outlined at a meeting of the auxiliary of the Marine Corps League Wednesday night at the YMCA.

Mrs. Odessa Burns is chairman of the event, set Aug. 11.

Mrs. Joyce Lucas, president, conducted business. The group voted to meet at the VFW Hall. Mrs. Mary Diddle and Mrs. Lucas reported on the state convention held recently in Columbus.

Mrs. Burns and Mrs. Diddle reported on a ward party held that afternoon at Deshon Hospital in Butler. The next party is set Aug. 8.

Refreshments were served to seven by Mrs. Emma Wilson. Next meeting is Aug. 15.

## Field Day Set By Lions Club

Twenty reservations have been received so far for the Lions Club's annual field day Wednesday afternoon at Highland Country Club, Charles Herman, chairman, reported at the club's meeting Friday afternoon at the Travelers Hotel.

Golfing will begin about 1 p. m., Herman said, and dinner will be served about 6. Clarence Wright is in charge of reservations.

James Locke, city jeweler and gemologist, discussed precious and synthetic stones, displaying nine precious stones, including some in their native form.

Locke pointed out synthetic stones are not imitations but must have the same chemical properties as the natural stones. The chief difference is that a genuine stone never loses its value, he explained.

He displayed a watch with a crystal of synthetic sapphire which he said is 40 times harder than glass and never will break or scratch.

A watch similar to the one carried by Lt. Col. John H. Glenn on his orbital flight also was displayed, with Locke explaining the watch does not contain the conventional works, including balance wheel, but its accuracy is guaranteed within two seconds every 24 hours.

He also discussed diamonds and the methods used in cutting the stones into smaller weights. Locke was introduced by Dr. William Sulkes, program chairman.

James Johnston, president, presided.

## Mother, 3 Children Perish In Home Fire

ATHOL, Mass. (AP)—A mother and three children perished early today in a fire that destroyed their five-room home.

The dead are Lillian Begor, 38; Bruce, 16; Kim, 4, and Kelly, 3.

The father, Richard, 39, and a daughter, Lynn, 7, escaped.

Another son, Richard Jr., 18, is in the Navy.

Police reported that Begor smelled smoke and carried Lynn out of the house. The rapidly spreading flames prevented him from going back inside.

He shouted to his wife to lead the children to an upstairs porch but they couldn't make it. The bodies of three were found just inside the porch door. The young daughter, Kelly, was still in bed.

The cause of the fire, was not immediately determined.

## $100,000 Loss Seen In West Virginia Fire

NITRO, W. Va. — Work is expected to get underway Monday in clearing away the debris left from an extensive fire that damaged the Chemical Formulators, Inc. plant yesterday.

No one was injured but plant Mgr. R. E. Kincaid said damage may run to $100,000.

Kincaid said the fire apparently started from propylene oxide, an inflammable solvent. The firm produces insecticides.

Nitro is located about 10 miles west of Charleston.

## Boy Accidentally Hanged While Playing

BARNESVILLE, Ohio (AP)—A 14-year-old Barnesville boy was hanged accidentally Friday while playing with ropes in the garage at his home.

A neighbor found the body of William H. Grear tangled in ropes hanging from the ceiling of the garage. Sheriff's deputies said the youth apparently slipped and fell from a scaffold.

## Alice J. Neiser Given Post With Job's Daughters

Announcement of the appointment of Miss Alice Jane Neiser as grand Bethel senior custodian of the International Order of Job's Daughters of Ohio was made at the meeting of Bethel 61 Wednesday night at the Masonic Temple.

A past honored queen of the local Bethel, she was named to the office at the recent grand session at Cincinnati.

Miss Janet Ferguson, honored queen, presided. Pro-tem officers were Kathy Pinkerton, recorder; Melanie Springer, second messenger, and Nancy Huston, musician.

Vicki Deshler was named chairman to arrange a swimming party. The group will attend the program of Harding DeMolay Chapter July 28, when J. Clifford Conley will be invested with the degree of chevalier. Conley presented the Bethel with a purple and white triangle emblem.

Sally Bussard, librarian, read a poem, "Roadside Flowers." The birthday march was held for Kathy Blackburn, Susan Young and Miss Pinkerton.

There will be no meetings in August. The opening fall session is Sept. 5, when a father-daughter banquet will be featured. Members will take coverdishes.

## Couples Wait Reunion For 'Tin Can Tourists'

Several area residents plan to attend the summer reunion of Tin Can Tourists of the World, Inc., July 28-Aug. 11 at Traverse City, Mich.

Mrs. Phillips will be degree captain and reporter.

A donation was authorized for the state president's project. A rummage sale was planned July 26-28 in the rear of the City Market Building on Broadway. Proceeds will be used for the lodge's state expenses. Donations will be picked up if the donors call Mrs. Welch or Mrs. Phillips.

Forty-three attended. Lunch was served by Mrs. Auville and her committee.

## Reunion Staged By Members Of Ex-Scout Troop

Twenty-two former members attended a reunion of the old Boy Scout Troop 38 Friday night at Camp McKinley near Lisbon.

Members came from Beaver Falls, Chicago, Barberton and Bowling Green for the affair, which closed with a steak fry. In addition, replies were read from 20 others unable to attend.

H. J. Gallimore, former scoutmaster, was in charge.

Officers re-elected were Fred Yonz, chairman; Harry Greenwood, vice chairman; Wilford Padgett, secretary, and Richard O. Wilson, treasurer.

Plans were discussed for another reunion the third or fourth Friday in next July. The committee will select the site.

Guests included the Rev. Erwin Jennings, pastor of the Calvary Methodist Church, and J. R. (Pete) Stratton of Salem.

## Wives Will Be Guests For Ruritan Program

LISBON — Ohio Ruritan's 10th anniversary observance here Saturday, July 28, will be for members and wives — not families, as announced previously.

It will begin at 1:30 p. m. at the Fairgrounds and end with a chicken barbecue supper at 6:30. Jack Snider, registrar of King College at Bristol, Tenn., will be guest speaker.

# Field Day Set By Lions Club

Twenty reservations have been received so far for the Lions Club's annual field day Wednesday afternoon at Highland Country Club, Charles Herman, chairman, reported at the club's meeting Friday afternoon at the Travelers Hotel.

Golfing will begin about 1 p. m., Herman said, and dinner will be served about 6. Clarence Wright is in charge of reservations.

James Locke, city jeweler and gemologist, discussed precious and synthetic stones, displaying nine precious stones, including some in their native form.

Locke pointed out synthetic stones are not imitations but must have the same chemical properties as the natural stones. The chief difference is that a genuine stone never loses its value, he explained.

He displayed a watch with a crystal of synthetic sapphire which he said is 40 times harder than glass and never will break or scratch.

A watch similar to the one carried by Lt. Col. John H. Glenn on his orbital flight also was displayed, with Locke explaining the watch does not contain the conventional works, including balance wheel, but its accuracy is guaranteed within two seconds every 24 hours.

He also discussed diamonds and the methods used in cutting the stones into smaller weights. Locke was introduced by Dr. William Sulkes, program chairman.

James Johnston, president, presided.

## Mother, 3 Children Perish In Home Fire

ATHOL, Mass. (AP)—A mother and three children perished early today in a fire that destroyed their five-room home.

The dead are Lillian Begor, 38; Bruce, 16; Kim, 4, and Kelly, 3.

The father, Richard, 39, and a daughter, Lynn, 7, escaped.

Another son, Richard Jr., 18, is in the Navy.

Police reported that Begor smelled smoke and carried Lynn out of the house. The rapidly spreading flames prevented him from going back inside.

He shouted to his wife to lead the children to an upstairs porch but they couldn't make it. The bodies of three were found just inside the porch door. The young daughter, Kelly, was still in bed.

The cause of the fire, was not immediately determined.

## $100,000 Loss Seen In West Virginia Fire

NITRO, W. Va. — Work is expected to get underway Monday in clearing away the debris left from an extensive fire that damaged the Chemical Formulators, Inc. plant yesterday.

No one was injured but plant Mgr. R. E. Kincaid said damage may run to $100,000.

Kincaid said the fire apparently started from propylene oxide, an inflammable solvent. The firm produces insecticides.

Nitro is located about 10 miles west of Charleston.

## Boy Accidentally Hanged While Playing

BARNESVILLE, Ohio (AP)—A 14-year-old Barnesville boy was hanged accidentally Friday while playing with ropes in the garage at his home.

A neighbor found the body of William H. Grear tangled in ropes hanging from the ceiling of the garage. Sheriff's deputies said the youth apparently slipped and fell from a scaffold.

# Alice J. Neiser Given Post With Job's Daughters

Announcement of the appointment of Miss Alice Jane Neiser as grand Bethel senior custodian of the International Order of Job's Daughters of Ohio was made at the meeting of Bethel 61 Wednesday night at the Masonic Temple.

A past honored queen of the local Bethel, she was named to the office at the recent grand session at Cincinnati.

Miss Janet Ferguson, honored queen, presided. Pro-tem officers were Kathy Pinkerton, recorder; Melanie Springer, second messenger, and Nancy Huston, musician.

Vicki Deshler was named chairman to arrange a swimming party. The group will attend the program of Harding DeMolay Chapter July 28, when J. Clifford Conley will be invested with the degree of chevalier. Conley presented the Bethel with a purple and white triangle emblem.

Sally Bussard, librarian, read a poem, "Roadside Flowers." The birthday march was held for Kathy Blackburn, Susan Young and Miss Pinkerton.

There will be no meetings in August. The opening fall session is Sept. 5, when a father-daughter banquet will be featured. Members will take coverdishes.

## Couples Wait Reunion For 'Tin Can Tourists'

Several area residents plan to attend the summer reunion of Tin Can Tourists of the World, Inc., July 28-Aug. 11 at Traverse City, Mich.

Mr. and Mrs. J. T. Allison, 1511 Globe St., who have held membership for several years, and Mr. and Mrs. Louis Kinsey of Midland will attend. Allison serves as vice-chief of the group.

The organization is the largest group of trailer tourists in the world. Formed in 1919-20 in Tampa, Fla., the membership includes a cross-section of people from all the states of the union and the provinces of Canada. The recreational program includes a trailer show, shuffleboard tournament, dancing, cards and other games.

# People In News

By The Associated Press

British actor Paul Scofield, who starred in "A Man for All Seasons" on Broadway, has been ordered by a London doctor to rest for three months because of exhaustion from overwork. Scofield, 40, recently returned to Britain to play the title role in "King Lear" at Stratford-on-Avon.

An appeal by former Yugoslavian Vice President Milovan Djilas against a jail sentence has been rejected by the Yugoslav Supreme Court, sources in Belgrade said today. Djilas, 51, once a close friend of President Tito, was sentenced in May to eight years in prison for disclosing state secrets in his book "Conversations With Stalin."

Astronaut John H. Glenn and his wife and the British ambassador to the United States, Sir David Ormsby Gore, are weekend guests in Hyannis Port, Mass., of Atty. Gen. and Mrs. Robert F. Kennedy.

John Connally, former Secretary of the Navy, won the endorsement of the Texas AFL-CIO committee on political education Thursday in his bid for governor of the Lone Star State. Connally asked for the endorsement in a speech before the committee Tuesday in San Antonio.

He faces Republican Jack Cox in the November general election. Cox did not seek labor's approval.

Over Grain Dispute

# GOP Demands Broader Senate Probe On Estes

WASHINGTON (AP)—Disputed allegations that 68,000 bushels of government grain disappeared from Billie Sol Estes' warehouses have started a Republican demand for a wider Senate investigation.

Sen. Karl E. Mundt, R-S.D., the Senate Investigations subcommittee's senior GOP member, toid reporters Friday:

"Now we hear that although the Agriculture Department claimed that all of the grain in Estes' warehouses was there and accounted for, there was a 68,000 bushel shortage, plus additional shortages in other warehouses with which he is connected.

"Our subcommittee could be accused rightfully of doing less than half a job if we didn't inquire into this, and do it thoroughly."

From the start of the subcommittee's investigation Chairman John L. McClellan, D-Ark., has held open the possibility of an inquiry into Estes' amazing success at obtaining grain storage contracts from the government, collecting millions of dollars of storage fees in the process.

A House subcommittee is looking into the grain deals, and plans to resume its hearings Monday. The Senate group has been concentrating on the Pecos, Tex., financier's cotton acreage allotment deals under federal farm aid programs.

Sen. John J. Williams, R-Del., exploded the new controversy about the grain in a Senate speech Friday.

He disclosed a report from the comptroller general's office that 68,000 bushels of grain were missing from warehouses known to be owned by Estes, 39,633 bushels from warehouses in which Estes is believed to have a financial interest, and 7,150 bushels from facilities owned by Coleman D. McSpadden, an Estes associate.

The Agriculture Department replied in a statement that Williams was drawing "erroneous inferences from fragmentary facts."

The statement said there is no shortage other than a normal allowance for shrinkage and errors of measurement.

Then why, Williams demanded, is the department seeking to collect from McSpadden's bondsmen for at least part of the shortage, as reported by the comptroller general?

Williams and the department both noted that losses are covered by payments being withheld from Estes, plus possible reimbursement from his grain storage bonds.

7 HURT IN FIRE. Cleveland firemen battled a triple alarm blaze Friday that was triggered when a Cleveland-Electric Illuminating crew rammed a pipeline. Two workmen and at least five firemen were injured. One workman was burned critically when a hole-digging machine ruptured an oil pipeline. Flames shot as high as 250 feet. (UPI Telephoto)

## Mishaps Injure 2 Area Workers

Two men injured while working and three youths hurt at play were treated at City Hospital Friday and early today.

Russell Yeater, 42, of 214 Church St., Chester, cut his finger on a chain while working at the American Vitrified Products Co. in East End.

Gus Mautz, 52, of 2214 Harvey Ave. suffered contusions and lacerations of the left index finger when he struck his hand with a hammer at home.

Emery Dexter Jr., 16, son of Emery Dexter, 276 Drain St., suffered a laceration of the scalp when he slipped and fell while swimming.

Donald Brewer, 12, son of Donald Brewer, 1621 Commerce St., Wellsville, cut the palm of his hand on a piece of glass when he fell while playing baseball.

Edwin Wright, son of Daniel Wright of Hookstown R.D. 1, was treated early this morning for a laceration of the left eyebrow suffered when he collided with another youth while roller skating at an area rink.

## 200 Face Layoff

LORAIN, Ohio (AP) — The National Tube Division of U.S. Steel Corp. announced Friday that about 200 workers at the Lorain works will be furloughed Sunday, reducing the work force to 6,200. A company spokesman said the furlough resulted from a lack of orders, requiring the shutdown of two open hearth furnaces.

## *Dry Weather Blamed For 2 Brush Blazes*

City firemen spent more than seven hours Friday fighting two brush fires — one which swept over the hillside between the Pennsylvania Ave. "Hill Rd." and the Pennsylvania Railroad tracks and the other almost simultaneously at Harvey Ave. near the state line.

Causes of the two blazes were not listed officially, but firemen indicated a spark or cigarette easily could have touched off the fires because of the extremely dry conditions.

Trucks from the East End, Central and North Side stations answered the first alarm to the hillside fire at 1:14 p.m. Eight firemen battled the blaze, which spread heavy smoke over the Thompson Ave. and Vine St. areas.

Firemen laid 450 feet of 2½-inch hose and 150 feet of 1½-inch line. Off-duty firemen were recalled to aid.

The department was recalled to the scene twice, returning from 5:27 to 7:42 p.m. and from 10:21 p.m. to 12:25 this morning.

Just after firemen started to fight the hillside fire, a report of a grass fire on Harvey Ave. was received and the North Side truck was dispatched by radio to the scene.

The firemen battled that blaze for 1½ hours and then were recalled at 4:20 p.m. for another 30 minutes to quell the blaze a second time.

Firemen also investigated a report of a grass fire on Trentvale St. yesterday.

East End firemen were called to the home of Arthur Prince, 473 Mulberry St., at 3:35 p.m. when an electric overload set fire to an extension cord. The fire was out on arrival. Firemen said the family was using a lamp cord on an electric hotplate.

# Peru's Military Junta Bids To Regain U.S. Aid

LIMA, Peru (AP)—Peru's ruling military junta strove today to create an image of itself as champions of democracy in an effort to win U.S. recognition and resumption of American aid.

The military chiefs who deposed and imprisoned President Manuel Prado in a bloodless coup Wednesday were staggered by the quick U.S. reaction suspending diplomatic relations and halting millions of dollars in economic and military aid.

Gen. Ricardo Perez Godoy, the junta leader, appealed to the United States to recognize his military regime.

"We are seeking to preserve democracy," he declared.

At a press conference Friday night and an earlier interview, the general indicated that if President Kennedy refused to recognize the junta it would be only "to cause us trouble."

He expressed hope Washington would extend recognition once it learned what he called the true intentions of the military takeover. He said the junta had no plans to seek assistance elsewhere while it tries to win its case with Washington.

Perez Godoy charged that the deposed civilian government had been siphoning off U.S. Alliance for Progress funds. He said he could give the United States assurances that should U.S. aid be resumed, it would reach the "people in our country who are hungry and need it."

"I want no commitments from the United States, only consideration and to be recognized," he said. "I know that President Kennedy can understand. When I see his picture I see in his face that what he wants in the Alliance for Progress is what we want."

Replying to the White House charge that the coup had set back democracy in Peru, Perez Godoy repeated the military claim that it was forced to step in and nullify the June 10 elections because fraud in the balloting represented a threat to democracy.

Perez Godoy said the military complained to Prado but he ignored them. "There was nothing else for us to do," said the junta leader. The junta nullified the elections in a maneuver to block the possible election to the presidency of Victor Raul Haya de la Torre of the leftist, but avowedly anti-Communist, Popular Revolutionary Alliance Party (APRA).

Long hated by the military, Haya was the front runner in the presidential balloting, but failed to get the third of the total vote required for election. The junta has scheduled new elections for next June and the installation of a new government the following July 28.

## $2,597 In June Fees Listed For Recorder

LISBON — County Recorder Richard G. Brian reported today his office collected $2,597 in fees in June.

The office recorded 719 instruments and filed 1,115 more, Brian said. It recorded 351 deeds, representing a consideration of $167,453, and 272 real estate mortgages representing an investment of $3,586,138.

The office canceled 186 real estate mortgages representing a consideration of $2,315,427, and filed 1,088 chattel mortgages representing $1,439,758. Another 716 chattel mortgages were released.

## Jaywalker Killed

AKRON, Ohio (AP) — A car struck and killed Harold Barrell, 53, of Akron, late Friday night as he was jaywalking across Copley Road on the West Side, police reported.

## *Union Heads Delay Move In Rail Issue*

CLEVELAND (AP) — Leaders of five railroad brotherhoods postponed any counteraction Friday on the railroads' announced intention to streamline operations, including abolishment of thousands of jobs.

The union chiefs issued this statement:

"We have undertaken a study of a 40-page ultimatum served on us by the Carriers Conference Committees (representing the railroads). Because of the many aspects involved, a second meeting has been scheduled for next week..."

The "ultimatum" referred to work rules changes recommended by a presidential commission and which the railroads intend to put into effect Aug. 16. The changes include, according to the railroads, dismissal within a year of 13,000 firemen with less than 10 years seniority on diesel locomotives in freight and yard service. A railroad spokesman said over a decade the jobs of 40,000 firemen assigned as second men on locomotives in freight and yard service would be eliminated. Passenger service will not be affected.

Roy E. Davidson, grand chief engineer of the Brotherhood of Locomotive Engineers, contends the changes would put 80,000 out of jobs.

The five brotherhoods, representing some 200,000 members, are the Locomotive Engineers, Locomotive Firemen and Enginemen, Railroad Trainmen, order of Railway Conductors and Brakemen and Switchmen's Union.

# Legionnaires Hear Bricker

COLUMBUS, Ohio (AP) — Pro-communist speakers "have no business on any college campus in the nation," former Sen. John W. Bricker charged here Friday at the opening session of the 44th Ohio American Legion convention.

Referring to the recent controversy at Ohio State University where the administration refused to allow certain speakers to address students, Bricker said:

"The question of free speech was in no way involved. The whole thing was only a matter of the communists trying to take over the minds of our students.

"If communists are allowed to speak freely and convert even one person how do we know that person won't turn out to be another Alger Hiss. . .

"Students attend college to get an education, not to be propagandized by the communists."

Gov. Michael V. DiSalle also attended the opening sessions. He complimented the Legion and its auxiliary for their Buckeye Boys and Girls State programs and declared that "the importance of this citizenship training cannot be exaggerated."

In the business session, delegates approved the selection of Cleveland for the 1963 convention with July 19-21 as the dates.

Some 45 resolutions are expected to go before the group today.

Over Grain Dispute

# GOP Demands Broader Senate Probe On Estes

WASHINGTON (AP)—Disputed allegations that 68,000 bushels of government grain disappeared from Billie Sol Estes' warehouses have started a Republican demand for a wider Senate investigation.

Sen. Karl E. Mundt, R-S.D., the Senate Investigations subcommittee's senior GOP member, told reporters Friday:

"Now we hear that although the Agriculture Department claimed that all of the grain in Estes' warehouses was there and accounted for, there was a 68,000 bushel shortage, plus additional shortages in other warehouses with which he is connected.

"Our subcommittee could be accused rightfully of doing less than half a job if we didn't inquire into this, and do it thoroughly."

From the start of the subcommittee's investigation Chairman John L. McClellan, D-Ark., has held open the possibility of an inquiry into Estes' amazing success at obtaining grain storage contracts from the government, collecting millions of dollars of storage fees in the process.

A House subcommittee is looking into the grain deals, and plans to resume its hearings Monday. The Senate group has been concentrating on the Pecos, Tex., financier's cotton acreage allotment deals under federal farm aid programs.

Sen. John J. Williams, R-Del., exploded the new controversy about the grain in a Senate speech Friday.

He disclosed a report from the comptroller general's office that 68,000 bushels of grain were missing from warehouses known to be owned by Estes, 39,633 bushels from warehouses in which Estes is believed to have a financial interest, and 7,150 bushels from facilities owned by Coleman D. McSpadden, an Estes associate.

The Agriculture Department replied in a statement that Williams was drawing "erroneous inferences from fragmentary facts."

The statement said there is no shortage other than a normal allowance for shrinkage and errors of measurement.

Then why, Williams demanded, is the department seeking to collect from McSpadden's bondsmen for at least part of the shortage, as reported by the comptroller general?

Williams and the department both noted that losses are covered by payments being withheld from Estes, plus possible reimbursement from his grain storage bonds.

7 HURT IN FIRE. Cleveland firemen battled a triple alarm blaze Friday that was triggered when a Cleveland-Electric Illuminating crew rammed a pipeline. Two workmen and at least five firemen were injured. One workman was burned critically when a hole-digging machine ruptured an oil pipeline. Flames shot as high as 250 feet. (UPI Telephoto)

## Mishaps Injure 2 Area Workers

Two men injured while working and three youths hurt at play were treated at City Hospital Friday and early today.

Russell Yeater, 42, of 214 Church St., Chester, cut his finger on a chain while working at the American Vitrified Products Co. in East End.

Gus Mautz, 52, of 2214 Harvey Ave. suffered contusions and lacerations of the left index finger when he struck his hand with a hammer at home.

Emery Dexter Jr., 16, son of Emery Dexter, 276 Drain St., suffered a laceration of the scalp when he slipped and fell while swimming.

Donald Brewer, 12, son of Donald Brewer, 1621 Commerce St., Wellsville, cut the palm of his hand on a piece of glass when he fell while playing baseball.

Edwin Wright, son of Daniel Wright of Hookstown R.D. 1, was treated early this morning for a laceration of the left eyebrow suffered when he collided with another youth while roller skating at an area rink.

## 200 Face Layoff

LORAIN, Ohio (AP) — The National Tube Division of U.S. Steel Corp. announced Friday that about 200 workers at the Lorain works will be furloughed Sunday, reducing the work force to 6,200. A company spokesman said the furlough resulted from a lack of orders, requiring the shutdown of two open hearth furnaces.

## *Dry Weather Blamed For 2 Brush Blazes*

City firemen spent more than seven hours Friday fighting two brush fires — one which swept over the hillside between the Pennsylvania Ave. "Hill Rd." and the Pennsylvania Railroad tracks and the other almost simultaneously at Harvey Ave. near the state line.

Causes of the two blazes were not listed officially, but firemen indicated a spark or cigarette easily could have touched off the fires because of the extremely dry conditions.

Trucks from the East End, Central and North Side stations answered the first alarm to the hillside fire at 1:14 p.m. Eight firemen battled the blaze, which spread heavy smoke over the Thompson Ave. and Vine St. areas.

Firemen laid 450 feet of 2½-inch hose and 150 feet of 1½-inch line. Off-duty firemen were recalled to aid.

The department was recalled to the scene twice, returning from 5:27 to 7:42 p.m. and from 10:21 p.m. to 12:25 this morning.

Just after firemen started to fight the hillside fire, a report of a grass fire on Harvey Ave. was received and the North Side truck was dispatched by radio to the scene.

The firemen battled that blaze for 1½ hours and then were recalled at 4:20 p.m. for another 30 minutes to quell the blaze a second time.

Firemen also investigated a report of a grass fire on Trentvale St. yesterday.

East End firemen were called to the home of Arthur Prince, 473 Mulberry St., at 3:35 p.m. when an electric overload set fire to an extension cord. The fire was out on arrival. Firemen said the family was using a lamp cord on an electric hotplate.

Gen. Godoy Makes Appeal

# Peru's Military Junta Bids To Regain U.S. Aid

LIMA, Peru (AP)—Peru's ruling military junta strove today to create an image of itself as champions of democracy in an effort to win U.S. recognition and resumption of American aid.

The military chiefs who deposed and imprisoned President Manuel Prado in a bloodless coup Wednesday were staggered by the quick U.S. reaction suspending diplomatic relations and halting millions of dollars in economic and military aid.

Gen. Ricardo Perez Godoy, the junta leader, appealed to the United States to recognize his military regime.

"We are seeking to preserve democracy," he declared.

At a press conference Friday night and an earlier interview, the general indicated that if President Kennedy refused to recognize the junta it would be only "to cause us trouble."

He expressed hope Washington would extend recognition once it learned what he called the true intentions of the military takeover. He said the junta had no plans to seek assistance elsewhere while it tries to win its case with Washington.

Perez Godoy charged that the deposed civilian government had been siphoning off U.S. Alliance for Progress funds. He said he could give the United States assurances that should U.S. aid be resumed, it would reach the "people in our country who are hungry and need it."

"I want no commitments from the United States, only consideration and to be recognized," he said. "I know that President Kennedy can understand. When I see his picture I see in his face that what he wants in the Alliance for Progress is what we want."

Replying to the White House charge that the coup had set back democracy in Peru, Perez Godoy repeated the military claim that it was forced to step in and nullify the June 10 elections because fraud in the balloting represented a threat to democracy.

Perez Godoy said the military complained to Prado but he ignored them. "There was nothing else for us to do," said the junta leader. The junta nullified the elections in a maneuver to block the possible election to the presidency of Victor Raul Haya de la Torre of the leftist, but avowedly anti-Communist, Popular Revolutionary Alliance Party (APRA).

Long hated by the military, Haya was the front runner in the presidential balloting, but failed to get the third of the total vote required for election. The junta has scheduled new elections for next June and the installation of a new government the following July 28.

## $2,597 In June Fees Listed For Recorder

LISBON — County Recorder Richard G. Brian reported today his office collected $2,597 in fees in June.

The office recorded 719 instruments and filed 1,115 more, Brian said. It recorded 351 deeds, representing a consideration of $167,453, and 272 real estate mortgages representing an investment of $3,586,138.

The office canceled 186 real estate mortgages representing a consideration of $2,315,427, and filed 1,088 chattel mortgages representing $1,439,758. Another 716 chattel mortgages were released.

## Jaywalker Killed

AKRON, Ohio (AP) — A car struck and killed Harold Barrell, 53, of Akron, late Friday night as he was jaywalking across Copley Road on the West Side, police reported.

## *Union Heads Delay Move In Rail Issue*

CLEVELAND (AP) — Leaders of five railroad brotherhoods postponed any counteraction Friday on the railroads' announced intention to streamline operations, including abolishment of thousands of jobs.

The union chiefs issued this statement:

"We have undertaken a study of a 40-page ultimatum served on us by the Carriers Conference Committees (representing the railroads). Because of the many aspects involved, a second meeting has been scheduled for next week..."

The "ultimatum" referred to work rules changes recommended by a presidential commission and which the railroads intend to put into effect Aug. 16. The changes include, according to the railroads, dismissal within a year of 13,000 firemen with less than 10 years seniority on diesel locomotives in freight and yard service. A railroad spokesman said over a decade the jobs of 40,000 firemen assigned as second men on locomotives in freight and yard service would be eliminated. Passenger service will not be affected.

Roy E. Davidson, grand chief engineer of the Brotherhood of Locomotive Engineers, contends the changes would put 80,000 out of jobs.

The five brotherhoods, representing some 200,000 members, are the Locomotive Engineers, Locomotive Firemen and Enginemen, Railroad Trainmen, order of Railway Conductors and Brakemen and Switchmen's Union.

# Legionnaires Hear Bricker

COLUMBUS, Ohio (AP) — Pro-communist speakers "have no business on any college campus in the nation," former Sen. John W. Bricker charged here Friday at the opening session of the 44th Ohio American Legion convention.

Referring to the recent controversy at Ohio State University where the administration refused to allow certain speakers to address students, Bricker said:

"The question of free speech was in no way involved. The whole thing was only a matter of the communists trying to take over the minds of our students.

"If communists are allowed to speak freely and convert even one person how do we know that person won't turn out to be another Alger Hiss. . .

"Students attend college to get an education, not to be propagandized by the communists."

Gov. Michael V. DiSalle also attended the opening sessions. He complimented the Legion and its auxiliary for their Buckeye Boys and Girls State programs and declared that "the importance of this citizenship training cannot be exaggerated."

In the business session, delegates approved the selection of Cleveland for the 1963 convention with July 19-21 as the dates.

Some 45 resolutions are expected to go before the group today.

## Dodgers Rip Cubs To Hold 1-Game Edge

By BOB GREEN
Associated Press Sports Writer

Willie Mays, a notorious streak hitter, is off on a home run binge. It couldn't come at a more appropriate time for the San Francisco Giants in the National League.

Willie belted his second homer in as many games Friday night as the Giants beat Pittsburgh 6-3 and kept the pressure on front-running Los Angeles.

The victory kept the Giants just one game behind Los Angeles, 8-2 victors over the Chicago Cubs. It also gave the Giants a little more edge over the third-place Pirates, now 2½ games back of San Francisco and 3½ behind the Dodgers.

Roman Mejias' 2-run ninth inning single brought Houston a 4-3 decision over St. Louis, Cincinnati beat New York 3-1 and Milwaukee and Philadelphia split a pair. The Braves took the first 7-5 and the Phils the nightcap 3-2.

Mays' homer, which came with one on in the first inning, was his 27th of the season, giving him the major league lead. He also doubled and scored tiwce.

The Pirates, who had won 22 of 28 going into the game, could have taken over second place with a victory.

Jack Sanford (12-6) got the victory, but needed help from Don Larsen in the seventh.

The Pirates' Roberto Clemente extended his hitting string to 17 games with a double and single.

The Dodgers' Tommy Davis drove in four runs with a couple of singles against the Cubs and became the first major leaguer to reach 100 runs batted in this season. The Cubs got off to a 2-0 first inning lead, but Ron Fairly's 2-run homer tied it and Davis put it out of reach. Stan Williams (9-5) got the victory, but had to have help from Ed Roebuck in the eighth.

Houston struggled back from a 2-0 deficit and finally pulled it out against the Cards on the strength of Mejias' bases-loaded single in the ninth. Dick Farrell (6-12) struck out 12 in going the distance for the victory.

Stan Musial had a double and single, driving in two runs and pulling to within two of Mel Ott's National League RBI record.

Roy McMillan's 3-run homer capped a decisive 6-run Milwaukee second inning as the Braves snapped Philadelphia's 5-game winning streak in the opener. Lefty Jack Curtis shut out the Phillies on four hits after relieving Lew Burdette in the third inning.

Art Mahaffey (13-9) allowed only five hits, including a homer by Hank Aaron, and struck out 11 in winning the second for the Phils.

Gordie Coleman's 19th homer of the season, with one on in the second, was all the backing Joey Jay needed in pitching Cincinnati past the New York Mets. Frank Thomas' homer leading off the sixth prevented a shutout.

## Pony Stars Bow, To Play Here Today

East Liverpool's Pony League All-Stars are due to continue their district tournament bid this afternoon at 2 at Dopler Field against Beaver and must win to stay alive in the double elimination tests.

The locals were shaded in their opener Friday night by Beaver, 4-2, at Westinghouse Field in Beaver.

Should East Liverpool come up with a triumph in today's game at 2, another game will follow immediately, weather permitting, of course. The locals would advance against either Weirton or Mingo with a pair of wins today.

Beaver punched across two runs in the third and fourth innings last night to win the opening tourney test. East Liverpool managed one run in the fourth, and another in the seventh.

Combining for a four-hitter for the locals were starter Nick Marchbanks and lefty Jerry Vaughn.

Marchbanks went four innings and was charged with four runs. Vaughn went the remaining three and pitched shutout ball. Marchbanks walked seven and fanned six.

East Liverpool collected seven hits off Colombo of Beaver, who fanned seven, and walked only three.

Ensinger and Burkhart had doubles for the locals, while Massey, the shortstop, had two hits. Campbell had two hits for Beaver.

## Mickey Wright Leads By 3 In Eastern Event

SUTTON, Mass. (AP)—Mickey Wright not only carried a three-stroke lead into the second round of the $10,000 Women's Eastern Open Golf Tournament today but also a deep conviction that her tremendous power off the tee will not be a prime factor in her bid to win.

"This Pleasant Valley Country Club is a long 6,600 yards and many feel it's a tee shot course," Mickey said in reflecting on her course-record, 37-34—71, 3-under par Friday.

"I say this one will be won by the girl who can pick the right club for her shot onto the green and then get by with the fewest 3-putt greens."

### Yesterday's Stars

BATTING — Tommy Davis, Dodgers, boosted his season total to 100 runs batted in by driving in four during Dodgers' 8-2 romp over Cubs.

PITCHING — Art Mahaffey, Phillies, struck out 11 and pitched six-hitter for 13th victory, 3-2 over Braves. He also tripled and scored the winning run.

## Central Wins, Ties For Lead In Colt Loop

Central Service vaulted into a two-way tie for first place in the Colt League with a 6-4 victory over Riverview Friday at Colt Field.

Though held to four hits, Central Service got rolling early with five runs in the first inning and one in the fifth to hang the second loss of the second half on Riverview.

Riverview also broke the ice early, with three runs in the first frame. Another foliowed in the fourth.

Scott, Lee, Smith and Steffel had hits for Central Service off Bowersock of Riverview. Ralph Smith smashed a triple.

Leading Riverview's 10 hit attack were Agnew, with three, and Wilshaw with a pair.

## Stevens Twirls 3-Hitter, Fans 16 In Triumph

Rex Stevens tossed a three-hitter and fanned 16 as Frankfort Springs rolled over Shippingport, 29-3, in the Junior Division of the South Side Hot Stove League Friday.

The youngster also hit a home run. Ashcroft was the losing pitcher.

The Georgetown - Newell game was postponed, and rescheduled for Aug. 3.

The standings in both the junior and senior divisions at the end of six weeks follow:

Junior — Georgetown, 11-1; Frankfort Springs, 12-2; Newell, 8-4; Hookstown, 6-8; Hanover, 5-7; Lawrenceville, 3-11, and Shippingport, 0-13; Senior — Georgetown-Shippingport, 11-1; Lawrenceville, 9-2; Hanover, 5-6; Newell, 3-8; Frankfort Springs, 3-8, and Hookstown, 3-9.

### Baseball Figure Dies

ST. LOUIS (AP) — Donald L. Barnes, owner of the old St. Louis Browns baseball team from 1936 to 1944, died Friday night. Barnes, a Chicago native, was board chairman of the American Investment Co., a finance company he founded in 1917. He was 68.

## Yanks Notch 8th In Row; Twins Victor

By JACK HAND
Associated Press Sports Writer

Put another halo around the heads of those soaring Angels from Los Angeles. They haven't run out of miracles yet. By scoring eight runs in the fifth inning —the highest in their 2-year life on this planet—they gave Billy Rigney another victory Friday night.

The Angels' 8-5 victory over the Cleveland Indians (who led 3-0 going into the fifth) left them the most active dissenters to any notion of a New York Yankee runaway.

Although the Yanks powered their way to their eighth straight, beating Washington 3-2, the Angels still are only 3½ games back in second place.

The Yankee triumph served to emphasize again Mickey Mantle's role as their most valuable player regardless of any poll. Mickey contributed a 2-run homer and and two singles.

Earl Battey, a goat in the eighth inning when his error permitted Baltimore to tie the score, emerged the hero with a 2-run homer in the 10th that gave the Minnesota Twins a 7-5 decision over Baltimore.

Detroit broke out of a prolonged batting slump with six homers and 10 runs and snapped its 7-game losing streak by battering Kansas City 10-3.

Boston's outfield went on a spree of extra base hits as Carl Yastrzemski, Lu Clinton and Carroll Hardy helped the Red Sox bomb Chicago 8-4.

The Angels handed the Indians their eighth straight defeat. It was the Indians' longest losing streak since their present statistician began keeping records in 1947.

Tasby's 3-run homer in the third gave Sam McDowell, recalled Friday morning from Salt Lake City, a comfortable working margin. But it wasn't enough. Sam ran into a wild streak in the fifth and the Angels kept on swinging against a long string of successors.

Mantle's 19th homer and Hector Lopez' sixth gave the Yanks all their runs and broke Washington's 5-game winning streak. Whitey Ford was the winner over Steve Hamilton.

Battey of the Twins dropped an easy pop foul by Jerry Adair in the eighth. Adair then singled and scored an unearned run that tied the score at 5-5. However, Battey came up in the 10th and hit a home run near the left field foul pole off loser Hal Brown. Ray Moore was the winner.

Norm Cash hit two of Detroit's six homers, his 24th and 25th. The first was hit off loser Diego Segui and the second off Bob Giggie. Don Mossi went the route with an 8-hitter.

Yastrzemski hit two homers for the Red Sox, the first time he had done that in his brief major league career. Don Schwall won his fourth with ninth-inning help from Dick Radatz. John Buzhardt lost his ninth.

### Ford Holds Lead At 139

## Palmer 5 Back In PGA; Not Out Yet, He Claims

By HUGH FULLERTON JR.
Associated Press Sports Writer

NEWTOWN SQUARE, Pa. (AP) —He's five strokes behind the leader; there are 12 players ahead of him and seven more tied with him with only 36 holes to go. But Arnold Palmer doesn't think he's out of the PGA championship.

Palmer's comments, after surviving what he considered a sour round in spite of the figures on the scoreboard, were typical of the attitude that has made the Latrobe, Pa., strong man one of the most exciting figures in sports.

"I don't feel like I'm out of the tournament yet. I still have a chance," he said before heading into today's third round.

Palmer's 72 over the hilly, heat-drenched 7,045-yard Aronimink course was one that would have satisfied most of the pros shooting for this big prize.

Doug Ford shot a second straight 69 for the 36-hole lead. He's the only player who beat par on each of the first two rounds.

Ford's 138 total put him just one stroke ahead of Cary Middlecoff, a two-time National Open champion, Gary Player of South Africa, and George Bayer of Miami.

At 140 were Bob McCallister, a talkative young pro from Claremont, Calif., who seemed slightly dazed to find himself among the leaders, and burly, 50-year-old John Barnum of Belmont, Mich., who shed his illusions shortly after taking the first round lead.

## Clay Flattens Rival In 5th

By BOB MYERS
Associated Press Sports Writer

LOS ANGELES (AP) — Cassius Clay is proving himself a man of his word, far-fetched as it sometimes may be.

For days he predicted he would knock out the giant Argentine heavyweight, Alejandro Lavorante. He named the round: the fifth.

He told it to boxing writers, to radio and television audiences.

Friday night he knocked out Lavorante—in the fifth round.

A crowd of about 11,000 saw the prediction come true in the sports arena, and paid an estimated $64,000 for the sight.

Lavorante, at 208, nine pounds heavier than Clay, was unquestionably the toughest opponent in the unblemished 15-bout career of the 20-year old Louisville, Ky., youngster. He's won 12 by knockouts.

The end came in 1:48 minutes of the explosive fifth round, only the fourth loss in 23 matches for the handsome 25-year-old Lavorante.

Referee Tommy Hart didn't even bother to count on this, the second and concluding knockdown in the final round of the scheduled 10-rounder.

"It took the 'Old Man' 10 rounds. I'll do it in five," said Cassius in a pre-fight Clay pep talk to Cassius. "A good young man is twice as good as a good old man."

The "Old Man" was Archie Moore, who knocked out Clay in 10 rounds earlier this year. Sure enough, Cassius deposited Lavorante in a corner nearest where old Archie himself was sitting at ringside.

Clay almost got his knockout in the second round. Lavorante was in trouble from Cassius' pinpoint rights and lefts to the head. But he didn't go down.

## 2 Win $3,705 In Twin Double At Waterford

The magic combination was 3-1-8-5 in Waterford Park's "twin double" Friday and two persons in a crowd of more than 2,000 got it right.

The two picked the winners of the fifth, sixth, seventh and eighth races and carried home a reward of $3,705.00, the "twin double" payoff.

The payoff was considerably smaller in the daily double involving the first and second races.

The combination of 7-10 was good for $45.20, with Coach Andy the winner of the first race, and Gus Vaonakis' Royal Miraway in the second. Vaonaiks, who got his trainer's license a couple of weeks ago, saddled his first winner.

## Russians Peril U.S. Track Supremacy In Two-Day Meet

By JACK STEVENSON
Associated Press Sports Writer

STANFORD, Calif. (AP)—Russia posed the greatest threat ever to track and field supremacy of American men as the world's greatest dual meet teams opened their two-day meet this afternoon.

Drawn by the great international competition and the opportunity to watch 13 world record performers in action, crowds were expected to reach 120,000 or more for the meeting. Today's throng could hit the 55,000 mark and meet director Payton Jordan even more optimistically forecast 65,000.

In three previous meets, the men of Uncle Sam won each time while the Russian women came out victorious.

Pre-meet estimates of The Associated Press give the United States the advantage by a score of 122-114 in the men's events, closest ever. Yet by maximum performance, the Russians might win and shatter Uncle Sam's supremacy.

Both coaches, Tulane's John Oelkers for the Yanks and Russia's Gavriel Korobkov, termed their teams the best ever for their nation. Oelkers rated the class of the competition so high that he believes 11 men's world records are in danger.

Those in jeopardy include the high jump, where Russia's Valery Brumel could surpass his own mark of 7-4¼ and the broad jump where Ralph Boston of the USA and Igor Ter-Ovanesyan duel. Boston holds the accepted record of 27-1¾ set at Moscow while his Russian foe has a pending mark of 27-3.

The broad jumpers battle today while the high jumpers compete Sunday in the Stanford Stadium features.

# Giants Stop Pirates, 6-3; Indians Drop 8th Straight, 8-5

## Dodgers Rip Cubs To Hold 1-Game Edge

By BOB GREEN
Associated Press Sports Writer

Willie Mays, a notorious streak hitter, is off on a home run binge. It couldn't come at a more appropriate time for the San Francisco Giants in the National League.

Willie belted his second homer in as many games Friday night as the Giants beat Pittsburgh 6-3 and kept the pressure on front-running Los Angeles.

The victory kept the Giants just one game behind Los Angeles, 8-2 victors over the Chicago Cubs. It also gave the Giants a little more edge over the third-place Pirates, now 2½ games back of San Francisco and 3½ behind the Dodgers.

Roman Mejias' 2-run ninth inning single brought Houston a 4-3 decision over St. Louis, Cincinnati beat New York 3-1 and Milwaukee and Philadelphia split a pair. The Braves took the first 7-5 and the Phils the nightcap 3-2.

Mays' homer, which came with one on in the first inning, was his 27th of the season, giving him the major league lead. He also doubled and scored tiwce.

The Pirates, who had won 22 of 28 going into the game, could have taken over second place with a victory.

Jack Sanford (12-6) got the victory, but needed help from Don Larsen in the seventh.

The Pirates' Roberto Clemente extended his hitting string to 17 games with a double and single.

The Dodgers' Tommy Davis drove in four runs with a couple of singles against the Cubs and became the first major leaguer to reach 100 runs batted in this season. The Cubs got off to a 2-0 first inning lead, but Ron Fairly's 2-run homer tied it and Davis put it out of reach. Stan Williams (9-5) got the victory, but had to have help from Ed Roebuck in the eighth.

Houston struggled back from a 2-0 deficit and finally pulled it out against the Cards on the strength of Mejias' bases-loaded single in the ninth. Dick Farrell (6-12) struck out 12 in going the distance for the victory.

Stan Musial had a double and single, driving in two runs and pulling to within two of Mel Ott's National League RBI record.

Roy McMillan's 3-run homer capped a decisive 6-run Milwaukee second inning as the Braves snapped Philadelphia's 5-game winning streak in the opener. Lefty Jack Curtis shut out the Phillies on four hits after relieving Lew Burdette in the third inning.

Art Mahaffey (13-9) allowed only five hits, including a homer by Hank Aaron, and struck out 11 in winning the second for the Phils.

Gordie Coleman's 19th homer of the season, with one on in the second, was all the backing Joey Jay needed in pitching Cincinnati past the New York Mets. Frank Thomas' homer leading off the sixth prevented a shutout.

## *Pony Stars Bow, To Play Here Today*

East Liverpool's Pony League All-Stars are due to continue their district tournament bid this afternoon at 2 at Dopler Field against Beaver and must win to stay alive in the double elimination tests.

The locals were shaded in their opener Friday night by Beaver, 4-2, at Westinghouse Field in Beaver.

Should East Liverpool come up with a triumph in today's game at 2, another game will follow immediately, weather permitting, of course. The locals would advance against either Weirton or Mingo with a pair of wins today.

Beaver punched across two runs in the third and fourth innings last night to win the opening tourney test. East Liverpool managed one run in the fourth, and another in the seventh.

Combining for a four-hitter for the locals were starter Nick Marchbanks and lefty Jerry Vaughn.

Marchbanks went four innings and was charged with four runs. Vaughn went the remaining three and pitched shutout ball. Marchbanks walked seven and fanned six.

East Liverpool collected seven hits off Colombo of Beaver, who fanned seven, and walked only three.

Ensinger and Burkhart had doubles for the locals, while Massey, the shortstop, had two hits. Campbell had two hits for Beaver.

## *Mickey Wright Leads By 3 In Eastern Event*

SUTTON, Mass. (AP)—Mickey Wright not only carried a three-stroke lead into the second round of the $10,000 Women's Eastern Open Golf Tournament today but also a deep conviction that her tremendous power off the tee will not be a prime factor in her bid to win.

"This Pleasant Valley Country Club is a long 6,600 yards and many feel it's a tee shot course," Mickey said in reflecting on her course-record, 37-34—71, 3-under par Friday.

"I say this one will be won by the girl who can pick the right club for her shot onto the green and then get by with the fewest 3-putt greens."

## Yesterday's Stars

BATTING — Tommy Davis, Dodgers, boosted his season total to 100 runs batted in by driving in four during Dodgers' 8-2 romp over Cubs.

PITCHING — Art Mahaffey, Phillies, struck out 11 and pitched six-hitter for 13th victory, 3-2 over Braves. He also tripled and scored the winning run.

## *Central Wins, Ties For Lead In Colt Loop*

Central Service vaulted into a two-way tie for first place in the Colt League with a 6-4 victory over Riverview Friday at Colt Field.

Though held to four hits, Central Service got rolling early with five runs in the first inning and one in the fifth to hang the second loss of the second half on Riverview.

Riverview also broke the ice early, with three runs in the first frame. Another followed in the fourth.

Scott, Lee, Smith and Steffel had hits for Central Service off Bowersock of Riverview. Ralph Smith smashed a triple.

Leading Riverview's 10 hit attack were Agnew, with three, and Wilshaw with a pair.

## *Stevens Twirls 3-Hitter, Fans 16 In Triumph*

Rex Stevens tossed a three-hitter and fanned 16 as Frankfort Springs rolled over Shippingport, 29-3, in the Junior Division of the South Side Hot Stove League Friday.

The youngster also hit a home run. Ashcroft was the losing pitcher.

The Georgetown - Newell game was postponed, and rescheduled for Aug. 3.

The standings in both the junior and senior divisions at the end of six weeks follow:

Junior — Georgetown, 11-1; Frankfort Springs, 12-2; Newell, 8-4; Hookstown, 6-8; Hanover, 5-7; Lawrenceville, 3-11, and Shippingport, 0-13; Senior — Georgetown-Shippingport, 11-1; Lawrenceville, 9-2; Hanover, 5-6; Newell, 3-8; Frankfort Springs, 3-8, and Hookstown, 3-9.

## Baseball Figure Dies

ST. LOUIS (AP) — Donald L. Barnes, owner of the old St. Louis Browns baseball team from 1936 to 1944, died Friday night. Barnes, a Chicago native, was board chairman of the American Investment Co., a finance company he founded in 1917. He was 68.

## Yanks Notch 8th In Row; Twins Victor

By JACK HAND
Associated Press Sports Writer

Put another halo around the heads of those soaring Angels from Los Angeles. They haven't run out of miracles yet. By scoring eight runs in the fifth inning —the highest in their 2-year life on this planet—they gave Billy Rigney another victory Friday night.

The Angels' 8-5 victory over the Cleveland Indians (who led 3-0 going into the fifth) left them the most active dissenters to any notion of a New York Yankee runaway.

Although the Yanks powered their way to their eighth straight, beating Washington 3-2, the Angels still are only 3½ games back in second place.

The Yankee triumph served to emphasize again Mickey Mantle's role as their most valuable player regardless of any poll. Mickey contributed a 2-run homer and and two singles.

Earl Battey, a goat in the eighth inning when his error permitted Baltimore to tie the score, emerged the hero with a 2-run homer in the 10th that gave the Minnesota Twins a 7-5 decision over Baltimore.

Detroit broke out of a prolonged batting slump with six homers and 10 runs and snapped its 7-game losing streak by battering Kansas City 10-3.

Boston's outfield went on a spree of extra base hits as Carl Yastrzemski, Lu Clinton and Carroll Hardy helped the Red Sox bomb Chicago 8-4.

The Angels handed the Indians their eighth straight defeat. It was the Indians' longest losing streak since their present statistician began keeping records in 1947.

Tasby's 3-run homer in the third gave Sam McDowell, recalled Friday morning from Salt Lake City, a comfortable working margin. But it wasn't enough. Sam ran into a wild streak in the fifth and the Angels kept on swinging against a long string of successors.

Mantle's 19th homer and Hector Lopez' sixth gave the Yanks all their runs and broke Washington's 5-game winning streak. Whitey Ford was the winner over Steve Hamilton.

Battey of the Twins dropped an easy pop foul by Jerry Adair in the eighth. Adair then singled and scored an unearned run that tied the score at 5-5. However, Battey came up in the 10th and hit a home run near the left field foul pole off loser Hal Brown. Ray Moore was the winner.

Norm Cash hit two of Detroit's six homers, his 24th and 25th. The first was hit off loser Diego Segui and the second off Bob Giggie. Don Mossi went the route with an 8-hitter.

Yastrzemski hit two homers for the Red Sox, the first time he had done that in his brief major league career. Don Schwall won his fourth with ninth-inning help from Dick Radatz. John Buzhardt lost his ninth.

### Ford Holds Lead At 139

# *Palmer 5 Back In PGA; Not Out Yet, He Claims*

By HUGH FULLERTON JR.
Associated Press Sports Writer

NEWTOWN SQUARE, Pa. (AP) —He's five strokes behind the leader; there are 12 players ahead of him and seven more tied with him with only 36 holes to go. But Arnold Palmer doesn't think he's out of the PGA championship.

Palmer's comments, after surviving what he considered a sour round in spite of the figures on the scoreboard, were typical of the attitude that has made the Latrobe, Pa., strong man one of the most exciting figures in sports.

"I don't feel like I'm out of the tournament yet. I still have a chance," he said before heading into today's third round.

Palmer's 72 over the hilly, heat-drenched 7,045-yard Aronimink course was one that would have satisfied most of the pros shooting for this big prize.

Doug Ford shot a second straight 69 for the 36-hole lead. He's the only player who beat par on each of the first two rounds.

Ford's 138 total put him just one stroke ahead of Cary Middlecoff, a two-time National Open champion, Gary Player of South Africa, and George Bayer of Miami.

At 140 were Bob McCallister, a talkative young pro from Claremont, Calif., who seemed slightly dazed to find himself among the leaders, and burly, 50-year-old John Barnum of Belmont, Mich., who shed his illusions shortly after taking the first round lead.

## Clay Flattens Rival In 5th

By BOB MYERS
Associated Press Sports Writer

LOS ANGELES (AP) — Cassius Clay is proving himself a man of his word, far-fetched as it sometimes may be.

For days he predicted he would knock out the giant Argentine heavyweight, Alejandro Lavorante. He named the round: the fifth.

He told it to boxing writers, to radio and television audiences.

Friday night he knocked out Lavorante—in the fifth round.

A crowd of about 11,000 saw the prediction come true in the sports arena, and paid an estimated $64,000 for the sight.

Lavorante, at 208, nine pounds heavier than Clay, was unquestionably the toughest opponent in the unblemished 15-bout career of the 20-year old Louisville, Ky., youngster. He's won 12 by knockouts.

The end came in 1:48 minutes of the explosive fifth round, only the fourth loss in 23 matches for the handsome 25-year-old Lavorante.

Referee Tommy Hart didn't even bother to count on this, the second and concluding knockdown in the final round of the scheduled 10-rounder.

"It took the 'Old Man' 10 rounds. I'll do it in five," said Cassius in a pre-fight Clay pep talk to Cassius. "A good young man is twice as good as a good old man."

The "Old Man" was Archie Moore, who knocked out Clay in 10 rounds earlier this year. Sure enough, Cassius deposited Lavorante in a corner nearest where old Archie himself was sitting at ringside.

Clay almost got his knockout in the second round. Lavorante was in trouble from Cassius' pinpoint rights and lefts to the head. But he didn't go down.

## *2 Win $3,705 In Twin Double At Waterford*

The magic combination was 3-1-8-5 in Waterford Park's "twin double" Friday and two persons in a crowd of more than 2,000 got it right.

The two picked the winners of the fifth, sixth, seventh and eighth races and carried home a reward of $3,705.00, the "twin double" payoff.

The payoff was considerably smaller in the daily double involving the first and second races.

The combination of 7-10 was good for $45.20, with Coach Andy the winner of the first race, and Gus Vaonakis' Royal Miraway in the second. Vaonaiks, who got his trainer's license a couple of weeks ago, saddled his first winner.

## Russians Peril U.S. Track Supremacy In Two-Day Meet

By JACK STEVENSON
Associated Press Sports Writer

STANFORD, Calif. (AP)—Russia posed the greatest threat ever to track and field supremacy of American men as the world's greatest dual meet teams opened their two-day meet this afternoon.

Drawn by the great international competition and the opportunity to watch 13 world record performers in action, crowds were expected to reach 120,000 or more for the meeting. Today's throng could hit the 55,000 mark and meet director Payton Jordan even more optimistically forecast 65,000.

In three previous meets, the men of Uncle Sam won each time while the Russian women came out victorious.

Pre-meet estimates of The Associated Press give the United States the advantage by a score of 122-114 in the men's events, closest ever. Yet by maximum performance, the Russians might win and shatter Uncle Sam's supremacy.

Both coaches, Tulane's John Oelkers for the Yanks and Russia's Gavriel Korobkov, termed their teams the best ever for their nation. Oelkers rated the class of the competition so high that he believes 11 men's world records are in danger.

Those in jeopardy include the high jump, where Russia's Valery Brumel could surpass his own mark of 7-4¼ and the broad jump where Ralph Boston of the USA and Igor Ter-Ovanesyan duel. Boston holds the accepted record of 27-1¾ set at Moscow while his Russian foe has a pending mark of 27-3.

The broad jumpers battle today while the high jumpers compete Sunday in the Stanford Stadium features.

# Tourney Golf Comes Alive For Ex-Star Through Son

By WILL GRIMSLEY
Associated Press

NEWTOWN SQUARE, Pa. (AP) —Tournament golf has come alive again for one of the stars of the golden era, Johnny Farrell — through his son, Billy.

Billy, a strapping, good-looking 6-footer of 26, is one of the new additions to the pro tour and his stoutest supporter is papa Johnny, the man who once beat Bob Jones in a playoff for the U.S. Open.

"I'm proud of Billy, he's come along very well," says Johnny, a gaunt, bushy-haired grandpa of 61 but not an ounce heavier than when he was knocking off major prizes back in the 1920s.

"I thought he showed his mettle Friday when he shot a 71 with a double bogey 7 at the 16th hole."

Young Farrell was a leading contender for the PGA title here after shooting rounds of 73-71 for the first two days. His 144 total was only six shots back of Doug Ford's leading 138. He was a stroke better than the reigning U.S. champion, Jack Nicklaus.

"I've only been interested in golf for the last eight years," Billy said. "I used to hate the game. I guess it's because I was exposed to it all my life.

"When I was a kid, I liked basketball better. I played basketball on my high school team (in Westfield, N.J.,). When I'd try to play golf, I'd go three holes and quit. I detested it." An older brother, Johnny, 29, is a good amateur; another, Jimmy, 28, is a pro who shuns tournaments.

# *Softball Stars Slate Game At Dopler Field*

The City Softball League All-Stars will oppose the Salem All-Stars Sunday afternoon at 4 at Dopler Field in East End instead of at Salem as previously slated.

Jack Thayer, Duck Melvin and Hondo Hendershot of league-leading New Cumberland have been added to the roster of the locals. All players are to report at 3 p.m.

John Eckstein of Amvit and Frank Rossi of Patterson - Wetzel will manage the All-Stars.

Other games will follow with New Cumberland and the Church League All-Stars.

Meanwhile, New Cumberland won its 14th game in 16 starts Friday by downing Amvit, 9-2, as Rocchio threw a five-hitter. Melvin had a triple and single for the winners. Jack Bryan was the losing pitcher.

Patterson-Wetzel beat Knowles, 8-2, with Howard Wilson tossing a three-hitter. Whitey McElroy led the winners with a single, double and triple. McGaffic was the loser.

Owls Club beat East End, 5-1, as Floyd Robinson scattered seven hits. Boston and Williams had two hits for Owls Club. Bowersock led the losers with two hits.

There will be a meeting of all managers soon at the YMCA to discuss playoffs, and all money due the league is to be brought to officials.

ished Johnson to "clean up" the place or face the consequences.

"Are you prejudiced?," Alexander asked in cross-examination without adding against what.

"I certainly am prejudiced," the judge declared. "I'm prejudiced against anything detrimental to the peace, quiet, health and dignity of the city."

Next came Wilbur J. Harmon, clerk of Municipal Court, with a stack of dockets listing 11 club-related cases since 1953.

The complaint common to the other witnesses was noise — loud music, shouting, profanity, slamming of car doors and tooting horns.

They said this goes on in front of the club night after night, sometimes until 2, 3, 4 and 5 a.m. The sidewalk and parked cars are the party spots after the club closes, they said.

In the morning, the neighbors clean up their yards — "out of shame," one witness said.

Neighbors testifying were R. S. Trbovich, Robert Trbovich and his wife, Margaret; Lester E. Miles and his wife, Mabel; John Woodruff, Greed Linville, William Maltarich and the Rev. John Phinn of Grace United Presbyterian Church.

The defendant testified as to the club's organization. It has about 75 regular members — nearly all from East Liverpool and Wellsville — who pay dues of $2 per year. There are approximately 420 social members who pay dues of $1 per year for entry to the club. The social members come from a wide area, Johnson said.

The club rents the building, a former automobile showroom, from Johnson for $100 a month. As steward, he receives $60 per week.

He said the club is a non-profit organization which makes annual contributions to charities and treats its members to parties at Christmas and New Year's. The club has a D-4 permit — a club license — which permits it to serve drinks until 1 a.m. Eastern Standard Time.

Johnson said the club averages about 85 patrons a night. As many as 200 visit on pay day nights, he added. The place has seats for 185, but is rarely filled, he said.

truck driver who allegedly stuffed the securities into a tin can, buried it in a lot behind an ice cream stand in upper Manhattan, and marked the spot with a rock. Dodge checked the cache daily until June 19 when Mr. X reported himself ready to deal, Hogan said.

An FBI agent in Newark, N.J., posed as a stock buyer to round up two others who were charged with transporting part of the Bache loot across state lines.

The pair, John Lombardozzi, 36, and Joseph G. Martinelli, 48, allegedly attempted to sell the FBI man stock valued at nearly $200,000. Other FBI agents closed in at that point to nab the two and recover the securities.

Lombardozzi, of Brooklyn, and Martinelli, of Jersey City, N.J., and the Bronx, were held on $25,000 bail each.

# *Sleeping Drug, Birth Deformity Link Criticized*

CINCINNATI (AP) — A Cincinnati drug maker says a flock of researchers are working on the link of a sleeping drug — Thalidomide — to reports of birth deformities in Europe, but contends it was not proved.

Dr. Carl A. Bunde, research director for the William S. Merrell Co., said Friday night other factors and combinations of factors may be more important than the sleeping pills, used by physicians in the United States.

"At present no one yet knows the whole truth," he said. "At Merrell and in many other places around the world, great effort is being made to resolve the scientific mystery."

Merrell had sent samples of the drug to doctors for field trial, required before the U.S. Food and Drug Administration will license it for prescription sale.

Merrell said warning letters went out last November after reports from Europe linking it to children being born without arms or legs or with members deformed. They called back all samples in March.

However, the drug had been cleared for prescription use in Canada in April, 1961.

## Helicopter Pilot Made A Wrong Stop

FORT MYERS, Fla. (AP) — A helicopter pilot found out that Fort Myers drive - in restaurants are for motorists, not fliers.

Graham N. Reynolds was charged with landing a helicopter in the city limits after he alighted behind a drive-in here.

"I wanted to get something to eat," he said.

# Tourney Golf Comes Alive For Ex-Star Through Son

By WILL GRIMSLEY
Associated Press

NEWTOWN SQUARE, Pa. (AP) —Tournament golf has come alive again for one of the stars of the golden era, Johnny Farrell — through his son, Billy.

Billy, a strapping, good-looking 6-footer of 26, is one of the new additions to the pro tour and his stoutest supporter is papa Johnny, the man who once beat Bob Jones in a playoff for the U.S. Open.

"I'm proud of Billy, he's come along very well," says Johnny, a gaunt, bushy-haired grandpa of 61 but not an ounce heavier than when he was knocking off major prizes back in the 1920s.

"I thought he showed his mettle Friday when he shot a 71 with a double bogey 7 at the 16th hole."

Young Farrell was a leading contender for the PGA title here after shooting rounds of 73-71 for the first two days. His 144 total was only six shots back of Doug Ford's leading 138. He was a stroke better than the reigning U.S. champion, Jack Nicklaus.

"I've only been interested in golf for the last eight years," Billy said. "I used to hate the game. I guess it's because I was exposed to it all my life.

"When I was a kid, I liked basketball better. I played basketball on my high school team (in Westfield, N.J.,). When I'd try to play golf, I'd go three holes and quit. I detested it." An older brother, Johnny, 29, is a good amateur; another, Jimmy, 28, is a pro who shuns tournaments.

# *Softball Stars Slate Game At Dopler Field*

The City Softball League All-Stars will oppose the Salem All-Stars Sunday afternoon at 4 at Dopler Field in East End instead of at Salem as previously slated.

Jack Thayer, Duck Melvin and Hondo Hendershot of league-leading New Cumberland have been added to the roster of the locals. All players are to report at 3 p.m.

John Eckstein of Amvit and Frank Rossi of Patterson - Wetzel will manage the All-Stars.

Other games will follow with New Cumberland and the Church League All-Stars.

Meanwhile, New Cumberland won its 14th game in 16 starts Friday by downing Amvit, 9-2, as Rocchio threw a five-hitter. Melvin had a triple and single for the winners. Jack Bryan was the losing pitcher.

Patterson-Wetzel beat Knowles, 8-2, with Howard Wilson tossing a three-hitter. Whitey McElroy led the winners with a single, double and triple. McGaffic was the loser.

Owls Club beat East End, 5-1, as Floyd Robinson scattered seven hits. Boston and Williams had two hits for Owls Club. Bowersock led the losers with two hits.

There will be a meeting of all managers soon at the YMCA to discuss playoffs, and all money due the league is to be brought to officials.

ished Johnson to "clean up" the place or face the consequences.

"Are you prejudiced?," Alexander asked in cross-examination without adding against what.

"I certainly am prejudiced," the judge declared. "I'm prejudiced against anything detrimental to the peace, quiet, health and dignity of the city."

Next came Wilbur J. Harmon, clerk of Municipal Court, with a stack of dockets listing 11 club-related cases since 1953.

The complaint common to the other witnesses was noise — loud music, shouting, profanity, slamming of car doors and tooting horns.

They said this goes on in front of the club night after night, sometimes until 2, 3, 4 and 5 a.m. The sidewalk and parked cars are the party spots after the club closes, they said.

In the morning, the neighbors clean up their yards — "out of shame," one witness said.

Neighbors testifying were R. S. Trbovich, Robert Trbovich and his wife, Margaret; Lester E. Miles and his wife, Mabel; John Woodruff, Greed Linville, William Maltarich and the Rev. John Phinn of Grace United Presbyterian Church.

The defendant testified as to the club's organization. It has about 75 regular members — nearly all from East Liverpool and Wellsville — who pay dues of $2 per year. There are approximately 420 social members who pay dues of $1 per year for entry to the club. The social members come from a wide area, Johnson said.

The club rents the building, a former automobile showroom, from Johnson for $100 a month. As steward, he receives $60 per week.

He said the club is a non-profit organization which makes annual contributions to charities and treats its members to parties at Christmas and New Year's. The club has a D-4 permit — a club license — which permits it to serve drinks until 1 a.m. Eastern Standard Time.

Johnson said the club averages about 85 patrons a night. As many as 200 visit on pay day nights, he added. The place has seats for 185, but is rarely filled, he said.

truck driver who allegedly stuffed the securities into a tin can, buried it in a lot behind an ice cream stand in upper Manhattan, and marked the spot with a rock. Dodge checked the cache daily until June 19 when Mr. X reported himself ready to deal, Hogan said.

An FBI agent in Newark, N.J., posed as a stock buyer to round up two others who were charged with transporting part of the Bache loot across state lines.

The pair, John Lombardozzi, 36, and Joseph G. Martinelli, 48, allegedly attempted to sell the FBI man stock valued at nearly $200,000. Other FBI agents closed in at that point to nab the two and recover the securities.

Lombardozzi, of Brooklyn, and Martinelli, of Jersey City, N.J., and the Bronx, were held on $25,000 bail each.

# *Sleeping Drug, Birth Deformity Link Criticized*

CINCINNATI (AP) — A Cincinnati drug maker says a flock of researchers are working on the link of a sleeping drug — Thalidomide — to reports of birth deformities in Europe, but contends it was not proved.

Dr. Carl A. Bunde, research director for the William S. Merrell Co., said Friday night other factors and combinations of factors may be more important than the sleeping pills, used by physicians in the United States.

"At present no one yet knows the whole truth," he said. "At Merrell and in many other places around the world, great effort is being made to resolve the scientific mystery."

Merrell had sent samples of the drug to doctors for field trial, required before the U.S. Food and Drug Administration will license it for prescription sale.

Merrell said warning letters went out last November after reports from Europe linking it to children being born without arms or legs or with members deformed. They called back all samples in March.

However, the drug had been cleared for prescription use in Canada in April, 1961.

## Helicopter Pilot Made A Wrong Stop

FORT MYERS, Fla. (AP) — A helicopter pilot found out that Fort Myers drive - in restaurants are for motorists, not fliers.

Graham N. Reynolds was charged with landing a helicopter in the city limits after he alighted behind a drive-in here.

"I wanted to get something to eat," he said.

## How Can I?

By ANNE ASHLEY

**Q. What is an effective and easy way to bleach bed sheets?**

A. Stretch them on the line outdoors and each time the sun dries them, turn the hose on them. This will save the trouble of taking them down each time to wet them.

**Q. How can I preserve the color of linens?**

A. By placing a few small pieces of camphor gum in the linen closets and drawers.

**Q. How can I remove some paint spatters that have been allowed to harden on my floor?**

A. Moisten these spatters with some fingernail polish remover, allow this to soak in for a few minutes, then rub them off with a cloth and wash off with warm suds. The paint usually disappears, no matter how long it has been there.

**Q. Please tell me how I can prevent the formation of scum on the top of leftover paint in its can?**

A. Press a circle of wax paper, a little larger in diameter than the paint container, gently on the surface of the paint, squeezing out the air pockets and with the edges of the paper sticking to the sides of the container. Replace the lid tightly and, when the paint is needed again, it will be necessary only to stir it well.

**Q. How can I modernize an old door with its old-fashioned, depressed panels and moldings?**

A. By gluing and screwing (or nailing) a plywood panel over the entire door. You'll have to remove the paint from the door, so the glue will adhere tightly. Wash with alcohol after using paint remover. Use common quarter-inch plywood, or choose a plywood with a handsome hardwood face.

**Q. How can I remedy sagging cane chair seats?**

A. By washing them with hot water, and then drying them in a hot sun.

## Junior Editors Quiz on WOOD

*QUESTION: What makes soft wood soft and hard wood hard?*

★ ★ ★

**ANSWER:** "This white pine is neat," boy A is thinking. "Cuts like butter if you work along with the grain." Boy B, however, is not nearly so happy. "Blast this white oak," he's thinking. "Might as well try to drive a nail into pig iron!" The two boys are showing us the difference between soft and hard wood and are also giving a hint about the general types of trees which produce these two different kinds of lumber. Wood is made up of bundles of fibers firmly knit lengthwise but not so strongly attached to each other crosswise. When these fiber bundles are spaced away from each other it makes for a light porous wood, like white pine, a "soft" wood. But when, as in oak, the bundles are closely knit, the wood is tough and is called "hardwood." Softwood, generally speaking, comes from the evergreen trees which have narrow leaves, and hardwood from the broad-leaf trees such as birch, oak and maple. But there are exceptions to this rule.

★ ★ ★

**FOR YOU TO DO:** Get a piece of white pine and see how easily you can whittle from it a little boat or other plaything.

# Hearings Set For 14 Cited In Bar Raids

Fourteen persons cited on liquor and gaming charges in raids by a squadron of 29 West Virginia State Police are scheduled for hearings Monday before Squire Thomas Bellanco of Weirton.

Officers made 30 arrests last Monday in hitting county taverns located outside municipal boundaries. Several of those cited later paid fines for illegal possession and sale of liquor and possession of gaming equipment.

Six who pleaded innocent to the charges at preliminary hearings before the Weirton squire were bound over to the September term of the Hancock County Grand Jury.

Four others are slated for hearings Aug. 11 before Squire Bellanco.

Those due hearings Monday, the places of the arrests and the charges, are:

Nell M. Hobson, possession and sale of liquor and Lois L. Oley, possession of gaming equipment, Club Paddock.

Dick Ambler, sale of liquor, Newell Tavern; Delores DeHaven, sale and possession of liquor, Clover Club.

Juanita Fuller, possession of liquor, and Mildred Barnette, sale of liquor, Stardust Tavern; Marion Eureka, possession of liquor, Club Sands; Richard Herron, possession of liquor, Music Bar.

Ralph Pulver Jr., sale of liquor, and Ralph H. Pulver, possession of gaming equipment, Village Inn; Cora Evelyn Turley, possession of gaming equipment, Hal & Bill's; Goldie Looman and Jean Glover, sale of liquor, Club Sands.

The squire said he also has a warrant charging Rose Clark of the Music Bar with a violation. The warrant has not been served, he said.

Awaiting hearings Aug. 11 at 3:45 p.m. are Lee Ludwig, sale of liquor, Harry E. DeLong, possession of liquor and possession of gaming equipment, and Adrian Monroe, sale of liquor, Riviera Club, and Josephine Zagula, possession of liquor, Club Daily Double.

Bound to the Grand Jury are Dolly Smith, "Sara Doe" and Mel Notni of the Town and Country Club and Toni Hebb, Carol Graham and Marie Battalo of Club Capri.

Mrs. Barbara Jones of Wyoming Ave., has been named women's director of radio station WOHI, Joseph Coons, manager, said today.

She will fill the vacancy created by the resignation of Mrs. Mary McElroy of Frischkorn Addition, Wellsville, who held the post five years.

Mrs. Jones has served as president of the City Federation of Parent - Teacher Organizations and the Junior Women's Club. She is membership chairman of District 9 of the Ohio Federation of Women's Clubs. She is married to G. Richard Jones, who operates Richard Dry Cleaners on Lisbon Rd., Wellsville. They have 2 sons and a daughter.

## 7 Killed In Headon Crash In Wisconsin

SHAWANO, Wis. (AP)—Seven persons, including three couples, were killed early today in a head-on automobile crash on a narrow country road between the small communities of Caroline and Pella in Shawano County.

The names of the victims were withheld pending notification of next of kin.

The three couples were in one car. All six were described as being in their 40s. The driver of the second car was alone. He was in his 20s.

The accident was reported to the sheriff's office at 3:36 A.M. However, the watches of two women were stopped at 1:15.

The couples were trapped inside the wreckage of their car. The driver of the other was thrown partially out by the impact.

# Bringing Up A Family

By GARRY C. MEYERS

### *Child Should Be Prepared For School*

Looking forward to September, you are thinking of good ways to prepare your child for entering kindergarten or first grade. In either case you will try to build him up to be strong and well. Already you may have checked with your physician and dentist and followed their instructions. If your child will enter school for the first time in September, you will think of his getting along with other children of his own age, of his learning to wait on himself and rely on himself and be comfortable out of your sight.

Dr. Garry Meyers

—:—

**IF HE HAS BEEN** over - dependent on you for amusement, if he has cried when you leave home for an evening, if he rarely has played with other children, the ordeal of his entering school with so many other children, most or all of them strangers to him, may give him a miserable time of it. And if he enters the first grade without having attended kindergarten, this ordeal could be very painful.

Between now and the opening of school, you might still help him to grow more self - reliant and less dependent emotionally on you.

You want your child, even on entering kindergarten, to have acquired good toilet training and self - care of his things. You don't want his teacher to be his nursemaid. She has too many other things to do.

Besides, if he must constantly be helped by her to put on his coat, mittens or rubbers, other children will think him pretty babyish and treat him accordingly.

—:—

**ALSO YOU MIGHT** observe how well he has outgrown baby talk. If he does not speak plainly, more reading to him now might help; also your enunciating very well yourself.

Fortunate is the child entering kindergarten or first grade who has been read to for years and years, even since he was two or three. Such experience helps him to concentrate when his teacher speaks, explains things or reads to his whole class at school.

See what good preparation he will have had when taught to read in the first grade.

Fortunate is your child on entering school for the first time—kindergarten or first grade—if he has learned at home to cut and paste and color pictures, to draw and paint pictures of his own, and to make many things for fun from paper, cardboard, wood clay and other materials. Having had kindergarten, he will have had some experience there at such creative fun.

—:—

**ALSO YOU WILL** want your child about to enter kindergarten or first grade to have learned to obey you and to conform to family routines and regulations so he might find it easy at school to conform to desirable and necessary regulations there.

You want him to have learned at home the alphabet of regard for constituted authority and respect for the rights of other persons.

More on this tomorrow.

My bulletins, "Why Read to Baby and Young Child" and "Parents Can Help Child Succeed at School," may be had by sending a self - addressed stamped envelope to me in care of The Review.

# Yale Alumni Magazine Uses Kennedy Talk Despite Grads

NEW HAVEN, Conn. (AP)—Undaunted by the ire of some old grads, the Yale alumni magazine printed in its July issue President Kennedy's speech at Yale's 261st commencement.

Yale's conferral of a degree upon Harvard's famous son provoked angry responses, five of them printed as letters to the editor.

No favorable responses were published.

"Was the President given an honorary degree merely because of his title," asked a member of the class of '19, "or because of something really great he had accomplished, or because Yale believed in and wanted to put her stamp of approval on his programs and theories?"

He concluded it was for the third reason.

Another letter said few presidents "have displayed the arrogance of this man in dealing with matters of grave public crisis, such as the steel price situation."

The author of this protest, a member of the class of '47, went on to say that he had "serious concern for the success of the remainder of the arts and sciences program and of the alumni fund."

The arts and sciences program, described in the magazine, raised over $52 million.

The alumni fund's 20-month drive for new capital "had once again established a new record of annual giving by raising $2,722,000," the article said.

## Group At Salineville Vacations In Canada

Atty. J. Warren Bettis and son, Jimmy, and John Baker and son, Jack, and John Bettis, all of Salineville, are vacationing in Canada.

Mrs. Allen Brown and daughter, Shirley, of Millport, Miss Renee Wright, Miss Susie Cope and Miss Rachael Clark, all of Summitville R.D., were Salineville visitors Wednesday.

Pvt. and Mrs. Robert Daley of Denver are visiting his parents, Mr. and Mrs. S. C. Daley, after which Daley will report to Ft. Dix, N. J.

Mrs. Ruth Sharp and daughter and Miss Donna Buckley, all of Lisbon R.D., were Salineville visitors Thursday.

# Board To Ask Ballot Prices For Fall Vote

The Election Board said today it will issue a call to Columbiana County printers Wednesday asking bids to supply ballots for the Nov. 6 general election.

Frank R. O'Hanlon, clerk, said the board will ask bids for an office-type ballot for state, district and county offices, a non-partisan judicial ballot for state, district and county judges, a proposed state amendment ballot and tickets needed for special questions and issues.

In the judicial races, the names of candidates for county court judgeships will be eliminated from the ballots for voters of the East Liverpool Municipal Court area, which includes the city and Liverpool Township, O'Hanlon said. The county courts' jurisdiction covers all territory outside the Municipal Court's area.

The proposed state amendment would permit the sale of merchandise on Sundays.

The board also anticipates two countywide tax levies for welfare and tuberculosis care, an initiative ordinance asking repeal of East Liverpool's municipal income tax and a $250,000 bond issue for a combination City Hall-Post Office in Wellsville.

Eleven other issues, mostly tax levies, are anticipated from other subdivisions, O'Hanlon said, although only four have actually been filed so far.

The board is scheduled to award a contract for the ballot printing at a meeting Aug. 14 at 2 p.m. in its office here. At the same time, it will check the petitions of candidates for county judges and act on granting ballot places for the special questions and issues already filed, O'Hanlon said.

Ballots for servicemen and civilians residing temporarily outside the United States must be available by Sept. 7.

Meanwhile, Board Members Carl L. Stacey and Don R. Gosney, both of Columbiana, James L. McSweeney of Wellsville and Charles Pike of Lisbon, along with O'Hanlon, are scheduled to attend an annual election conference Thursday through Saturday at the Hotel Sheraton-Cleveland, conducted by Secretary of State Ted W. Brown.

## Abandoned Mining Town Lures Tourists

SELDOM SEEN, Pa. (AP)—This abandoned mining town is the site of a unique tourist attraction. Visitors ride on electric-powered train cars to see a coal mine in operation.

Several hundred tourists a day travel through the Seldom Seen Valley Mine in glass-covered mine cars while a veteran miner explains the operation and equipment.

They wear miner's helmets and, once underground, they can leave the cars for a closer look at the coal seam. They're allowed to knock off a piece of coal to take home.

The mine still employs 10 men, who produce 80 tons of coal a day—enough for the tourists.

# Officer Slain, Man Arrested

WILLIAMSON, W. Va. — Lt. Garnet Richmond, second ranking officer in the Williamson Police Department, was shot and killed last night while on a routine call and police were holding a Pond Creek man as the officer's assailant.

Arrested shortly after Richmond was felled by a bullet under the left eye was a Williamson restaurant operator identified by police as Mose Blackburn, about 58.

Patrolman Howard Hatfield, who was with Richmond at the time of the shooting, said they had gone to check on a call for help apparently by Blackburn's wife at the couple's restaurant.

Hatfield said when they arrived the woman told them Blackburn had left in a car headed across the border into Kentucky.

The two policeman were about to pull away from the establishment when Blackburn arrived in a car.

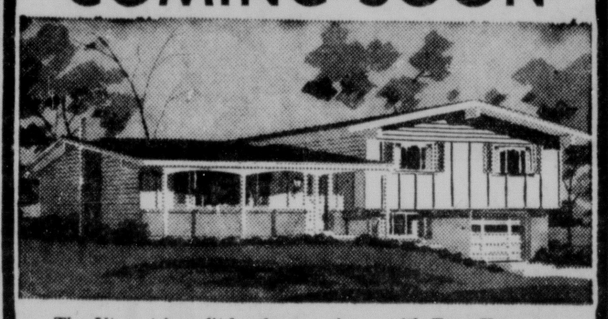

Hatfield said Blackburn then started shooting and Richmond was struck by a bullet which first had apparently gone through their cruiser's windshield.

Blackburn was taken into custody shortly after additional officers were summoned to the scene.

Richmond, believed to be in his mid-40s, was the father of one child and his wife is expecting another soon.

# Hearings Set For 14 Cited In Bar Raids

Fourteen persons cited on liquor and gaming charges in raids by a squadron of 29 West Virginia State Police are scheduled for hearings Monday before Squire Thomas Bellanco of Weirton.

Officers made 30 arrests last Monday in hitting county taverns located outside municipal boundaries. Several of those cited later paid fines for illegal possession and sale of liquor and possession of gaming equipment.

Six who pleaded innocent to the charges at preliminary hearings before the Weirton squire were bound over to the September term of the Hancock County Grand Jury.

Four others are slated for hearings Aug. 11 before Squire Bellanco.

Those due hearings Monday, the places of the arrests and the charges, are:

Nell M. Hobson, possession and sale of liquor and Lois L. Oley, possession of gaming equipment, Club Paddock.

Dick Ambler, sale of liquor, Newell Tavern; Delores DeHaven, sale and possession of liquor, Clover Club.

Juanita Fuller, possession of liquor, and Mildred Barnette, sale of liquor, Stardust Tavern; Marion Eureka, possession of liquor, Club Sands; Richard Herron, possession of liquor, Music Bar.

Ralph Pulver Jr., sale of liquor, and Ralph H. Pulver, possession of gaming equipment, Village Inn; Cora Evelyn Turley, possession of gaming equipment, Hal & Bill's; Goldie Looman and Jean Glover, sale of liquor, Club Sands.

The squire said he also has a warrant charging Rose Clark of the Music Bar with a violation. The warrant has not been served, he said.

Awaiting hearings Aug. 11 at 3:45 p.m. are Lee Ludwig, sale of liquor, Harry E. DeLong, possession of liquor and possession of gaming equipment, and Adrian Monroe, sale of liquor, Riviera Club, and Josephine Zagula, possession of liquor, Club Daily Double.

Bound to the Grand Jury are Dolly Smith, "Sara Doe" and Mel Notni of the Town and Country Club and Toni Hebb, Carol Graham and Marie Battalo of Club Capri.

## Barbara Jones Given New Radio Station Job

Mrs. Barbara Jones of Wyoming Ave., has been named women's director of radio station WOHI, Joseph Coons, manager, said today.

She will fill the vacancy created by the resignation of Mrs. Mary McElroy of Frischkorn Addition, Wellsville, who held the post five years.

Mrs. Jones has served as president of the City Federation of Parent - Teacher Organizations and the Junior Women's Club. They have 2 sons and a daughter.

## 7 Killed In Headon Crash In Wisconsin

SHAWANO, Wis. (AP)—Seven persons, including three couples, were killed early today in a head-on automobile crash on a narrow country road between the small communities of Caroline and Pella in Shawano County.

The names of the victims were withheld pending notification of next of kin.

The three couples were in one car. All six were described as being in their 40s. The driver of the second car was alone. He was in his 20s.

The accident was reported to the sheriff's office at 3:36 A.M. However, the watches of two women were stopped at 1:15.

The couples were trapped inside the wreckage of their car. The driver of the other was thrown partially out by the impact.

# Bringing Up A Family

By GARRY C. MEYERS

### *Child Should Be Prepared For School*

Looking forward to September, you are thinking of good ways to prepare your child for entering kindergarten or first grade. In either case you will try to build him up to be strong and well. Already you may have checked with your physician and dentist and followed their instructions. If your child will enter school for the first time in September, you will think of his getting along with other children of his own age, of his learning to wait on himself and rely on himself and be comfortable out of your sight.

Dr. Garry Meyers

—:—

**IF HE HAS BEEN** over - dependent on you for amusement, if he has cried when you leave home for an evening, if he rarely has played with other children, the ordeal of his entering school with so many other children, most or all of them strangers to him, may give him a miserable time of it. And if he enters the first grade without having attended kindergarten, this ordeal could be very painful.

Between now and the opening of school, you might still help him to grow more self - reliant and less dependent emotionally on you.

You want your child, even on entering kindergarten, to have acquired good toilet training and self - care of his things. You don't want his teacher to be his nursemaid. She has too many other things to do.

Besides, if he must constantly be helped by her to put on his coat, mittens or rubbers, other children will think him pretty babyish and treat him accordingly.

—:—

**ALSO YOU MIGHT** observe how well he has outgrown baby talk. If he does not speak plainly, more reading to him now might help; also your enunciating very well yourself.

Fortunate is the child entering kindergarten or first grade who has been read to for years and years, even since he was two or three. Such experience helps him to concentrate when his teacher speaks, explains things or reads to his whole class at school.

See what good preparation he will have had when taught to read in the first grade.

Fortunate is your child on entering school for the first time—kindergarten or first grade—if he has learned at home to cut and paste and color pictures, to draw and paint pictures of his own, and to make many things for fun from paper, cardboard, wood clay and other materials. Having had kindergarten, he will have had some experience there at such creative fun.

—:—

**ALSO YOU WILL** want your child about to enter kindergarten or first grade to have learned to obey you and to conform to family routines and regulations so he might find it easy at school to conform to desirable and necessary regulations there.

You want him to have learned at home the alphabet of regard for constituted authority and respect for the rights of other persons.

More on this tomorrow.

My bulletins, "Why Read to Baby and Young Child" and "Parents Can Help Child Succeed at School," may be had by sending a self - addressed stamped envelope to me in care of The Review.

# Yale Alumni Magazine Uses Kennedy Talk Despite Grads

NEW HAVEN, Conn. (AP)—Undaunted by the ire of some old grads, the Yale alumni magazine printed in its July issue President Kennedy's speech at Yale's 261st commencement.

Yale's conferral of a degree upon Harvard's famous son provoked angry responses, five of them printed as letters to the editor.

No favorable responses were published.

"Was the President given an honorary degree merely because of his title," asked a member of the class of '19, "or because of something really great he had accomplished, or because Yale believed in and wanted to put her stamp of approval on his programs and theories?"

He concluded it was for the third reason.

Another letter said few presidents "have displayed the arrogance of this man in dealing with matters of grave public crisis, such as the steel price situation."

The author of this protest, a member of the class of '47, went on to say that he had "serious concern for the success of the remainder of the arts and sciences program and of the alumni fund."

The arts and sciences program, described in the magazine, raised over $52 million.

The alumni fund's 20-month drive for new capital "had once again established a new record of annual giving by raising $2,722,000," the article said.

## Group At Salineville Vacations In Canada

Atty. J. Warren Bettis and son, Jimmy, and John Baker and son, Jack, and John Bettis, all of Salineville, are vacationing in Canada.

Mrs. Allen Brown and daughter, Shirley, of Millport, Miss Renee Wright, Miss Susie Cope and Miss Rachael Clark, all of Summitville R.D., were Salineville visitors Wednesday.

Pvt. and Mrs. Robert Daley of Denver are visiting his parents, Mr. and Mrs. S. C. Daley, after which Daley will report to Ft. Dix, N. J.

Mrs. Ruth Sharp and daughter and Miss Donna Buckley, all of Lisbon R.D., were Salineville visitors Thursday.

# Board To Ask Ballot Prices For Fall Vote

The Election Board said today it will issue a call to Columbiana County printers Wednesday asking bids to supply ballots for the Nov. 6 general election.

Frank R. O'Hanlon, clerk, said the board will ask bids for an office-type ballot for state, district and county offices, a non-partisan judicial ballot for state, district and county judges, a proposed state amendment ballot and tickets needed for special questions and issues.

In the judicial races, the names of candidates for county court judgeships will be eliminated from the ballots for voters of the East Liverpool Municipal Court area, which includes the city and Liverpool Township, O'Hanlon said. The county courts' jurisdiction covers all territory outside the Municipal Court's area.

The proposed state amendment would permit the sale of merchandise on Sundays.

The board also anticipates two countywide tax levies for welfare and tuberculosis care, an initiative ordinance asking repeal of East Liverpool's municipal income tax and a $250,000 bond issue for a combination City Hall-Post Office in Wellsville.

Eleven other issues, mostly tax levies, are anticipated from other subdivisions, O'Hanlon said, although only four have actually been filed so far.

The board is scheduled to award a contract for the ballot printing at a meeting Aug. 14 at 2 p.m. in its office here. At the same time, it will check the petitions of candidates for county judges and act on granting ballot places for the special questions and issues already filed, O'Hanlon said.

Ballots for servicemen and civilians residing temporarily outside the United States must be available by Sept. 7.

Meanwhile, Board Members Carl L. Stacey and Don R. Gosney, both of Columbiana, James L. McSweeney of Wellsville and Charles Pike of Lisbon, along with O'Hanlon, are scheduled to attend an annual election conference Thursday through Saturday at the Hotel Sheraton-Cleveland, conducted by Secretary of State Ted W. Brown.

## Abandoned Mining Town Lures Tourists

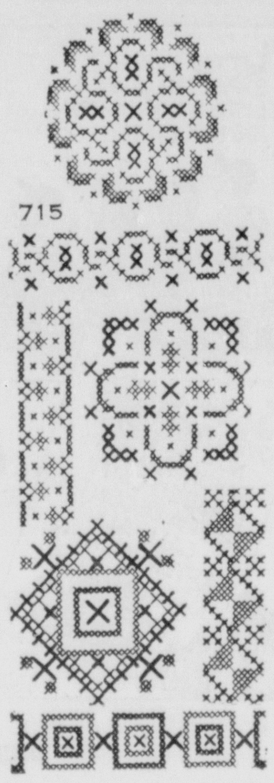

SELDOM SEEN, Pa. (AP)—This abandoned mining town is the site of a unique tourist attraction. Visitors ride on electric-powered train cars to see a coal mine in operation.

Several hundred tourists a day travel through the Seldom Seen Valley Mine in glass-covered mine cars while a veteran miner explains the operation and equipment.

They wear miner's helmets and, once underground, they can leave the cars for a closer look at the coal seam. They're allowed to knock off a piece of coal to take home.

The mine still employs 10 men, who produce 80 tons of coal a day—enough for the tourists.

# Officer Slain, Man Arrested

WILLIAMSON, W. Va. — Lt. Garnet Richmond, second ranking officer in the Williamson Police Department, was shot and killed last night while on a routine call and police were holding a Pond Creek man as the officer's assailant.

Arrested shortly after Richmond was felled by a bullet under the left eye was a Williamson restaurant operator identified by police as Mose Blackburn, about 58.

Patrolman Howard Hatfield, who was with Richmond at the time of the shooting, said they had gone to check on a call for help apparently by Blackburn's wife at the couple's restaurant.

Hatfield said when they arrived the woman told them Blackburn had left in a car headed across the border into Kentucky.

The two policeman were about to pull away from the establishment when Blackburn arrived in a car.

Hatfield said Blackburn then started shooting and Richmond was struck by a bullet which first had apparently gone through their cruiser's windshield.

Blackburn was taken into custody shortly after additional officers were summoned to the scene.

Richmond, believed to be in his mid-40s, was the father of one child and his wife is expecting another soon.

# NOW...TWO QUICK-ACTION GUARANTEES ON ATLAS TIRES

Atlas Tires are backed in writing by two Quick-Action guarantees to protect you against damage incurred under normal driving conditions, including blow-outs, chips, cuts or breaks in the fabric (except punctures). This unique protection is possible because top performance is built right into Atlas Tires.

## 1. LIFE-OF-TREAD GUARANTEE

**As long as your Atlas Tire has any of the original tread design, adjustments will be prorated on the basis of original tread depth remaining and current retail price at time and place of adjustment.**

## 2. MONTHS-IN-USE GUARANTEE

**Adjustments will be prorated on the number of months since the date of purchase and current retail price at time and place of adjustment.**

## You choose the guarantee that benefits you most

These guarantees are offered at customer's option at time of adjustment and are in addition to the regular continuing guarantee of materials and workmanship for the entire life of the original tread design.

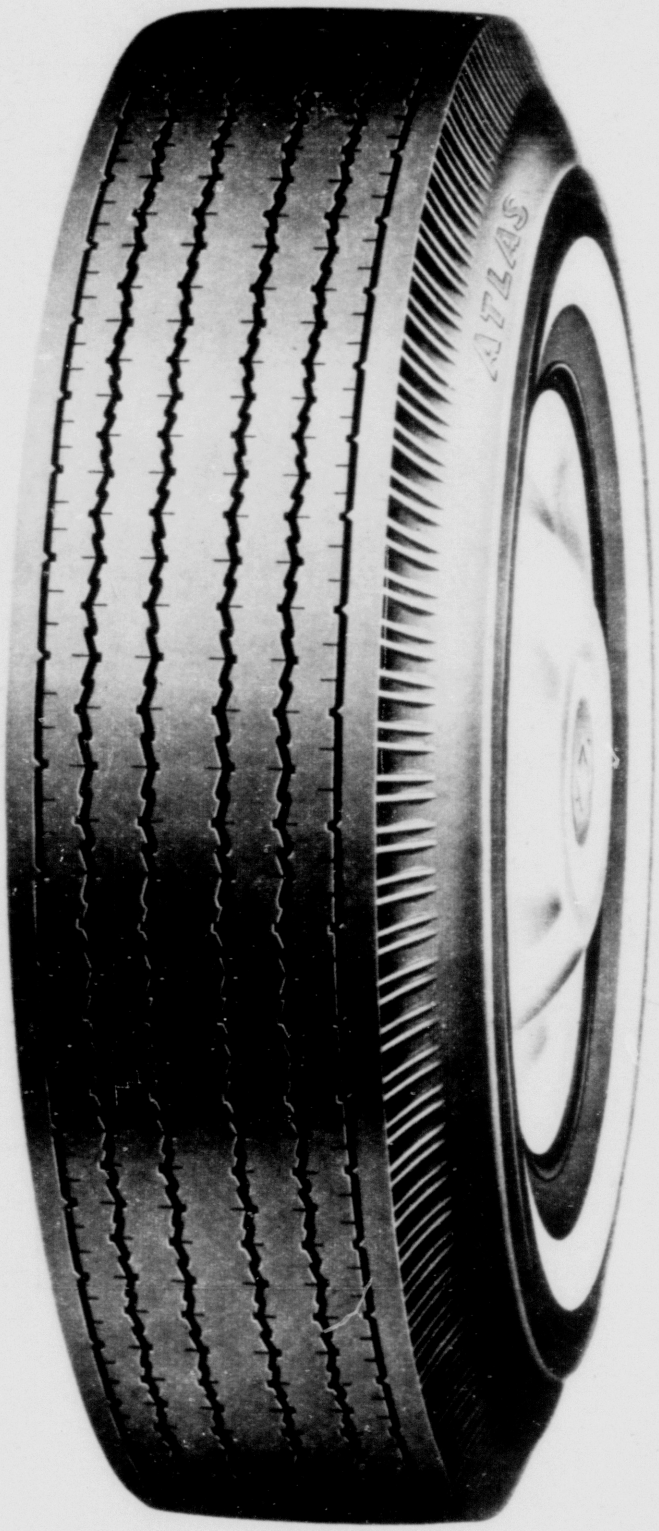

Wherever you travel, you get Quick-Action on-the-spot adjustments by over 50,000 Atlas Dealers in 50 states and Canada. What greater protection and service could you ask for?

**WHEN THE CHOICE IS YOURS...CHOOSE ATLAS***

## GOOD SENSE FOR EVERY READING FAMILY

THE PURPOSE of this suggested trial membership is to demonstrate two things *by your own experience*: first, that you can really keep yourself from missing, through oversight or overbusyness, books you fully intend to read; second, the advantages of the Club's unique Book-Dividend system, through which members can regularly receive valuable library volumes—at a small fraction of their price—simply by buying books they would buy anyway. The offer described here really represents "advance" Book-Dividends earned by the purchase of the three books you engage to buy later.

✶ The three books you choose from those offered on this page will be sent to you immediately and you will be billed $1.00 for each volume you select (plus a small charge for postage and handling).

✶ If you continue after this trial you will receive, *with every Club choice you buy*, a Book-Dividend Certificate. Each certificate, together with a nominal sum—usually $1.00—can be redeemed for a valuable Book-Dividend which you may choose from a catalog of more than a hundred fine library volumes whose publishers' retail prices now average $7.00. Since the inauguration of the Book-Dividend system, $270,000,000 worth of books (retail value) has been earned and received by Book-of-the-Month Club members through this unique profit-sharing plan.

I have the right to cancel my membership any time after buying three Club choices (in addition to those included in this introductory offer). After my third purchase, if I continue, I am to receive a Book-Dividend Certificate with every Selection—or alternate—I buy. Each certificate, together with a nominal sum—usually $1.00—can be redeemed for a Book-Dividend®, which I may choose from a wide variety always available. **PLEASE NOTE:** Whenever two or more books are offered together at a special combined price, as they occasionally are, such a purchase is counted as a *single book* in earning Book-Dividend Certificates and in fulfilling the membership obligation to buy three Club choices.

*Pat has the same broad good looks as her father, a major in the Air Force.*

# Meet Miss Somebody from Mississippi

## *Family Weekly's latest "unknown" cover girl is beautiful Patricia Ann Stewart of Biloxi*

PATRICIA ANN STEWART, a bright, ebullient 16-year-old of Biloxi, Miss., is the most traveled Miss Somebody I have met. And one of the most interesting.

Born in Hot Springs, Ark., she has lived in more than half a dozen states including Colorado, Louisiana, Alabama, Maryland, Texas, California, Oregon, and Mississippi. Her father, Maj. Luie Dale Stewart, is the one who keeps the family on the move. An Air Force oral surgeon, Major Stewart takes the family wherever his military assignments take him.

Patricia has mixed feelings about her frequent moves. "Pulling up roots every couple of years gets harder as you get older," she says, "but the excitement of new places almost compensates for it."

Pat leads a bustling social life ("but no 'steady' yet"), loves to sing in groups and play the piano, collects dolls in all sizes and shapes, enjoys doing the Twist, and plays chess like a champion.

A straight-"A" student at Biloxi High School, she achieved a "plum" this past year when she won membership on the Pep Squad, a 25-girl drill-cheerleading team chosen from the entire student body. But her consuming interest at present is art, and she has won high honors for her work in school competitions.

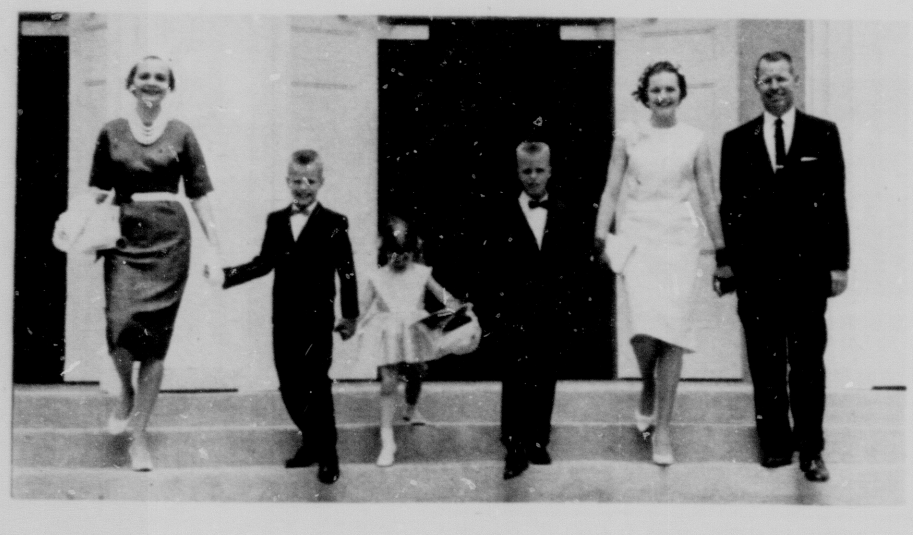

Pat is the oldest of four children, "all delightfully different," she says proudly. One brother, Mike, is 10; he plays Little League baseball and studies the French horn. Ricky, 8, plays baseball and studies the piano, and Katherine, 4, takes ballet.

MAJOR and Mrs. Stewart are modern parents who believe in old-fashioned discipline. And Patricia toes the mark. She observes midnight curfew for weekend dates, keeps her room straight and clothes neat, and packs her own school lunch.

She has tried her hand at cooking, but the results usually have been "disastrous," Pat confesses. Once, she became engrossed in a novel, and the spaghetti burned. Another time she caught her hand in the electric mixer and had to be extricated. Most recently, Patricia covered a pan which held a roast, and the pan caught fire! It took professional cleaners to get the mess off the kitchen ceiling and walls.

The family lives on the Keesler Air Force Base in Biloxi, in a modern, air-conditioned, red-brick house with a white-tile roof. The house faces the back-bay area, which gives the outdoor-loving Stewarts easy access to the beach.

Patricia hasn't decided on her future yet: she would like to study art, but then she also would like to marry and have four children. Whichever she chooses, her grace, intelligence, and beauty almost guarantee her a bright, bubbly future.

# Meet Miss Somebody from Mississippi

## *Family Weekly's latest "unknown" cover girl is beautiful Patricia Ann Stewart of Biloxi*

*The family are steady churchgoers: Mom (left), Ricky, Kathy, Mike, Pat, and Dad.*

PATRICIA ANN STEWART, a bright, ebullient 16-year-old of Biloxi, Miss., is the most traveled Miss Somebody I have met. And one of the most interesting.

Born in Hot Springs, Ark., she has lived in more than half a dozen states including Colorado, Louisiana, Alabama, Maryland, Texas, California, Oregon, and Mississippi. Her father, Maj. Luie Dale Stewart, is the one who keeps the family on the move. An Air Force oral surgeon, Major Stewart takes the family wherever his military assignments take him.

Patricia has mixed feelings about her frequent moves. "Pulling up roots every couple of years gets harder as you get older," she says, "but the excitement of new places almost compensates for it."

Pat leads a bustling social life ("but no 'steady' yet"), loves to sing in groups and play the piano, collects dolls in all sizes and shapes, enjoys doing the Twist, and plays chess like a champion.

A straight-"A" student at Biloxi High School, she achieved a "plum" this past year when she won membership on the Pep Squad, a 25-girl drill-cheerleading team chosen from the entire student body. But her consuming interest at present is art, and she has won high honors for her work in school competitions.

Pat is the oldest of four children, "all delightfully different," she says proudly. One brother, Mike, is 10; he plays Little League baseball and studies the French horn. Ricky, 8, plays baseball and studies the piano, and Katherine, 4, takes ballet.

MAJOR and Mrs. Stewart are modern parents who believe in old-fashioned discipline. And Patricia toes the mark. She observes midnight curfew for weekend dates, keeps her room straight and clothes neat, and packs her own school lunch.

# How Much Is a Housewife Worth?

*Courts are answering that question with larger awards to reflect what the loss of a wife and mother really means*

**By EDWARD B. ROOD**

President, National Association of Claimants' Counsel of America

"A WOMAN is dead because of the negligence of others. How can I measure in dollars and cents the loss that has been inflicted upon her husband and six children?"

This question faced Judge Bryan Simpson, when a suit was brought before him last year in Federal District court at Jacksonville, Fla. He knew it was impossible to put a price tag on the woman's life—but he also realized that in fairness to her survivors he must set some figure.

The woman, wife of Navy Lieut. Cmdr. Armand F. Legare, was attended by Navy doctors during the birth of her sixth child. Delivery was by Caesarean section, and blood transfusions were necessary. But through a tragic hospital error, she was given blood of the wrong type and died after 20 days of painful suffering.

In his suit, Commander Legare emphasized that he had been especially dependent on his wife's help in rearing their children. Long tours of sea duty often took him away from home. And during those periods, his wife had to act as both mother and father to their youngsters.

At the time of the trial, Commander Legare's children were staying with relatives, but he did not want to make this arrangement permanent. "They're my kids, and I want to rear them," he said.

Judge Simpson heard expert testimony concerning how much it would cost Commander Legare to maintain a home for the children as well as to hire domestic help and a nursemaid-governess who could serve as a "substitute mother." After deliberation, he awarded the Navy officer $150,000. This included $98,838 for loss of his wife's services, $25,000 for loss of her companionship, and $1,200 for funeral expenses. In addition, Commander Legare, as personal representative of his wife's estate, received $25,000 for her "conscious pain and suffering."

There could be a difference of opinion about the exact amount this husband and father should have received. But certainly no one would deny that he deserved to be compensated for his loss. Yet the startling fact is that, until recently, our courts of law placed *no value* on the loss of services of a loving and devoted wife and mother!

Fortunately, the old attitude is changing rapidly. Our courts are now making up-to-date, realistic appraisals of a housewife's pecuniary worth, and they are also according recognition and compensation for her less tangible values.

One such case, Weiss vs. Rubin, reached the Appellate Division in New York State in 1960. It introduced the testimony of community-service and philanthropic-agency representatives to establish the high cost of capable, around-the-clock "substitute mothers."

The following schedule shows how the cost of replacing the 25-year-old mother of two children, aged four months and 16 months, for a 20-year period was determined:

| | |
|---|---|
| Wages for substitute mother (combination nurse-governess): | |
| $80 a week for first five years | $20,800.00 |
| $75 a week for the next 15 years | 58,500.00 |
| Wages for part-time housekeeper, $1.50 an hour, 16 hours a week for 20 years | 24,960.00 |
| Wages for baby sitter, $1 an hour, six hours a week (48 weeks a year) for five years | 1,440.00 |
| Social Security for three employees (substitute mother, housekeeper, and baby sitter) | 4,149.12 |
| Workmen's compensation insurance for three employees | 1,500.00 |
| Liability insurance | 240.00 |
| Advertising for, interviewing, and screening applicants for position of substitute mother | 1,200.00 |
| Agency supervision and training of substitute mother | 1,980.00 |
| Family counseling and psychological guidance for father | 5,000.00 |
| Total for 20-year period | $119,769.12 |

The unfortunate deaths of the two young wives I have cited arouse our immediate compassion. But courts of law are also giving increasing consideration to the value of a less obvious claimant—the older wife.

The case of Fabrizi vs. Kramer Brother Freight Lines (Pa., 1958) involved the question of how much a 55-year-old wife was worth. She had helped her husband operate a restaurant, serving as cook-waitress. She had been so frugal that her own maintenance had not exceeded $300 a year.

The jury awarded her husband $68,100, and the judge refused to set aside the award as excessive.

Over and over again, our courts are refusing to evaluate a housewife's worth solely in terms of: (1) what it costs to replace her with a menial servant; (2) what she would have earned working for another "employer"; or (3) any combination of these two.

Today's emphasis is not only on a wife's monetary value but also on her services in counseling, advising, comforting, and otherwise serving her husband. And this is the way it should be.

(1) If you have a coin that looks like one of those pictured here, note the date and the mint mark (if any). The design, features, and legend must be plain and the date and mint mark clearly defined. (2) Package your coins securely and send by registered or insured mail to: Treasure Hunt Redemption Corp. Box 96, Brooklyn 1, N.Y. (3) Indicate the merchandise item (or items) you wish to have sent to you. You can get the item you select for each coin accepted. Each coin received is carefully checked. Coins which do not meet the specifications outlined will be returned to sender. We reserve the right to reject coins which have been altered or counterfeited or do not come up to the condition requirements, and in all such cases the judgment of Treasure Hunt Redemption Corp. is final. Treasure Hunt Redemption Corp. and Family Weekly are not responsible for coins until they have been received.

**Out of the West (by way of Harvard and Detroit) came Robert S. McNamara, a thinking man who packs a fast computer—and the Pentagon hasn't been the same since**

**By CURTIS MITCHELL**

TWENTY-FOUR HOURS after John F. Kennedy, 43, was elected President of the United States, a relatively unknown young man, Robert Strange McNamara, 44, was elected to the presidency of the Ford Motor Co. They had never met.

Five weeks later, Kennedy offered the high-salaried (more than $500,000 a year) McNamara a $25,000 job as Secretary of Defense, a post which its first occupant, James V. Forrestal, called "a cemetery for dead cats." McNamara thought about it for seven days; then he accepted, amid the misgivings of critics who preferred a "name" for the job.

Now, more than a year and a half later, the moon-faced young man in the gold-rimmed glasses has become a world figure and the recipient of widespread acclaim.

"McNamara is the most outstanding Secretary of Defense ever to hold that office—he is unique," says Rep. Carl Vinson, chairman of the House Armed Forces Committee.

"He is an IBM machine on legs," says Sen. Barry Goldwater.

The public is pleased by such praise—but it also is a little perplexed. Can McNamara be *that* good? In looking for the answer, first consider the size of his job.

McNamara runs an establishment that spends more than $48 billion each year, more than the combined national budgets of Great Britain, France, West Germany, and Italy. He is "the boss" of 2½ million servicemen and one million civilian employees of the Defense Department.

Second, consider the unusual way he meets the problems of this huge establishment.

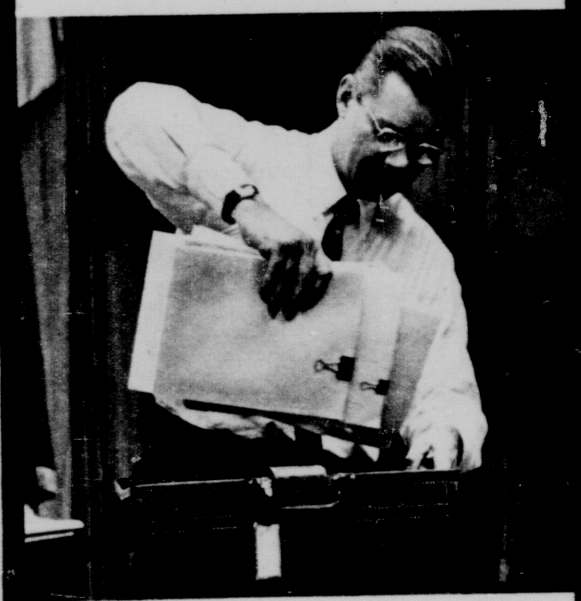

As soon as he took office, McNamara was faced with such major questions as: Should we cancel the atomic plane? Add more Polaris subs? Junk our aircraft carriers? Abolish the National Guard? True to his already-established form, he broke the problems down into 131 categories and ordered task-force studies.

When the task forces reported, McNamara and his aides ran the findings through Pentagon computers and began to take action. They decided that the most pressing need was to build up U. S. deterrent power to a point where it would protect us against any surprise attack. Despite the ensuing eruption in the Pentagon, which has been described as "bone-shaking," McNamara pressed toward his goal.

One thing about McNamara, he *likes* to make decisions. He detests inaction. Years ago, he vowed he would attend to every personal decision within seven days, and he has done so.

*McNamara dazzles colleagues with his capacity for absorbing and retaining facts.*

*The Defense chief calls it a day. He's up at 6:45, puts in 12-18 hours on job.*

*With Gen. Lyman Lemnitzer, chairman of joint chiefs of staff, he maps strategy.*

Old-fashioned sincerity seems to guide his every action. When he was called in to talk to President-elect Kennedy in 1960, he knew he was being judged for a high position. But he felt that he, too, had to make a judgment. He had read JFK's book, "Profiles in Courage," and he was impressed. But he also had heard rumors that the book was "ghosted" by historian Arthur Schlesinger, Jr. So McNamara bluntly asked Mr. Kennedy: "Sir, did you write the book yourself?"

The President-elect explained that he had been helped with the research but that "the writing is my own!" From that day on, the two men were on the same wave length.

McNamara's old friends are not surprised that such a neophyte in politics walks so confidently through the booby traps of Washington. His exceptional intelligence and executive ability help him in this regard. But another important factor is his private life, which is anchored to the solid foundation of his family—his wife Margaret, their daughters Margaret Elizabeth, 20, and Kathleen, 17, and their son Robert Craig, 11.

### A Program of Togetherness

The McNamaras spend summer vacations camping together and winter holidays skiing together. Between times, they climb mountains—together, of course.

At home, they read books by the score. It was by choice, not chance, that McNamara and his family lived in Ann Arbor, Mich., a university town, rather than fashionable Grosse Pointe, when he was with Ford.

In Washington, the McNamara home is a Spanish-accented house with five bedrooms and baths. The day begins for the Secretary of Defense when his alarm rings at 6:45. He rises easily, even eagerly. Nowadays, he skips calisthenics, except when he is toughening himself for a ski tour or for mountaineering. As often as possible, he sits down to a family breakfast. The talk usually is about books or sports.

After skimming the news off the New York *Times*, McNamara dashes out to the chauffeured government Cadillac waiting at the curb.

He begins each workday by performing a unique drill. He thinks. Thinking is a labor for which he requires silence. In Detroit, he kept the first 90 minutes of each morning inviolate, and he tries to do the same now.

During his thinking period, McNamara sits and stares or paces restlessly or probes through pages of facts which, in his lexicon, are the tools for solving an organization's problems. Thousands of such facts are compressed into a personal library of thick, black books marked SECRET, which lie on his desk most workdays.

The target of many McNamara "quiet hours" is the 550 points into which he originally divided the Defense Department's spending ac-

tivities. His mastery of these facts enables him to put on such remarkable performances as his appearance before a Congressional committee last year. He had been asked to amplify his request for naval funds. And he did so—by throwing 240 typewritten pages at the Congressmen and talking for 11 straight days. During that time, he named the cost and mission of every ship in the program.

"He left us exhausted, dazzled, and satiated," a tired witness recalls.

McNamara's fact-backed personality creates an effect all the more devastating because it surprises people. His physique is lean but unimpressive. His hair is slicked back and parted in the fashion of 30 years ago. As one Congressman said: "McNamara looks like a small-town insurance agent."

But action transforms him. Walking, he lopes. Standing, he shuffles and teeters. At a conference table, he crouches to make a point, his smallish face turning mobile and dramatic as figures pour from his brain. He listens, too—jotting endless notes with his left hand.

But McNamara is not all push, push, push!

At times, he will excuse himself, jump into his personal car (a Ford), and drive to a grassy field at Sidwell Friends School, where for an hour he is the proud father whose love and support are needed by a young athlete named Bob.

Night life for McNamara usually means work (he devotes 12 to 18 hours a day to his job), but he sometimes gets a chance to cut loose. Last winter, he attended a private party at the White House and danced till 4:30 a.m. Insiders report that the best twisting of the evening took place when the Secretary of Defense danced with the First Lady.

## Go East, Young Man

The McNamara story began in California, where Robert's Irish father settled down and married a Scotch-English lass, Clara Nell Strange. Bob was a precocious boy. He could read like a 13-year-old when he entered first grade. At the University of California, he was elected to Phi Beta Kappa in his sophomore year. Summers, the independent-minded youth shipped out on freighters to the Orient.

After the University of California, McNamara moved east to Harvard, where he won a master's degree with one of the highest academic records in the history of the School of Business Administration. In Cambridge, the young Westerner became immersed in the principles of statistical control that were then beginning to change the face of industry. He absorbed the new methods enthusiastically.

Harvard offered McNamara an assistant professorship in 1940—and with it a degree of financial security that made marriage possible. So he put in a telephone call to Margaret Craig, an attractive brunette he had met in his undergraduate days. She wasn't at her home in California, but he finally reached her at a Y.W.C.A. in Baltimore. Margaret accepted his proposal from a telephone booth.

"I've always wanted to go to Baltimore and see that booth," McNamara mused recently.

Soon after Pearl Harbor, he was turned down for military service because of nearsightedness. But after a time, the Air Force waived his visual handicap and made him a captain, then a major, and—at 28—a lieutenant colonel.

After the war, he was preparing to return to his teaching job when an Air Force colonel got an idea that changed the course of his life. The colonel put the talents of McNamara and nine other young Air Force statisticians into one package and offered them "for sale" to American industrial firms. Somebody snidely dubbed them the Whiz Kids, but a number of companies showed serious interest. Of these, Ford made the best offer. So the McNamaras moved to Detroit, and the academic world lost a professor.

*McNamara gave up top Ford post to join cabinet. Here he meets with President.*

*In South Vietnam, the Secretary inspects local troops with Col. Nugyen Quoc Hoang.*

*Bob McNamara isn't all work. He and wife Margaret attend a formal ball in capital.*

At the time, Ford was afflicted with growing pains and a multitude of other problems which the Whiz Kids attacked with zest. After only three years, McNamara became company controller. Soon he was influencing decisions about production and fighting for safety belts and the 12,000-mile guarantee. He gave the already-successful Thunderbird two more seats—and tripled its sales. He moved the compact Falcon into production—and saw it get off to a fast start, outstripping all competition in its class.

In 1960, he reached Ford's peacock throne, the presidency. Five weeks later, he was called to Washington.

## Brickbats Amid the Plaudits

Today the majority opinion in Washington seems to be that McNamara has proved himself a brilliant, dedicated, and incorruptible public servant. Walter Lippmann, the distinguished newspaper columnist, summed up this attitude recently when he said: "McNamara is the ablest man ever to come to the Pentagon."

But there is a minority opinion, too, expressed for the most part by disgruntled members of the military hierarchy.

One high officer worries about his haste in "running everything through the computer." Noting that the machine's findings are right only when it is fed relevant information, he adds: "I don't think he asks the right questions."

Another official, whose memory encompasses earlier Secretaries of Defense, says: "I sure wish we had those dumb guys back."

The McNamara weakness, if it is a weakness, is that he is a loner. In backslapping Washington, this is often a good way to win enemies and antagonize people.

The McNamara strength is that he is a man of thought dedicated to action. "I see my position as being that of a leader, not a judge," he says. "I'm here to originate and stimulate new ideas and programs—using deliberate analysis to force alternative programs to the surface and then making explicit choices among them."

As a result of McNamara's efforts, we are well on our way toward a formidable atomic submarine fleet, a widely dispersed underground missile complex, and a vastly expanded troop air-transport system. He feels we are no longer outgunned and that our strength has become a powerful deterrent to any but an insane enemy. He says:

"We are strong enough militarily to survive any atomic attack, to strike back and completely destroy the enemy, and to withstand whatever blackmail threats a second power might make."

Listening, the free world rests a little easier, for it knows that in Moscow and Peiping they, too, can hear the music of McNamara's band.

Walter Lippmann, the distinguished newspaper columnist, summed up this attitude recently when he said: "McNamara is the ablest man ever to come to the Pentagon."

But there is a minority opinion, too, expressed for the most part by disgruntled members of the military hierarchy.

One high officer worries about his haste in "running everything through the computer." Noting that the machine's findings are right only when it is fed relevant information, he adds: "I don't think he asks the right questions."

Another official, whose memory encompasses earlier Secretaries of Defense, says: "I sure wish we had those dumb guys back."

The McNamara weakness, if it is a weakness, is that he is a loner. In backslapping Washington, this is often a good way to win enemies and antagonize people.

The McNamara strength is that he is a man of thought dedicated to action. "I see my position as being that of a leader, not a judge," he says. "I'm here to originate and stimulate new ideas and programs—using deliberate analysis to force alternative programs to the surface and then making explicit choices among them."

As a result of McNamara's efforts, we are well on our way toward a formidable atomic submarine fleet, a widely dispersed underground missile complex, and a vastly expanded troop air-transport system. He feels we are no longer outgunned and that our strength has become a powerful deterrent to any but an insane enemy. He says:

"We are strong enough militarily to survive any atomic attack, to strike back and completely destroy the enemy, and to withstand whatever blackmail threats a second power might make."

Listening, the free world rests a little easier, for it knows that in Moscow and Peiping they, too, can hear the music of McNamara's band.

## Not-Too-Easy Card Trick *By Betty Kahn*

You don't need cards for this trick. Just *think* them. But remember their values—jack equals 11; queen, 12; king, 13; ace, 1. Remember, too, clubs equal six; diamonds, seven; hearts, eight; spades, nine. Tell a friend you can guess what card he's thinking of.

First, he thinks of a card. Then he must add to it the number of the next higher card. He multiplies the total by five, then adds the value of his suit (clubs, six, etc.).

Ask what number he has attained. Then you mentally subtract five and tell him the card he thought of.

For instance, let's say he thinks of the two of clubs. He adds three, next higher. Two and three equal five. He multiplies by five. Five times five are 25. Add the suit value—25 plus 6 equals 31. He tells you 31, and you mentally subtract five, which is 26. The first figure is the card he was thinking of, and the second figure is his suit.

As the game starts, the leader holds the penny. Each player holds out his hands, palm to palm. The leader pretends to drop his penny into each pair of hands. The one who gets the coin is chased by the others as soon as they suspect he has it. When he returns it to the leader, and only then, he is safe. If he does, he becomes the next leader. By the way, if the players don't know whom to suspect, the leader tells them who has the coin. The chase then begins!

# The Greatest Voice I Ever Heard

By EDDIE CANTOR

*Though he died four decades ago, the incomparable Caruso is vividly recalled by this popular comedian who was his close friend*

IN MY 70 YEARS, I have been privileged to know many of the personalities acknowledged to be "the greatest" in their field.

I have counted as my friends Jack Dempsey, Florenz Ziegfeld, Jascha Heifetz, John Barrymore, Babe Ruth, Charlie Chaplin, Richard Rodgers and Oscar Hammerstein, Pavlova, and George Gershwin.

But among all these memorable people, none stands out as greater or more colorful than Enrico Caruso. Although he died almost 41 years ago, on Aug. 2, 1921, he will be remembered for all time as the greatest voice ever heard.

Today, anyone can tell you "the Met" means the world-famous Metropolitan Opera House. But there was a time when, to most people, the word "met" meant nothing more than the past tense of "meet." It was Caruso's debut in "Rigoletto" that made the difference.

Enrico Caruso was introduced to me backstage at a benefit. Although a star in my own right, I was secretly awed at the thought of playing on the same bill with the "Great Caruso." But a singer of such stature was bound to be self-centered and temperamental, I thought. As much as I admired the artist, I decided to avoid the man and sat in my dressing room waiting to go on. But soon there was a knock on my door. When I opened it, there stood Enrico.

"Eduardo," he said, "you singer; I singer. That's why I'm here—to make deal with you. Give me your word you no sing 'Vesti la Giubba,' and I promise you I no sing 'Ida, Sweet As Apple Cider.' Thus was born a friendship that was to last until his death.

At the time we met, I was called the "Apostle of Pep." But after getting to know the greatest voice in the world, I decided: energy, thy name is Enrico.

HE OFTEN REMINDED me of a lovable, mischievous puppy eagerly racing after life, grabbing each moment, exploring it, vigorously shaking from it every experience. Never once did I see Caruso bored or indifferent. He seemed to live as he sang: savoring every note, considering none so unimportant that it could be slurred, and searching (and finding) the rich tone in each.

Enrico and I were having lunch one day at New York's Astor Hotel when several good friends (and some not so good) sat down and chatted for a few minutes. Suddenly, one of them turned to Caruso and asked: "How come you got so many clothes?" The tenor smiled. "Two reasons: one, I like; two, some people I know—they like. And I like to give some clothes to them."

Someone else, saying this, might have been "laying it on" for effect. Not Enrico. Despite his fame, fortune, and travels about the world, he never lost a kind of childlike innocence. With the simplicity of a generous child, he wanted to share his good fortune—and you can imagine how fast this word spread. He was besieged by pleas for money, yet, as far as I know, not one was refused.

*The Met became an opera house of world status after Enrico Caruso's debut there in "Rigoletto."*

One morning, I stopped by to pick him up and found him signing the last of nearly a dozen checks. "But Mr. Caruso," his secretary protested, "*all* these people cannot be deserving." Caruso thought about this a moment and answered: "You right. But how I know which is and which is not? If I say 'This one!' and is not the one, I feel too bad. This way, I no make any mistake."

Caruso not only had ability as a singer but also as a cook. At one party, he insisted on going into the kitchen and mixing the salad. A few minutes later, the kitchen door opened and out strode the cook, her face livid. "That man in there! Really, Madam, this is no time to break in new help!"

Contrary to what I would have expected of him, Enrico strenuously objected to listening to amateur singers. He did and said anything to get out of it. On the occasions that he relented and listened, however, Enrico concentrated on every note and gesture, and his opinion was one of the few I knew to be completely honest.

Forced to listen to the daughter of a friend, his advice to her went something like this: "Practice every day, not less than three or four hours. Keep yourself in good health. Take care of your voice. Then find the man you love and who loves you—and get married!"

WHENEVER Caruso was in Naples, he dined at one restaurant only, permitting no one to wait on him except Luigi. This became Luigi's claim to fame—Caruso's personal waiter!

One evening, Enrico came in with a party of friends but waved aside his old waiter. "Luigi, please," he said, "tonight you no wait on me. You too old; I got to have a younger waiter."

Stunned, Luigi stumbled back to the kitchen, his eyes filling with tears. He picked up his hat and coat and started out the door. The proprietor handed him a note. Luigi opened it, read it—and read it again. He, Luigi, was the new owner of the restaurant! Caruso had bought it for him.

New York's Fifth Avenue still remembers Enrico's fabulous buying sprees. There was the time he took his wife Dorothy to buy a fur coat. Mannequins paraded in wraps of sable, ermine, chinchilla, moleskin, broadtail, beaver. The great tenor turned to his wife: "Which you want?" Dazzled by the display, she said: "It's hard to choose—I think the sable." Caruso turned to the manager: "She like all; we take all!"

Caruso deeply appreciated the devotion of people close to him, particularly that of Martino, his valet, who was with him constantly. When Enrico received an invitation from the Kaiser to spend a week with him at Potsdam, Germany, to discuss the operas of the coming season, Caruso sent his regrets. The invitation had not included his man Martino. A second invitation came—this time for both. At dinner a few nights later, the Kaiser proposed a toast: "If I were not Kaiser Wilhelm, Emperor of Germany, I should like to be one man—Martino. He goes everywhere Caruso goes."

More than four decades have gone by since Caruso died, yet his love for people and his laughter are as vividly etched in my mind today as they were in that happy era of our friendship.

### VINCE EDWARDS

A role that combines the savage male with the protective doctor has made Vince Edwards ("Dr. Ben Casey") popular with millions of television fans. Older than most of the new stars—he admits to 30 but probably has passed 35—Vince credits much of his vitality to organic foods and weight lifting. He learned his profession at the American Academy in New York and through minor roles on the stage and in the movies—where he usually portrayed gangsters. The popularity of Vince and another tv doctor, Richard Chamberlain (see below), rated them a feature in FAMILY WEEKLY June 24.

### HORST BUCHHOLZ

Dynamic, intense Horst Buchholz wouldn't change his name to fit either the public's tongue or theater marquees—and his fight for individuality has paid off in box-office popularity. Horst was born 29 years ago in Berlin. During World War II, his home was bombed, and he was evacuated to a children's camp. He ultimately walked all the way home from Czechoslovakia, living on begged and stolen food. To help support his family, he turned to the theater at 16 and made his American debut in "The Magnificent Seven." Of the young actors featured here, Horst is the only one married.

### GEORGE MAHARIS

Born of Greek parents in a tough section of New York 32 years ago, George Maharis learned early in life how to take care of himself. He quit school to join the Marines but later returned to get his high-school diploma. He shunned a secure future with a big mail-order company to take an uncertain job as a singer in a small night club. His first break came when he received a part in Wally Cox's "Mr. Peepers" show. This eventually led to a starring role in the "Route 66" series. In his spare time, George boxes and enjoys painting in oils.

### MAXIMILIAN SCHELL

Hollywood was agog when a "new star," Maximilian Schell, won the best-actor Oscar for his role in "Judgment at Nuremberg." But the 31-year-old native of Vienna is not really a newcomer. In Europe he already has considerable prestige. Now he is building an equally solid reputation in the U.S.—as witness his latest performances in "Five Finger Exercise" and "The Reluctant Saint." Max was born into a theatrical family. His mother directs a drama school, his father is a playwright, and his sister is the talented actress Maria Schell.

# MALE STARS

### GEORGE CHAKIRIS

In his first film role as the Puerto Rican gang leader in "West Side Story," 28-year-old George Chakiris walked off with a coveted Oscar as best supporting actor. Ironically, Hollywood had shunned him three years earlier, and he turned to New York and the stage. Two weeks after his arrival there, he was picked for the London company of "West Side Story." George, who, like Maharis, is of Greek extraction, still lives with his family and keeps a close watch on his budget. Presently starring in "Diamond Head" with Charlton Heston, he soon will leave for the Far East to make a film with Yul Brynner.

### RICHARD BEYMER

A native of Iowa, 23-year-old Richard Beymer moved to Hollywood when he was 10—and almost immediately took advantage of the fact. He soon had the juvenile lead on a children's television show; and by the time he was 14 he had made his first movie. Since then, Richard has progressed steadily to a point where he has become Hollywood's busiest young actor. His credits during the last 12 months include leads in "West Side Story," "Five Finger Exercise," "Bachelor Flat," and "Adventures of a Young Man." He enjoys privacy and lives simply and quietly, seriously painting during free hours.

### WARREN BEATTY

Smolderingly handsome Warren Beatty exploded into stardom like a rocket headed for space. A hit in his first Broadway play, "Loss of Roses," he jetted right into a co-starring role opposite Natalie Wood in his first movie, "Splendor in the Grass." From there, he went to other starring roles. Like Horst Buchholz, Warren has often been compared to the late James Dean because of his independent manner. Yet Beatty is unique—sleepy, vibrant, hostile, nonconforming, moody, and intelligent. Warren comes from a theatrical family. His grandmother was an elocution teacher, his mother an actress, and his sister is none other than Shirley MacLaine.

### RICHARD CHAMBERLAIN

Cursed with looks that belie his strength and masculinity and frankly a novice in the acting profession, Dick Chamberlain beat the odds by developing into an actor who can hold his own even with veteran Raymond Massey and the guest stars on tv's popular "Dr. Kildare" series. People tend to like 27-year-old Dick instantly because of his friendly grin and his inherent shyness (which kept him from admitting he had seriously studied opera until after he was firmly established in his "medical" role). Dick likes people and loves premieres and parties. But there's nothing namby-pamby about this six-foot, 175-pound bachelor. He has a mind of his own and uses it.

**More mothers use Fletcher's Castoria than any other laxative**

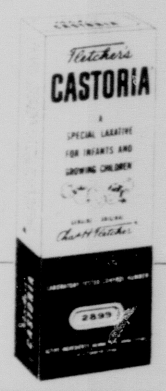

*Because*

Fletcher's Castoria gives the prompt, yet natural-like relief from temporary constipation that medical authorities agree is best for a child's young system. Its pure extract of Senna is considered one of nature's finest vegetable laxative products.

Fletcher's Castoria is gentle, the prime requisite for a child's laxative. It contains none of the harsh drugs so often found in adult laxatives, drugs that can upset your child's system.

Fletcher's Castoria is liquid, so exact dosage is sure: from drops to teaspoonfuls as needed. Very important, too, Castoria tastes good. So children take it willingly, even lick the spoon.

Fletcher's Castoria is the only nationally-recognized laxative made especially for children of all ages. So why take chances . . . the laxative that's "right" for you can well be "wrong" for your child. Get famous Fletcher's Castoria today.

Ironically, Hollywood had shunned him three years earlier, and he turned to New York and the stage. Two weeks after his arrival there, he was picked for the London company of "West Side Story." George, who, like Maharis, is of Greek extraction, still lives with his family and keeps a close watch on his budget. Presently starring in "Diamond Head" with Charlton Heston, he soon will leave for the Far East to make a film with Yul Brynner.

### RICHARD BEYMER

A native of Iowa, 23-year-old Richard Beymer moved to Hollywood when he was 10—and almost immediately took advantage of the fact. He soon had the juvenile lead on a children's television show; and by the time he was 14 he had made his first movie. Since then, Richard has progressed steadily to a point where he has become Hollywood's busiest young actor. His credits during the last 12 months include leads in "West Side Story," "Five Finger Exercise," "Bachelor Flat," and "Adventures of a Young Man." He enjoys privacy and lives simply and quietly, seriously painting during free hours.

### WARREN BEATTY

Smolderingly handsome Warren Beatty exploded into stardom like a rocket headed for space. A hit in his first Broadway play, "Loss of Roses," he jetted right into a co-starring role opposite Natalie Wood in his first movie, "Splendor in the Grass." From there, he went to other starring roles. Like Horst Buchholz, Warren has often been compared to the late James Dean because of his independent manner. Yet Beatty is unique—sleepy, vibrant, hostile, nonconforming, moody, and intelligent. Warren comes from a theatrical family. His grandmother was an elocution teacher, his mother an actress, and his sister is none other than Shirley MacLaine.

### RICHARD CHAMBERLAIN

Cursed with looks that belie his strength and masculinity and frankly a novice in the acting profession, Dick Chamberlain beat the odds by developing into an actor who can hold his own even with veteran Raymond Massey and the guest stars on tv's popular "Dr. Kildare" series. People tend to like 27-year-old Dick instantly because of his friendly grin and his inherent shyness (which kept him from admitting he had seriously studied opera until after he was firmly established in his "medical" role). Dick likes people and loves premieres and parties. But there's nothing namby-pamby about this six-foot, 175-pound bachelor. He has a mind of his own and uses it.

*When childhood constipation occurs*

**More mothers use Fletcher's Castoria than any other laxative**

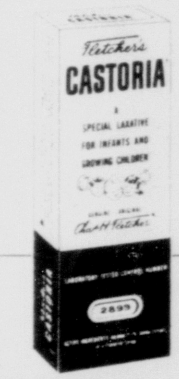

*Because*

Fletcher's Castoria gives the prompt, yet natural-like relief from temporary constipation that medical authorities agree is best for a child's young system. its pure extract of Senna is considered one of nature's finest vegetable laxative products.

Fletcher's Castoria is gentle, the prime requisite for a child's laxative. It contains none of the harsh drugs so often found in adult laxatives, drugs that can upset your child's system.

Fletcher's Castoria is liquid, so exact dosage is sure: from drops to teaspoonfuls as needed. Very important, too, Castoria tastes good. So children take it willingly, even lick the spoon.

Fletcher's Castoria is the only nationally-recognized laxative made especially for children of all ages. So why take chances . . . the laxative that's "right" for you can well be "wrong" for your child. Get famous Fletcher's Castoria today.

# I was just thinking . . .®

IN A FAR RECESS of my brain, there is a wishful vision of *soignee* old me in one of those "Harper's Bazaar" hostess gowns with the hand-loomed skirts.

As a car sweeps under a portico, I am stepping forward from a rose-garlanded terrace crying out in dulcet tones, "How delightful. It's good to see you."

Then a couple straight out of an automobile advertisement emerges, and we embrace gently, something like General de Gaulle pinning on a Croix de Guerre.

This picture melts in real life.

When someone drops in, I happen to be wearing either an old dress from which the belt is missing or a pair of slacks I save for painting. Walls, not canvases.

I gallop out, turning an ankle as I go, shouting something like, "Gee, it's real swell you came."

My guests do not dine on a terrace under an umbrella nor on heirloom china centered with squab under glass. I don't shoot the pigeons, anyway.

My visitors are lucky to get a cold wiener among the flies in the back yard. If they drop a fork, it's curtains. The grass is usually longer than Brigitte Bardot's hair.

BEES WILL dive-bomb my diners. Ants will ascend their trouser legs. Only recently some diners went home ill and early because an owl caught a mouse under the charcoal grill. Someone fainted then, and I believe that it was me.

When unexpected friends come by, my larder is always well-stocked. I have three heels of bread I was saving for a meat loaf, but no meat loaf. I have a pound of rancid butter. I have, perhaps, a *soupcon* of aged cottage cheese and an old apple.

But just let there be a day when no one comes. I have bathed and manicured my garden-choked nails. I have clad myself in a crisp tribute to the season. I have cooked a casserole of zucchini and guinea hen and chilled a magnum of orange pop. I sit around wallowing in cleanliness and hospitality.

And I can't even persuade the Fuller brush man to have a cup of coffee with me.

## Green Rice Casserole

*For help-yourself buffet service, we suggest these harmonizing go-alongs with the Oven-Barbecued Chicken—Green Rice Casserole, cut in generous squares and accompanied by cream sauce, a platter of ears of golden corn, and spiced crab apples for a bright dash of red color.*

TO PREPARE: 15 MIN.
TO BAKE: 30-35 MIN.

- 3 cups hot cooked rice
- ½ cup grated sharp Cheddar cheese
- ¼ cup butter
- ⅓ cup finely chopped parsley
- ⅓ cup finely chopped green onion
- ⅓ cup finely chopped spinach
- 2 eggs (½ cup), well beaten
- 1½ cups milk, scalded
- Sauce (see recipe)

1. Mix cheese and ¼ cup butter into the hot rice. Add mixture of the next three ingredients and blend well.
2. Lightly mix in eggs and milk.
3. Turn into a shallow 1½-qt. baking dish.
4. Bake at 350°F for 30 to 35 min., or until set.
5. Cut into squares; serve immediately with Sauce. *6 to 8 servings*

**Sauce**—Melt 3 tablespoons **butter** in a saucepan over low heat. Blend in 3 tablespoons **flour,** ½ teaspoon **salt,** and a few grains **white pepper.** Heat until mixture bubbles, stirring constantly. Remove from heat. Add 1½ cups **milk,** stirring constantly. Bring to boiling, stirring constantly. Cook 1 to 2 min. longer. Mix in 1 tablespoon **soy sauce.** Keep hot.

## Stuffed Pattypan Squash

*For pleasing color and flavor harmony, complete each dinner plate of Oven-Barbecued Chicken and Stuffed Pattypan Squash with lemon-buttered tender whole carrots and crisp potato chips.*

TO PREPARE AND COOK: ABOUT 65 MIN.

- 6 white pattypan squash (about 4 lbs.)
- ½ cup boiling water
- ⅛ teaspoon salt
- ⅛ teaspoon Accent
- ¼ cup butter
- 1 tablespoon cream
- ½ teaspoon grated onion
- ¼ teaspoon salt
- ⅛ teaspoon Accent
- ⅛ teaspoon black pepper
- ⅓ cup fine dry bread crumbs
- 1 tablespoon minced parsley
- 1 tablespoon shredded Parmesan cheese
- 2 tablespoons butter

1. Put first four ingredients into a saucepan; cover and simmer until squash is just tender, about 35 min.
2. Drain squash and cut a slice from top of each. Carefully scoop out squash with a spoon, without breaking shells. Reserve shells. Drain squash, put into a bowl, and mash.
3. Blend ¼ cup butter, the cream, onion, and a mixture of the next three ingredients into the mashed squash.
4. Pile squash mixture lightly into shells. Sprinkle with a mixture of the crumbs, parsley, and Parmesan cheese. Dot with 2 tablespoons butter.
5. Place squash in a baking pan. Add boiling water to a depth of ¼ in.
6. Set in a 350°F oven until top is lightly browned. *6 servings*

## Lively Cheese Dip

TO PREPARE: 10 MIN.
(allow time for chilling)

- 1 3-oz. pkg. cream cheese, softened
- 1 1½-oz. pkg. Blue cheese
- 1 tablespoon cream
- ¼ teaspoon Worcestershire sauce
- 1 teaspoon grated onion
- 1 tablespoon lemon juice
- ¼ cup chopped pecans
- 2 tablespoons snipped parsley

1. Blend the first three ingredients in a bowl and beat until fluffy.
2. Stir in next four ingredients; chill thoroughly.
3. When ready to serve, sprinkle with parsley. Serve with **crisp crackers.** *About 1 cup dip*

## Snow Blossom Salad

Thoroughly chill fresh **spinach,** torn in pieces, and tiny fresh **cauliflower** flowerets. To serve, toss vegetables with a **garlic salad dressing** until well coated.

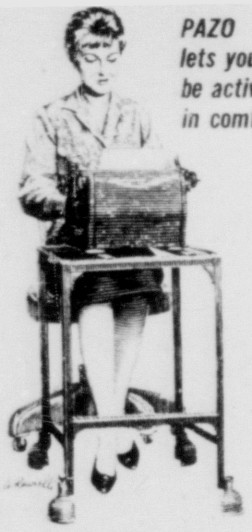

## Sunshine Cocktail

TO PREPARE: 15 MIN. TO CHILL: 3 HRS.

- 1 cup water
- ½ cup orange juice
- 1 tablespoon lime juice
- ½ cup chopped carrots
- 1-in. piece celery, chopped
- ¼ cup chopped cucumber
- 1 slice lemon with peel
- 1 tablespoon plus 2 teaspoons sugar
- ½ teaspoon seasoned salt
- ⅛ teaspoon salt

Combine all ingredients in blender container and blend until liquefied. Serve with **lime wedges.**

*About 6 servings*

An attention-getting version of old-fashioned shortcake — tender buttermilk biscuits top a colorful medley of fresh ripe fruit.

## Fruit Medley Shortcake

TO PREPARE: 20 MIN. TO BAKE BISCUITS: 10 MIN.
(allow time for chilling dough)

- 1½ cups flour
- 1½ teaspoons baking powder
- ½ teaspoon salt
- 1 tablespoon sugar
- ½ cup butter
- 1 egg, slightly beaten
- ½ cup buttermilk
- 4 cups sliced fresh peaches, sweetened
- 1 cup red raspberries, sweetened
- 1 cup blueberries, sweetened

1. Blend flour, baking powder, salt, and sugar in a bowl. Cut in butter with a pastry blender or two knives until mixture resembles coarse corn meal.

2. Make a well in the center of the dry ingredients; add egg and buttermilk. Stir with a fork until just blended. (Dough will be sticky.)

3. Turn dough onto waxed paper; flatten and shape into a square; chill 1 hr.

4. Roll dough ½ in. thick on a lightly floured surface. Cut into 1½-in. squares or diamonds and place on baking sheet 1 in. apart.

5. Bake at 450°F about 10 min., or until biscuits are lightly browned.

6. Put a mixture of the fruits in a shallow serving dish. Top with biscuits. Serve with **sweetened whipped cream.** Chopped peaches may be blended into whipped cream, if desired. *About 8 servings*

## Oven-Barbecued Chicken

TO PREPARE: 5 MIN. TO ROAST: ABOUT 1½ HRS.

- 3 1½- to 2-lb. broiler-fryer chickens
- 6 tablespoons butter, melted
- 1½ teaspoons salt
- ¼ teaspoon freshly ground black pepper
- ¾ to 1 cup Golden Barbecue Sauce (see recipe)

1. Quarter and rinse chickens; pat dry with absorbent paper. Put on rack in roasting pan and brush generously with butter; sprinkle with salt and pepper.

2. Roast at 350°F about 50 min., or until golden brown, brushing occasionally with butter.

3. Brush browned chicken with *Golden Barbecue Sauce* and repeat every 5 min.; continue to roast at 350°F about 40 min., or until chicken is done. Serve immediately. *6 servings*

## Golden Barbecue Sauce

TO PREPARE: 5 MIN.

- ¾ cup light molasses
- ½ cup prepared mustard
- 2 tablespoons plus 2 teaspoons Worcestershire sauce
- ¾ cup cider vinegar
- 1 teaspoon Tabasco
- ⅛ teaspoon marjoram
- ⅛ teaspoon oregano

Pour molasses into a mixing bowl; gradually add mustard and then remaining ingredients, blending well after each addition. Store, covered, in refrigerator. Mix thoroughly before using.
*About 2 cups barbecue sauce*

**Note:** This sauce may also be used in preparing barbecued frankfurters, spareribs, hamburgers, bologna, or canned luncheon meat.
